	45. Conditions and restrictions in respect of inputs and capital goods sent to the job worker

Statutory Provisions**16. Eligibility and conditions for taking input tax credit**

(1) Every registered person shall, subject to such conditions and restrictions as may be prescribed and in the manner specified in section 49, be entitled to take credit of input tax charged on any supply of goods or services or both to him which are used or intended to be used in the course or furtherance of his business and the said amount shall be credited to the electronic credit ledger of such person.

(2) Notwithstanding anything contained in this section, no registered person shall be entitled to the credit of any input tax in respect of any supply of goods or services or both to him unless, -

(a) he is in possession of a tax invoice or debit note issued by a supplier registered under this Act, or such other tax paying documents as may be prescribed;

(b) he has received the goods or services or both

[Explanation—For the purposes of this clause, it shall be deemed that the registered person has received the goods or, as the case may be, services—

(i) where the goods are delivered by the supplier to a recipient or any other person on the direction of such registered person, whether acting as an agent or otherwise, before or during movement of goods, either by way of transfer of documents of title to goods or otherwise;

(ii) ¹where the services are provided by the supplier to any person on the direction of and on account of such registered person]

(c) subject to the provisions of ²[section 41 or section 43A], the tax charged in respect of such supply has been actually paid to the Government, either in cash or through utilization of input tax credit admissible in respect of the said supply; and

(d) he has furnished the return under section 39:

Provided that where the goods against an invoice are received in lots or instalments, the registered person shall be entitled to take credit upon receipt of the last lot or instalment:

Provided further that where a recipient fails to pay to the supplier of goods or services or both, other than the supplies on which tax is payable on reverse charge basis, the amount towards the value of supply along with tax payable thereon within a period of one hundred and eighty days from the date of issue of invoice by the supplier, an amount equal to the input tax credit availed by the recipient shall be

added to his output tax liability, along with interest thereon, in such manner as may be prescribed:

Provided also that the recipient shall be entitled to avail of the credit of input tax on payment made by him of the amount towards the value of supply of goods or services or both along with tax payable thereon.

- (3) *Where the registered person has claimed depreciation on the tax component of the cost of capital goods and plant and machinery under the provisions of the Income Tax Act, 1961, the input tax credit on the said tax component shall not be allowed.*
- (4) *A registered person shall not be entitled to take input tax credit in respect of any invoice or debit note for supply of goods or services or both after the due date of furnishing of the return under section 39 for the month of September following the end of financial year to which such invoice or ³~~[invoice relating to such]~~ debit note pertains or furnishing of the relevant annual return, whichever is earlier.*

⁴*[Provided that the registered person shall be entitled to take input tax credit after the due date of furnishing of the return under section 39 for the month of September, 2018 till the due date of furnishing of the return under the said section for the month of March, 2019 in respect of any invoice or invoice relating to such debit note for supply of goods or services or both made during the financial year 2017-18, the details of which have been uploaded by the supplier under sub-section (1) of section 37 till the due date for furnishing the details under sub-section (1) of said section for the month of March, 2019]*

Extract of the CGST Rules, 2017

36. Documentary requirements and conditions for claiming input tax credit.

- (1) *The input tax credit shall be availed by a registered person, including the Input Service Distributor, on the basis of any of the following documents, namely,-*
 - (a) *an invoice issued by the supplier of goods or services or both in accordance with the provisions of section 31;*
 - (b) *an invoice issued in accordance with the provisions of clause (f) of sub-section (3) of section 31, subject to the payment of tax;*
 - (c) *a debit note issued by a supplier in accordance with the provisions of section 34;*
 - (d) *a bill of entry or any similar document prescribed under the Customs Act, 1962*

³ Omitted vide The Central Goods and Services Tax Amendment Act, 2018 w.e.f. date to be notified.

⁴ Inserted vide Central Goods and Services Tax (Second Removal of Difficulties) Order No. 02/2018 dated 31.12.2018

or rules made thereunder for the assessment of integrated tax on imports;

- (e) *an Input Service Distributor invoice or Input Service Distributor credit note or any document issued by an Input Service Distributor in accordance with the provisions of sub-rule (1) of rule 54.*
- (2) *Input tax credit shall be availed by a registered person only if all the applicable particulars as specified in the provisions of Chapter VI are contained in the said document, and the relevant information, as contained in the said document, is furnished in FORMGSTR-2 by such person:*
- ⁵*[Provided that if the said document does not contain all the specified particulars but contains the details of the amount of tax charged, description of goods or services, total value of supply of goods or services or both, GSTIN of the supplier and recipient and place of supply in case of inter-State supply, input tax credit may be availed by such registered person]*
- (3) *No input tax credit shall be availed by a registered person in respect of any tax that has been paid in pursuance of any order where any demand has been confirmed on account of any fraud, willful misstatement or suppression of facts.*
- (4) ⁶*[Input tax credit to be availed by a registered person in respect of invoices or debit notes, the details of which have not been uploaded by the suppliers under sub-section (1) of section 37, shall not exceed ⁷[10 per cent]. of the eligible credit available in respect of invoices or debit notes the details of which have been uploaded by the suppliers under sub-section (1) of section 37]*
- ⁸*[Provided that the said condition shall apply cumulatively for the period February, March, April, May, June, July and August, 2020 and the return in FORM GSTR-3B for the tax period September, 2020 shall be furnished with the cumulative adjustment of input tax credit for the said months in accordance with the condition above.]*

37. Reversal of input tax credit in case of non-payment of consideration.

- (1) *A registered person, who has availed of input tax credit on any inward supply of goods or services or both, but fails to pay to the supplier thereof, the value of such supply along with the tax payable thereon, within the time limit specified in the second proviso to subsection(2) of section 16, shall furnish the details of such supply, the amount of value not paid and the amount of input tax credit availed of proportionate to such amount not paid to the supplier in FORM GSTR-2 for the*

16.1 Introduction

⁹Inserted vide Notf no. 26/2018-CT dt. 13.06.2018

Chapter V of CGST Act deals with input tax credit. The Credit of taxes paid on inputs, capital goods or input services against the output tax payable, forms the cornerstone in a GST regime. GST can be understood as a system of value-added tax on goods and/ or services. It is these provisions of Input Tax Credit that make GST a value-added tax i.e., collection of tax at all points in the supply chain after allowing for credit of taxes paid on inputs/input services and capital goods. The invoice method of value added taxation has been followed in the GST regime too, viz., the tax paid at the time of receipt of goods or services or both would be eligible for set-off against the tax payable on supply of goods or services or both, based on the invoices with a special emphasis on actual payment of tax by the supplier. The procedures and restrictions laid down in these provisions are important to make sure that there is seamless flow of credit in the whole scheme of taxation without any misuse.

16.2 Analysis

(i) Relevant definitions:

- (a) **Taxable person (2(107)):** Means a person who is registered or liable to be registered under section 22 or section 24. As such, the liability to pay tax devolves on every 'taxable person' whether or not registration has been sought. A plain reading of the input tax credit provisions makes it clear that input tax credit would be available only to a registered person and to a limited extent pre-registration credits are available under section 18(1).

In case taxes are paid after registration for past periods, the credit for period beyond 1 month from registration may not be available even if it is a bona fide error. This may not be the intention but law does not enable such credits. (However, credit for period beyond 1 month from registration only holds true in cases where a person applies for registration within a period of 30 days from the date on which he becomes liable to obtain registration)

- (b) **Input tax credit:** means the credit of "input tax" in terms of section 2(63).
- (c) **Input tax:** "Input tax" in terms of section 2(62) in relation to a registered person, means the Central tax, State tax, Integrated tax or Union territory tax charged on any supply of goods or services or both made to him and includes:
- integrated goods and service tax (IGST) charged on import of goods.
 - tax payable on reverse charge basis under IGST Act/SGST Act/CGST Act/UTGST Act.
 - but excludes tax paid as a composition levy.

Section 9(3) and 9(4) of CGST Act (similarly section 5(3) and 5(4) of the IGST Act) levies tax on goods or services or both on reverse charge.

Therefore, 'input tax credit' is the tax paid by a registered person under the Act whether as a forward charge or reverse charge for the use of such goods or services or both in the course or furtherance of his business.

- (d) **Electronic credit ledger:** The input tax credit as self-assessed in the return of

registered person shall be credited to electronic credit ledger in accordance with section 41, to be maintained in the manner as may be prescribed. [Section 2(46) read with Section 49(2)].

- (e) **“Capital goods”** means goods, the value of which is capitalised in the books of account of the person claiming the input tax credit and which are used or intended to be used in the course or furtherance of business [Section 2(19)].
- (f) **Input:** “Input” in terms of section 2(59) means:
 - any goods,
 - other than capital goods,
 - used or intended to be used by a supplier
 - in the course or furtherance of business
- (g) **Input service:** “Input service” in terms of section 2(60) means
 - any service
 - used or intended to be used by a supplier
 - in the course or furtherance of business.
- (h) **“Works Contract”** in terms of Section 2(119) means a contract for building, construction, fabrication, completion, erection, installation, fitting out, improvement, modification, repair, maintenance, renovation, alteration or commissioning of any immovable property wherein transfer of property in goods (whether as goods or in some other form) is involved in the execution of such contract;

(ii) **Section 16**

- (a) **Registered person to take credit:** Every registered person subject to Section 49 (payment of tax), shall be entitled to take credit of input tax charged on any supply of goods or services or both to him which are used or intended to be used in the course or furtherance of his business. The input tax credit is credited to the electronic credit ledger. Rule 36 of the Central Goods and Service Tax Rules, 2017 provides that input tax credit can be taken on the basis of any of the following documents:
 - (i) Invoice issued under section 31 by supplier of goods or services.
 - (ii) Debit note issued under section 34 by supplier of goods or services.
 - (iii) Bill of entry or any similar documents under Custom Act, 1962.
 - (iv) Invoice prepared in respect of supplies made under reverse charge basis issued u/s 31(3) (f).
 - (v) Invoice/ Credit Note issued by ISD for distribution of credit in accordance with Rule 54(1) of CGST Rules, 2017.

It is important to observe the words ‘used by him’ and ‘in his businesses as appearing in

section 16(1). These words refer to the registered taxable person in question and not the legal entity. So, input tax paid in a State must not be in relation to the business of a taxable person in another State, albeit belonging to the same person. For example, A Company has Branch-A which is a registered taxable person in Andhra Pradesh conducts conference in a hotel in Lonavla (Maharashtra) where CGST-SGST is charged by the hotel. This Company also has Branch-M which is a registered taxable person in Mumbai, now the provisions of section 16(1) operate as follows:

- CGST-SGST charged by the hotel in Lonavla (Maharashtra) is 'used in the business of Branch-A' in Andhra Pradesh and not in the business of Branch-M in Mumbai;
- Hotel would not be aware about the above fact and would not resist to issue the bill in the name of Branch-M because both are branches of the same Company;
- Since, CGST-SGST has been charged by the hotel, input tax credit would not be available to Branch-A as tax paid in Maharashtra is not a creditable tax in Andhra Pradesh;
- Branch-M may be compelled to forego the tax paid to the hotel. However, there may be an urge to save this loss by providing the GSTIN of Branch-M to the hotel. In fact, the Company is rightly required to obtain ISD registration in Maharashtra and distribute this credit entirely to Andhra Pradesh;
- But, Branch-M in Mumbai cannot justify this input tax credit as it is not '**used by him**' in '**his business**' but it is 'used by another (distinct person)' in 'that other (distinct persons') business';
- Care should be taken to verify 'whose' business each input tax credit relates to, that is, which is the exact distinct person who is eligible to each item of credit;
- If nexus is established between the services of the hotel and the 'business' of Branch-M, input tax credit may be availed by Branch-M. Nexus emerges if inter-branch supply of services occurs between Branch-M and Branch-A; and
- Alternatively, based on the amount of potential credits of Branch-A being as CGST + MGST amount and forfeited as credit, the company may decide to obtain ISD registration in the State of Maharashtra and transfer the same amounts as IGST from Maharashtra to Andhra Pradesh.

- (b) **Credit in case registration cancelled:** When 'registered person' is only entitled to take credit, registration is a pre-requisite to claim credit. And if registration once obtained is later cancelled, no further credits from the date of cancellation would be eligible. Not only will that, as at the date of such cancellation reversal of credits under section 29(5) come into operation without any provision for refund of any surplus credit after such reversal too. Care must be taken that registration is not cancelled so that credits are not endangered. This aspect becomes significant while planning M&A transactions where

business is transferred on a given date to another existing or new entity. In all these transactions, 'credit preservation' would be a key component in the M&A transaction structure. Credits can be irretrievably lost if there were a break in the registration position of transferor or transferee. Reference may be had to section 85 and rule 41 for detailed discussion about credit transfer in such transactions.

- (c) **Credit in case registration suspended:** Suspension of registration is NOT cancellation of registration. However, during the period of suspension, there is presumption of stoppage of business as a result, inward supplies during suspension are not admissible as it contradicts with such suspension. Please note that suspension is the result of 'application' by taxable person as noted from rule 21A. It does not lie with the taxable person to make such application for suspension of registration pending settlement of all dues to enable cancellation of registration and at the same time assert the existence (and continuation) of business by claiming credit on inward supplies. As such, where registration is suspended, credit is NOT admissible due to the presumption that is contrary to the premise in section 16(1).
- (d) **Wastage of inputs in the course of production:** Credit in respect of inputs that may have been wasted during the course of production of finished products does not cease to be '*used or intended to be used*' in the course or furtherance of business. As such, there is no restriction to read into the language of section 16 (1). In fact, the full extent of credit would be available whether the extent of wastage of inputs in the course of production of finished goods is within normal wastage norms or even exceeds that to be called abnormal wastage of inputs. Unless there is a diversion of inputs (in respect of which credit has been availed), there is no embargo on taking and retaining input tax credit. Section 17(5)(h) restricts credit on "goods lost" since these can no longer be used for the purpose of business but does not provide for restriction of credits on "loss of goods" which could be a process loss inherent to the nature of product on which credit has been availed. Therefore, "goods lost" must be given a completely different meaning as compared to "goods lost during production / process or a normal / abnormal loss". Please note that such in-process loss occurring in the course of job work would receive different treatment. Where the job work loss (of inputs) is normal loss, then credit claimed by the Principal would be undisturbed, but credit related to abnormal loss (of inputs) would be regarded as 'non return of inputs by job worker' which is 'deemed to be supply' under section 19(3) and 19(6), in case of capital goods.
- (e) **Input-Output nexus:** The CENVAT Credit Rules, 2004 under the excise and service tax regime allowed for credits on input and input services used for manufacture of excisable goods or for rendering taxable services. The credit under GST law is available on procurements which are "used" or "intended to be used" in the course or furtherance of business. Hence, any procurements though not having any remote connection with the manufacturing or rendering of outward supplies, would also qualify for input tax credit

so long as it is used or intended to be used for the purpose of business. Eg. Air Conditioner installed in the cabin of the Managing Director, Maharashtra has no correlation with the car manufactured at the Company Plant in Gujarat but the credit of tax relating to such air conditioner would be available since the air conditioner has been installed for the purpose of business.

- (f) **“One-to-one correlation” of credit from unrelated businesses with single GSTIN:** There is a well-accepted principle in any value added tax system to inquire whether the given set of rules requires ‘one-to-one correlation’ for credit admissibility and utilization. An example may present this principle better. Say, a proprietor runs a furniture trading business in Indore, MP and a software services business in Jabalpur, MP. If the given tax system does not permit cross-utilization of credit (validly availed) in the furniture trading business with the output liability in the software services business then, it can be said that that tax system requires ‘one-to-one correlation’. But, if another tax system (which GST is) allows such cross-utilization, then it can be said that ‘one-to-one correlation’ is NOT required. Taking this principle into the furniture business, credit availed in respect of inputs purchased for customer ‘A’ can be utilized towards payment of output tax supplied to customer ‘B’. This too, is an example of the principle at work. As long as all credits and corresponding output tax liability are contained within one single GSTIN, such cross-utilization is freely permitted.
- (g) **Setting-up of business and credit relating to pre-setup expenditure (preliminary and pre-operative) of such business:** It is well known that ‘commencement of business’ is not the same as ‘commencement of entity’. An entity may be incorporated to explore business possibilities. Or an entity may be incorporated to implement a business opportunity. Where expenses are incurred without a ‘business’ in existence, credit is doubtful although the underlying expenses are seemingly business-like and business-linked like rent, consultancy, travel, etc.
- (h) **Credit involved in sunk costs of abandoned and unfructified projects:** While new businesses may have certain aspects to be examined (i) date from when business is said to be commenced (ii) actually used in business, there is another aspect where income-tax appears to be more liberal than GST law. This may be presented with an example. Say, in case (A) a mineral exploration company applies for 10 sectors to search or prospect mineral deposits, discovers 8 sectors to have deposits, finalizes 6 sectors to be viable for extraction and extracts minerals only in 4 sectors. Here, it may be stated that it is the nature of this industry that in order to arrive at those 4 viable sectors to extract mineral, prospecting costs must be incurred on 10 sectors. And there are judicial authorities that allow expenditure in unsuccessful sectors (areas where mineral deposits expected) as admissible deduction in arriving as gross total income for income-tax purposes because that is the nature of the business and only by starting with 10 sectors can the company reach those 4 sectors to extract. Now, say in case (B)

a film production company launches 3 films and it has paid writers and purchased the scripts for all 3 films and then paid fees to directors/actors for 2 films and finds distributors for only 1 film. Now, in computing gross total income for the film business of this production company, expenditure on film 1 and 2 are not 'used in business' against income earned from film 3. Here, expenditure incurred on film 1 and 2 may be treated as a 'loss-making venture' and set-off against income from film 3 which is 'profitable venture'. As to the correctness of the treatment in income-tax is a matter that turns on its unique facts but for GST purposes following key points may be noted (a) factual tests in case A and case B are not identical, in case A it is the nature of the business to 'spend on several to earn from few' and in case B, it is clear that there loss-making ventures have no contributory value to the profitable venture (b) requirement in section 16(1) is 'actual end-use' so that there is output tax due and where inward supplies do not result in output tax, credit is ineligible (see section 17(2) and 17(5)(h) for explanation) (c) although there is no requirement for 'one-to-one correlation' in GST, non-use of inward supplies is not going to still pass muster and be admissible and if non-use (resulting in taxable outward supplies) was not a criteria then, section 17(2) and 17(5)(h) would be otiose. Now, without laying down any rule of a direct link between credit in GST and costs such in projects that are abandoned or unfructified, experts caution that admissibility of credit under section 16(1) in these cases cannot be without further inquiry.

- (i) **Credit involved in 'capital or debt' raising activities:** There are a host of instances due to 'remoteness' of connection between taxable outward supplies and the expenditure involving GST credit. Experts caution that absence of a specific embargo in, say, section 17(5) for such cases is reason enough to claim credit but consider that these expenditure have been a riddled with controversy and contested as to whether they are 'used in business'.
- (j) **Costing-pricing inter-relationship:** Credit may be availed in respect of inputs whose cost may not be included in the pricing of the product and consequently, not included in the transaction value – this may create a concern as to whether this credit is admissible or not. As explained by the Hon'ble Supreme Court in CCE, Pune v. Dai IchiKarkaria^{1999 (112) ELT 353}, the nature of Modvat scheme is such that the cost of purchase of inputs lowered because credit, does not immediately, directly and proportionately impact the assessable value of the finished product manufactured using the inputs.
- (k) **GST credit is subject to 'conditions precedent' and 'conditions subsequent':** GST law has laid down certain conditions in sections 16 to 18 of CGST Act. Some of these conditions are 'before' claiming input tax credit, some are 'after' claiming credit. It is true that in Eicher Motors Ltd. v. UoI ^{1999 (106) ELT 3 (SC)} it was held that Modvat credit is an 'indefeasible right'. But, every 'right' becomes 'indefeasible' after it is 'vested'. Rights are relevant only when it is legally recognized and by that recognition enforceable in a

Court of law for infringement or other threat it is enjoyment by its owner. If these attributes are missing, then it is not a right but a reward or a benefit allowed by the magnanimity of the law. And by that reason, it can be taken away without reason or explanation. But, lawful rights once vested become indefeasible and until they are vested, these rights are 'inchoate' (or in formation), that is, there are not 'yet' vested. This makes identification of 'vesting conditions' very important. If the vesting conditions are satisfied, then the rights are vested and hence, indefeasible. As a corollary, unless the rights are vested, they remain 'in choate' and can be taken away by operation of law. The law that can take away 'in choate rights' may be (a) conditions linked to vesting or (b) prescription. Conditions linked to vesting of input tax credit in GST, can be found in section 16(2), among others. Notice that every 'taxable person' is liable to pay tax (and be compelled, in accordance with the law prescribed, to pay the tax levied) but only a 'registered person' is eligible to 'take' credit. Care must be taken of the 'effect' of these two central aspects, namely, (a) conditions linked to vesting or (b) prescription, If any of these central aspects are not satisfied, then even if credit may be 'provisionally' allowed, will need to be returned back. And until 'conditions precedent' are not satisfied, credit cannot be taken and in case 'conditions subsequent' are not satisfied, credit (provisionally) taken must be paid back or returned. Below are list of conditions linked to claim of input tax credit:

Pre-conditions		Post-conditions	
Registration	16(1)	Payment to supplier within 180 days	Rule 37
Possession of valid tax invoice	16(2)(a)	Actual end-use in taxable outward supplies	17(1), 17(2), 17(5)(h) and 18(4)
Delivery of goods or services (complete and effective)	16(2)(b)	Not blocked (default)	17(5)
Payment of tax by supplier	16(2)(c)	Not ineligible (special category)	Tariff conditions (rate notif.)
Credit show in return filed	16(2)(d)	Time limit to claim credit	16(4)

- (I) **Time limit to avail the input tax credit:** A registered person is not entitled to avail input tax credit on tax invoice/ debit notes after the due date of furnishing of the return under section 39 for the month of September of the subsequent financial year or furnishing of the relevant annual return, whichever is earlier. In fact, not only is registration a pre-requisite (see, 'registered taxable person' shall be entitled to claim credit) but filing of return under section 39 is also a requirement. Input tax credit is a right that does not 'vest' until the last of conditions in section 16(2) are fulfilled. Until

then, this right i.e., input tax credit is *inchoate* (or incomplete or in-formation) and not a vested right. Rights that are not yet vested can lapse by limitation unless effective steps to actualize those rights are taken by the person. And once the right stands vested, it becomes indefeasible except by operation of subsequent inherent conditions. In other words, input tax credit which is a right in law of the taxable person is not fully mature and is not available to the taxable person until all pre-conditions (steps to actualize available rights) have been taken. Section 16(2) lays down these steps that can be taken immediately or in course of time. And once all these steps are taken then the right i.e. 'available' becomes a right that can be 'availed'. After the credit stands availed, it is available without any time limit. Section 18(4) provides a condition (known at the time of availing credit) that this credit will be reversed if the outward supplies become exempted. Other than this situation, the credit availed is permanently available to the taxable person. Now, in a situation where the credit that is 'available' is somehow delayed and 'not taken', it would still be available but not beyond the limitation prescribed in Section 16(4). Once the limitation prescribed in section 16(4) sets in, the credit which is 'not availed' by virtue of the limitation prescribed is proper in view of the principle of reaching finality in respect of all 'available' credits that may 'not' be intended to be availed. Experts suggest that in case of doubt, one can avail the credit and then reverse under protest under intimation to revenue. This would ensure that the time limitation would not be the reason for not taking ITC once clarity emerges from Courts.

Section 16(4) provides for time limit for taking credit for Invoices and Debit Notes. Bill of Entry is not mentioned in Section 16(4) and hence it appears that there is no time limit for taking credit in case of Bill of Entry.

It would be important to note that the due date for availing credit of debit notes, it is linked to the financial year to which invoice relating to such debit note pertains to and not the financial year in which the debit note has been issued.

Illustration

Document Type	Document Date	Due date for taking credit*
Invoice	05.07.2018	Returns for the month of September 2019
Debit Note	05.07.2018 (Debit Note relates to invoice raised on 05.03.2018)	Returns for the month of September 2018
Debit Note	05.12.2018 (Debit Note relates to invoice	Returns for the month of September 2018 – Effectively, credit cannot be availed for debit notes issued after 6 months from the end of the financial

	raised on 05.03.2018)	year to which the invoice pertains to, though there is no time limit for issuance of Debit Note in Section 34 (unlike the time limit prescribed for Credit Notes under the said Section)
--	--------------------------	--

* assumed that Annual Returns have been filed after the filing of the returns for the month of September

Vide Removal of Difficulty Order no. 2/2018-Central Tax dated 31st December 2018, it has been stated that the time limit for taking input tax credit for the period 2017-18 has been extended. The input tax credit for the invoices or debit note supply of which occurred during the period 2017-18 has been allowed to be taken till the due date of furnishing the return of March 2019 i.e. 20th April 2019. However, the availability of input tax credit was subject to the condition that the supplier has uploaded the invoice details in Form GSTR 1 till the due date of furnishing the return for the month of March 2019.

From the above, it can be seen that the due date for taking of input tax credit is the due date of filing the return for the month of September. Further, for the period 2017-18, the due date of taking input tax credit has been allowed upto the due date of filing the return for the month of March 2019 if the supplier had uploaded the invoice details.

In the case of AAP & Company, Chartered Accountants, the Gujarat High Court held the following in brief:

- i) Sub-rule 1 of Rule 61 of the CGST Rules/GGST Rules provides that the return required to be filed in terms of Section 39(1) of the CGST/GGST Act is to be furnished in Form GSTR-3.
- ii) It would be apposite to state that initially it was decided to have three returns in a month, i.e. return for outward supplies i.e. GSTR-1 in terms of Section 37, return for inward supplies in terms of Section 38, i.e. GSTR-2 and a combined return in Form GSTR-3. However, considering technical glitches in the GSTN portal as well as difficulty faced by the tax payers it was decided to keep filing of GSTR-2 and GSTR-3 in abeyance. Therefore, in order to ease the burden of the taxpayer for some time, it was decided in the 18th GST Council meeting to allow filing of a shorter return in Form GSTR-3B for initial period. It was not introduced as a return in lieu of return required to be filed in Form GSTR-3. The return in Form GSTR-3B is only a temporary stop gap arrangement till due date of filing the return in Form GSTR-3 is notified.
- iii) It would also be apposite to point out that the Notification No.10/2017 Central Tax dated 28th June 2017 which introduced mandatory filing of the return in Form GSTR-3B stated that it is a return in lieu of Form GSTR-3. However, the Government, issued Notification No.17/2017 Central Tax dated 27th July 2017 and omitted the reference to return in Form GSTR-3B being return in lieu of Form

GSTR-3.

- iv) The Government amended rule 61(5) “with effect from 1 July 2017” to state that GSTR 3B is a ‘substitute’ for GSTR 3 under section 39. Though experts are not too satisfied with this retrospective amendment to overcome the Guj. HC decision in AAP & Co., it appears to provide a remedy to the procedural impasse that was faced by all. As a result, following are the key features:
- credit in respect of supplier invoices dated 2017-18 may be claimed in any month during 2017-18 vide GSTR 3B filed but not later than that for the month of March 2018 (operation of section 16(4) read with new rule 61(5));
 - credit in respect of supplier invoices dated 2017-18 may be claimed in any month during 2018-19 vide GSTR 3B filed but not later than that for the month of March 2019 (Removal of Difficulty Order No. 2); and
 - credit in respect of supplier invoices dated 2018-19 may be claimed in any month during 2018-19 and during 2019-20 vide GSTR 3B filed but not later than that for the month of Sept 2019.
- (m) **Time limit ‘limitation’ or ‘prescription’:** although time limit prescribed in section 16(4) or even 18(2) for that matter, has been referred to as ‘limitation’ (in above discussions), care must be taken to note the difference between ‘limitation’ and ‘prescription’. Limitation is when a right continues but is no longer enforceable after lapse of certain time. For eg., input tax credit taken by the exporter in case of zero-rated supplies, the exporter is eligible to claim refund. In the event refund is not filed within 2 years from relevant date, the refund is barred. And this does not mean the credit is liable to be reversed. It will continue and may be utilized to pay any output tax by the same exporter. Here, the 2-year time limit to claim refund (on zero-rated supplies made) is a limitation. Notice that the right (input tax credit) remains but it is no longer enforceable (even though condition of making zero-rated supplies is met) to receive refund. Whereas, prescription is when the right itself vanishes after lapse of specified time. For eg., ‘right’ to input tax credit (that has clearly satisfied all vesting conditions) itself vanishes by lapse of this time limit specified in section 16(4). Lapse of input tax credit after this time limit on the ground that all vesting conditions had been satisfied.
- (n) **Deemed receipt of goods:** Section 16 permits a registered person to avail credit only after he has received the said goods or services or both. However, in case of bill to-ship to transactions (including where such goods are sent for job work), by which the registered person instructs his supplier to ship the goods to another person on his behalf, the date of receipt of goods by such another person shall be deemed to be the date of receipt of goods by the said registered person.

Therefore, what exactly does ‘received’, mean in this context? Does it refer to actual receipt of goods at factory premises or even constructive receipt of goods would

suffice? Broadly, receipt of goods may be said to be complete when goods have been supplied as per the recipient's instructions and the supplier is discharged from any further liability on such goods. The delivery must be complete in all respects to the utmost satisfaction of the recipient. The point of acceptance in cases of pre-requisite of quality control may have to be clear.

For example, an interesting scenario may be encountered when goods imported by a registered person are supplied directly to his customers in India from the port without bringing such imported goods (physically) to his factory premises. Would the importer still be entitled to ITC of IGST paid on imported goods although such goods were never received at his factory premises? The answer is 'Yes'. The importer, after fulfilling all the import formalities is deemed to have received the goods and thus, eligible to avail input tax credit of IGST paid on imports.

This scenario, i.e. in bill-to-ship-to model, where it is amended to include services also which deemed that goods are provided by recipient when the supplier delivers the goods to any other person on the direction of and on account the recipient shall be applicable in case of such services also. However, please note that this fiction for delivery of goods or services is not an attempt at encroaching upon the Place of Supply provisions of IGST Act but merely to satisfy the conditions for taking credit in certain cases where someone else collects goods or enjoys services.

It is important to note that where delivery (goods or even services) are 'on behalf of Recipient, if there is a further transaction between Recipient and Consignee, that needs to be examined if that is also a supply or not. For eg. raw material supplier may be instructed by an OEM in first transaction of supply to deliver goods to job-worker (on behalf of OEM) but there is a second transaction between Recipient (OEM) and Consignee (job-worker) whether it is returned after processing or it is supplied to another buyer or it is destroyed (attracting section 19(3)) or liable to any other treatment in GST.

Delivery 'on behalf of' is permitted not only for goods but also for services as they are liable to answer for tax incidence on the second transaction that follows as an obvious consequence of the instructions given to deliver to another person (or distinct person) by the Recipient of supply (and claiming credit) in the first transaction.

- (o) **Goods received in instalments:** If goods are received in instalments against a single invoice, credit can be availed upon receipt of last instalment of goods.

Illustration – A consignment of coal is to be dispatched from Kolkata to Mumbai using five trucks. An invoice was issued to the recipient on March 30, 2018. Four trucks reached the claimant by March 30, 2018 but the truck carrying the final lot of the consignment reached the recipient only on April 2, 2018. In this case, input tax credit for the entire consignment can be availed only in the month of April 2018.

It is important to note that, foreclosure of delivery schedule is permitted. And where

goods are delivered to a certain extent and deliveries are foreclosed by Recipient of supply, it is permitted to claim credit on to the extent delivered on pro-rata basis. However, foreclosure may not always be possible. And this rule is specifically addressed to indivisible equipment that is delivered in parts or lots. In such cases, credit cannot be claimed on incomplete equipment stating foreclosure.

- (p) **Receipt of Services:** The recipient can claim credit only upon receipt of services except a situation mentioned in Explanation to Section 16(2) (b). In the commercial world, while it is easy to demonstrate receipt of goods (by way of physical stock, e-way bill, GRN etc), the same is not to be in case of services which is an intangible in nature. Determination of actual receipt of services could be a formidable task especially when the contracting period for provision of service extends beyond a tax period but consideration is received in advance.

Explanation to Section 16(2) (b) has been amended to include services. It has been stated that the registered person will be deemed to have received the services where the services are provided by the supplier to any person on direction of and on account of such registered person. Experts see that this amendment could be followed retrospectively even though the amendment does not state it to be retrospective. Reference may be had to tools of interpretation of statutes which state that substantive vested rights cannot be taken away even by an Amending Act. Drafting tools like 'proviso' and 'explanation' are often used to bring about an amendment. A *proviso* carves out an exception to advance the object and suppress the mischief sought to be overcome by the extant law. An *explanation* aids in more accurately expressing the legislative intent that always was. As important as it is to understand the 'nature and scope' of amending provisions; Of equal importance is the 'effect' of these amendments. It is common understanding that when amendments are clarificatory, they will be retrospective, but when they are substantive, they will be prospective. Date of notification brings the amended law into the statute book but merely because amended law takes facts, that occurred previously into consideration, it does not make it an *ex post facto* law and come under challenge. Hon'ble Supreme Court in *Sundaram Pillai v. Pattabiraman* 1985 AIR 582 SC laid down some guiding principles of the effects that these drafting tools – proviso and explanation – can have on the construction of the amended law by the amendments so made. And for advancing the mischief that occurred before the explanation to section 16(2) whereby credit could have been denied even though those services are delivered 'on behalf of' the Recipient, this explanation would deserve retrospective effect for being clarificatory in nature to avoid the mischief.

The person receiving any services may be different from the person who is liable to make the payment as the recipient under the law. The definition of recipient under the GST law has been defined to mean the person liable to make the payment. However, there are multiple cases where the payment is made by a particular person, but the services are received by another person. In such a situation, the person liable to make the payment will be deemed to have received the services.

For instance, X is providing advisory services to Z for which the payment is agreed to

be made by Y. In this situation, Y will be deemed to have received the services as per the new deeming fiction in the Explanation to Section 16(2). Thereby, Y will be allowed to avail input tax credit even though he is not in actual receipt of the services.

- (q) **Failure to pay to supplier of goods or service or both, the value of supply and tax thereon:** Where the recipient of goods or services or both have failed to pay the supplier within 180 days from date of invoice, input tax credit availed, in proportion to such unpaid consideration shall be added to the recipient's output tax liability along with interest as may be applicable. Such non-payment of the value of invoice must be disclosed in FORM-GSTR 2 filed for the month immediately following the expiry of 180 days from the date of issue of invoice. However, such input tax credit may be reclaimed as and when the unpaid amount (including taxes) is subsequently paid.

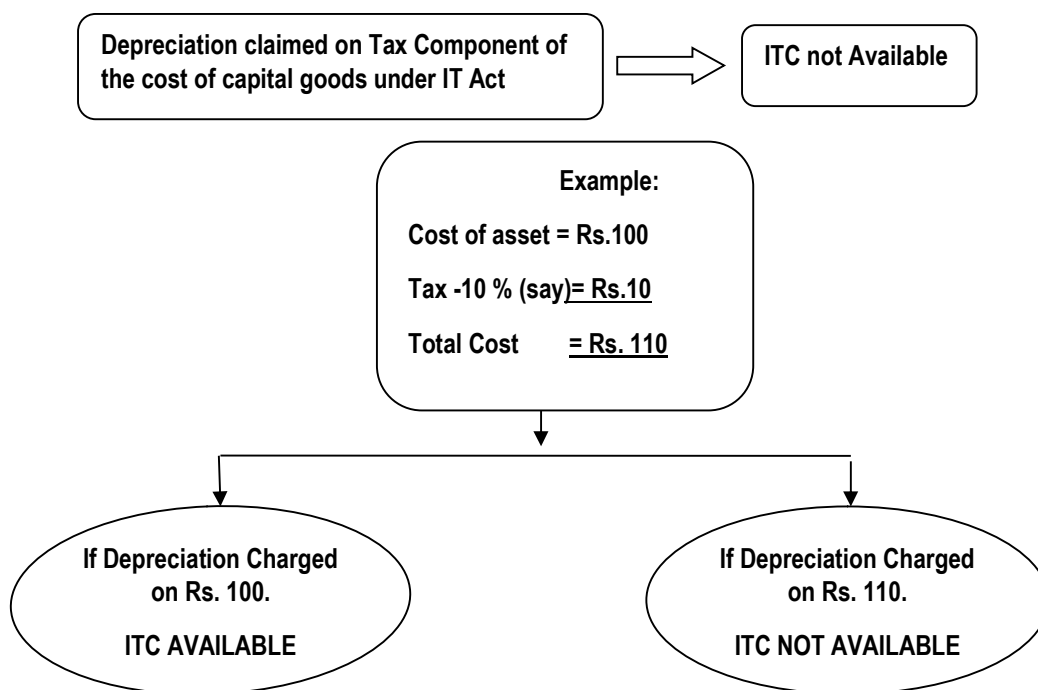

One may note that this condition, experts say, does not apply to supplies that are liable to tax under reverse charge and supplies made without consideration as specified in Schedule I. Conspicuous by its absence within this *carved out* provision is, import of goods. While reverse charge is excluded from the condition of having to make payment within 180 days, GST paid on import of goods does not fall within the ambit of reverse charge under section 9(3) or 9(4) of the CGST Act or Section 5(3) or Section 5(4) of the IGST Act although IGST paid on import of goods is akin to reverse charge. The question that now arises is - whether there can be reverse charge liability other than under section 9(3) and 9(4). The definition in section 2(98) does not permit such extended application. The privilege to prescribe pre-conditions for vesting of right to input tax credit belongs to section 16 and therefore, there is no other provision from where any overriding right to claim credit on goods imports may be borrowed or imputed. On the other hand, IGST paid under reverse charge on import of services is covered under Section 5(3) of the IGST Act as a result of which an importer of service would be entitled to credit of IGST paid even if the service provider remains unpaid beyond the said period of 180 days. Based on the above reasoning, credit of taxes paid on import of goods will not be available if the payment of value of goods is not made within 180 days. An alternative argument that may possibly be taken is that the person who avails the credit is required to pay the value of supplies within 180 days from the date of issue of invoice. The term invoice has been defined to mean invoice raised under Section 31 and Section 31 provides that invoice can be issued by a registered person. Since the vendor outside India is not registered in India, the invoice raised by him is not an invoice in terms of Section 31 and hence the criteria of 180 days is not applicable even in case of import of goods since the 'invoice' as per GST Laws is missing in this transaction.

It would be relevant to note that Section 15 of the CGST Act deals with valuation of supplies and provides for addition in the value of supply in case the price is not sole consideration or if the transacting parties are related. Such addition is made for GST

purposes (to arrive at the tax payable) but commercially, such amount is neither recorded in the books nor paid by the transacting parties and hence in all such cases where additions are made to the value of supply, the recipient will be denied the credit since he does not make payment to the extent of such additions. The CGST Rules have accordingly been amended w.e.f June 13, 2018 to provide that such additions made under Section 15(2) (b) will be deemed to have been paid by the recipient to the supplier.

Another aspect to consider is section 63 of Indian Contract Act where consideration (payment) in respect of executed contracts may be accepted lesser than contracted. Although this is contrary to the terms agreed, it is provided in Indian law for Seller to accept less than agreed owing to the time value of money and the certainty that comes with immediate payment. When less is accepted in place of more that was due, it does not give rise to remedy of specific relief or relief of repudiation of contract as it is already executed. Such admitted reduction in consideration is enforceable under the original contract and does not amount to amendment of original contract or substitution with new contract again for the reason that it is already executed. Credit note may still be issued because the value originally agreed is less than that now demanded in terms of section 63 of Indian Contract provided such CN is issued within the time limit prescribed in section 34. However, paying less than originally agreed would attract reversal of credit (in hands of Recipient-Payer) under rule 37 and this is condition linked to CN under 15(3)(b)(ii) regarding reversal of corresponding amount of credit. But, experts caution that for the same reasons that CN is permissible in these cases (by operation of law in section 63 of Indian Contract Act), it would clearly amount to short-payment which requires credit reversal under rule 37.

- (r) **Capital goods on which depreciation is claimed:** Input tax credit shall not be allowed on the tax component of the cost of capital goods and plant and machinery if depreciation on such tax component has been claimed under the provisions of the Income Tax Act, 1961.

There may however, be instances where an assessee is unable to avail input tax credit on capital goods for various reasons, say for example, the department has objected to it or some other reason. In such cases, assessee may decide to capitalize the tax component and avail depreciation on tax component also. Whenever the dispute relating to eligibility of input tax credit on capital goods is resolved, assessee may avail Input Tax Credit and correspondingly reverse the depreciation claimed under Income Tax Act, 1961 on tax component. Similar provisions existed under CENVATCredit Rules and the Hon'ble Gujarat High Court in the case Genus Electrotech Limited reported in 2013 (296) ELT 175 (Guj.) held that after reversal of entry for depreciation, assessee could reavail credit. The ratio of this decision under the CENVATCredit Rules, 2004 will equally hold good under the GST law since the provisions are similar. Although, there was no time limit for availing tax credit on capital goods under the CENVAT Credit Rules, 2004, under the GST law, credit cannot be availed after the due date of filing the returns for the month of September following the end of the financial year or the date of filing the annual return, whichever is earlier. It would be worthwhile to note that Rule 37(4) which provides for re-availing input tax credit for an unrestricted period is applicable only in respect of ITC reversed earlier for non-payment of consideration to the supplier within 180 days and not for re-claim of ITC on account of reversal of depreciation as discussed above.

It may be interesting to note that Section 16(3) states that input tax credit shall not be allowed in cases where depreciation has been claimed on "the tax component of the

cost of capital goods **and plant and machinery** under the provisions of the Income-tax Act, 1961.” The use of the words plant and machinery in addition to ‘capital goods’ requires special attention. Capital Goods have been defined to mean goods used or intended to be used in the course or furtherance of business, the value of which has been capitalized in the books of account.

- (s) **Unmatched credit capped at ‘10 per cent’:** section 16(2)(c) places an onerous burden on trade to claim credit ‘after’ tax has been deposited with the Government by the supplier. This clause operates like a ‘condition precedent’ to claim credit.

Government’s response to this ‘impossible eventuality’ is that credit cannot be given in respect of tax not received by exchequer. To balance the two sides, Government has enabled GSTR 1 filed by suppliers to appear in GSTR 2A of the recipient. Though this by itself is no assurance that supplier has subsequently filed GSTR 3B (for the entire turnover reported in GSTR 1) but Government considers ‘liability to tax admitted in GSTR 1’ is basic responsibility that must be ensured. Remember, condition precedent in 16(2)(c) has not moved one bit in all this ‘matching’ process. And if credit appears in GSTR 2A (by supplier filing GSTR 1), that would give some assurance to permit credit to be claimed by recipient. However, actual ‘matching of credits’ as contemplated under section 42 remains suspended. And credit has been claimed unilaterally (without any formal credit matching) by claiming *bona fide* credits in GSTR 3B.

Now, rule 36(4) has been inserted vide notification 49/2019-CT dated 9 Oct 2019 and it applies to all returns filed after 9 Oct 2019, that is, to Sept returns as well. This sub-rule states that (i) eligible credits appearing in GSTR 2A will be allowed (total credits minus ineligible credits under 17(2), 17(5), etc.) and (ii) additional unmatched ad hoc credit of 10 per cent of the eligible credits.

On one hand, condition precedent in section 16(2) (c) continues to hover over the taxpayer’s shoulders, on the other hand, the GSTR 2A based ‘quasi matching’ exercise is allowed with a 10 per cent additional relief. Trade is still relying on ‘impossible eventuality’ where until 8 Oct 2019 ‘all’ credits were being claimed, and suddenly, this new provision seeks to curtail credits to 110 per cent of such ‘quasi matched’ and eligible credits. The limit was 20% which reduced to 10% w.e.f 1st Jan, 2020. However relaxation has been provided while filing of returns for the period February to August 2020 and will be applicable on a cumulative basis for these months while filing of return for September 2020.

- (t) **Provisional credit:** section 155 makes it incumbent on registered person to satisfy the eligibility, conditions and compliances to take credit. Credit cannot be forced into registered persons hands by law or its officers. Credit that could have been taken is omitted, then that credit lost forever. Similarly, eligibility of exemption later turns out to be inadmissible, input tax credit that could have been claimed had it been known that tax was actually payable on the outward supply, cannot be allowed if the time limit prescribed has passed. Where credit has been taken on the notion that tax is applicable

on outward supply, credit so taken (and / or utilized) will be recoverable. Decisions under Cenvat credit scheme that are popularly referred as 'revenue neutral' would no longer guide the interpretation in GST. Quick reference may be had to CCE (A), Ahd v. Narayan Polyplast 2005 (179) ELT 20 (SC) and CCE, Vadodara v. Narmada Chematur Pharmaceuticals Ltd. 2005 (179) ELT 276 (SC).

In summary, among others the following facts are crucial for taking Input tax credit:

- (a) The claimant should be registered under the GST Law to avail the input tax credit (except for certain exceptions covered under Section 18)
- (b) The goods and/ or services must be used "by him" in the course or furtherance "of his" business.
- (c) Possession of original tax Invoice/Supplementary Invoice/ Debit note/ ISD invoice/ Bill of Entry and other related documents is a must.
- (d) The said document must contain all the particulars prescribed / specified in Rule 46 of Central Goods and Service Tax Rules, 2017 relating to a Tax Invoice. It may be noted that the Tax Invoice or such other document can contain additional details other than those prescribed but NO LESS. For details of invoice, see Chapter VI of the CGST Rules. This requirement has been relaxed wef September 4, 2018. The registered person can avail input tax credit if the documents contain the following minimum details
 - a. Amount of tax charged
 - b. Description of goods or services
 - c. Total value of supply of goods or services or both
 - d. GSTIN of the supplier and recipient
 - e. Place of supply in case of inter-State supply
- (e) Supplier of goods and/ or services must upload the details of such documents in the common portal i.e. GSTN. Subject to section 41 and 43A being claim of ITC and provisional acceptance thereof, the supplier must have remitted the tax charged on such supplies. The new return filing mechanism (Section 43A) may allow taking of input tax credit to the recipient in certain situations and subject to certain conditions even if payment of tax is not made by the supplier. So, payment of tax by the supplier has been made subject to the procedure in the new return filing mechanism which is yet to be notified.
- (f) Vesting condition for claiming input tax credit is filing return u/s 39 and not making supply out of such inward supplies.
- (g) The claimant should have received the goods / services. Input tax credit in case of supplies in installment, would be on receipt of last installment of goods.
- (h) The law casts an obligation on the recipient of supply availing credit to effect payment to the supplier within a period of 180 days from the date of invoice. If such payment is not effected/partially effected by the recipient to the supplier, Rule 37 obligates

reversal/proportionate reversal of input tax credit so availed leading to consequential levy of tax and interest.

Proviso to section 16(2) provides that the taxable person shall be entitled to avail input tax credit after making payment of the amount towards value of supply of goods or services or both along with tax payable thereon. Further, Rule 37(4) provides that the time limit specified under section 16(4) shall not be applicable for such re-credit.

- (i) Claim of depreciation on the GST component disqualifies a recipient of Capital goods and plant and machinery from taking input tax credit.
- (j) ITC cannot be availed after the due date of filing the return for September month of the next financial year or on furnishing the Annual Return whichever is earlier.
- (k) No registered person is permitted to avail any input tax credit pursuant to an order of demand on account of fraud, willful misstatement, or suppression of fact.

Note: The last point is important as many of the cases in a routine manner the show cause notice would invoke these mala fide intentions and if not contested, the ITC would not be available to the receiver even if otherwise eligible.

16.3 Issues and Concerns

- (i) A consignment of coal is to be dispatched from Kolkata to Mumbai through five trucks for which the invoice was sent along with the first truck. Four trucks reached the claimant by March 30, 2018 but the truck carrying the final lot of the consignment falls down a gorge and is never received. Would this deny the input tax credit that should have otherwise been available on coal received on the first four lots? The answer is 'No'. The recipient in Mumbai needs to obtain a credit note from the supplier in Kolkata in respect of that lot which would never be received and accordingly avail ITC relating to the coal received at the business premises.
- (ii) Section 16 allows a recipient of supply to avail credit only when he has received the goods or services or both. For example, in an Annual Maintenance Contracts for machines entered into on November 1st, 2017, the supplier is under an obligation to render services arising over a period of 12 months (ending 31st October, 2018) but in respect of which an invoice is raised and consideration is received on the date of entering into the agreement i.e 1st November 2017 in this case. In such cases, the fate of input tax credit contained in the said invoice is left hanging in the balance considering the fact that input tax credit in respect of an invoice received during the year cannot be claimed after the due date for filing the return for the month of September of the succeeding year. In the given case, the receipt of service is said to be completed (i.e., AMC period ends) on October 31st, 2018, while the time limit for claiming credit is October 20th, 2018. Possible solution to overcome this situation could be to convert the AMC into Monthly / Quarterly Maintenance Contracts, if agreeable to the supplier. Alternatively, could it be interpreted that an AMC, is primarily an assurance which is received on the date of entering into the AMC and what follows is only a continuing obligation of the supplier and hence the service may be deemed to have been received

on the date of commencement of the AMC. The above issue also arises in case of an insurance contract. It is possible for one to interpret or read down the law in such cases since every business operates on a concept of going concern. These issues would most certainly be put to test in the times to come.

In case of a recipient who has reversed credit on account of non-payment of consideration within 180 days, can he avail credit in instalments as and when the payment is made to the supplier or should he reclaim the credit only when the entire amount including taxes has been paid to the supplier. Given that the third proviso to Section 16(2) (d) allows availing of credit on payment of 'the amount towards the value of supply of goods or services or both' and not 'an amount', reading strictly it may be construed that the entire amount would have to be paid for availing of credit earlier reversed. Consideration paid which is non-monetary form is also a consideration and for the scheme to work one needs to read harmoniously. It is a common practice that some deductions are there in the invoice without GST being deducted. Then can it be said that the whole consideration has not been paid and credit denied until the whole amount with taxes paid? The credit should be available for value deductions by customer without impacting the GST as well as non-monetary payments.

16.4 Comparative review

Aspect	Credit under erstwhile system	Input tax credit under GST
Definition of "capital goods"	Defined in Cenvat Credit Rules	Comparatively wider definition.
Definition of "input"	Defined in Cenvat credit Rules having inclusion and exclusion limbs.	Exhaustive definition and does not contain inclusion or exclusion limb.
Definition of "input services"	Defined in Cenvat credit Rules which has inclusion and exclusion limb.	Exhaustive definition and does not contain inclusion or exclusion limb.
Electronic credit ledger	Similar to CENVAT credit register maintained in Form RG23A	Electronic credit ledger required to be maintained for crediting and utilising input tax credit

While CENVAT Credit Rules identified three components for taking credit, namely Input, Input Services and Capital Goods, the GST law allows input tax credit on goods and services with goods being further classified into inputs and capital goods in certain cases.

Statutory Provisions**17. Apportionment of credit and blocked credit**

- (1) *Where the goods or services or both are used by the registered person partly for the purpose of any business and partly for other purposes, the amount of credit shall be restricted to so much of the input tax as is attributable to the purposes of his business.*
- (2) *Where the goods or services or both are used by the registered person partly for effecting taxable supplies including zero-rated supplies under this Act or under the Integrated Goods and Services Tax Act, and partly for effecting exempt supplies under the said Acts, the amount of credit shall be restricted to so much of the input tax as is attributable to the said taxable supplies including zero-rated supplies.*
- (3) *The value of exempt supply under sub-section (2) shall be such as may be prescribed, and shall include supplies on which the recipient is liable to pay tax on reverse charge basis, transactions in securities, sale of land and, subject to clause (b) of paragraph 5 of Schedule II, sale of building.*
¹⁰*[Explanation.—For the purposes of this sub-section, the expression ““value of exempt supply” shall not include the value of activities or transactions specified in Schedule III, except those specified in paragraph 5 of the said Schedule]*
- (4) *A banking company or a financial institution including a non-banking financial company, engaged in supplying services by way of accepting deposits, extending loans or advances shall have the option to either comply with the provisions of sub-section (2), or avail of, every month, an amount equal to fifty per cent of the eligible input tax credit on inputs, capital goods and input services in that month and the rest shall lapse:*
Provided that the option once exercised shall not be withdrawn during the remaining part of the financial year:
Provided further that the restriction of fifty per cent. shall not apply to the tax paid on supplies made by one registered person to another registered person having the same Permanent Account Number
- (5) *Notwithstanding anything contained in sub-section (1) of section 16 and subsection (1) of section 18, input tax credit shall not be available in respect of the following namely:-*
 - (a) ¹¹*[motor vehicles for transportation of persons having approved seating capacity of not more than thirteen persons (including the driver), except when they are used for making the following taxable supplies, namely: —*

¹⁰ Inserted vide The Central Goods and Services Tax Amendment Act, 2018 w.e.f. 01.02.2019

¹¹ Substituted vide The Central Goods and Services Tax Amendment Act, 2018 w.e.f. 01.02.2019

- (A) further supply of such motor vehicles; or
- (B) transportation of passengers; or
- (C) imparting training on driving such motor vehicles;
- (aa) vessels and aircraft except when they are used—
 - (i) for making the following taxable supplies, namely:—
 - (A) further supply of such vessels or aircraft; or
 - (B) transportation of passengers; or
 - (C) imparting training on navigating such vessels; or
 - (D) imparting training on flying such aircraft;
 - (ii) for transportation of goods;
- (ab) services of general insurance, servicing, repair and maintenance in so far as they relate to motor vehicles, vessels or aircraft referred to in clause (a) or clause (aa):

Provided that the input tax credit in respect of such services shall be available—

 - (i) where the motor vehicles, vessels or aircraft referred to in clause (a) or clause (aa) are used for the purposes specified therein;
 - (ii) where received by a taxable person engaged—
 - (I) in the manufacture of such motor vehicles, vessels or aircraft; or
 - (II) in the supply of general insurance services in respect of such motor vehicles, vessels or aircraft insured by him;
- (b) the following supply of goods or services or both—
 - (i) food and beverages, outdoor catering, beauty treatment, health services, cosmetic and plastic surgery, leasing, renting or hiring of motor vehicles, vessels or aircraft referred to in clause (a) or clause (aa) except when used for the purposes specified therein, life insurance and health insurance:

Provided that the input tax credit in respect of such goods or services or both shall be available where an inward supply of such goods or services or both is used by a registered person for making an outward taxable supply of the same category of goods or services or both or as an element of a taxable composite or mixed supply;
 - (ii) membership of a club, health and fitness centre; and
 - (iii) travel benefits extended to employees on vacation such as leave or home travel concession.

Provided that the input tax credit in respect of such goods or services or both shall be available, where it is obligatory for an employer to provide to its employees under any law for the time being in force].

- (c) works contract services when supplied for construction of immovable property, (other than plant and machinery), except where it is an input service for further supply of works contract service;
- (d) goods or services or both received by a taxable person for construction of an immovable property (other than plant and machinery) on his own account, including when such goods or services or both are used in the course or furtherance of business;
Explanation. - For the purpose of clause (c) and (d), the expression "construction" includes re-construction, renovation, additions or alterations or repairs, to the extent of capitalization, to the said immovable property.
- (e) goods or services or both on which tax has been paid under section 10;
- (f) goods or services or both received by a non-resident taxable person except on goods imported by him;
- (g) goods or services or both used for personal consumption;
- (h) goods lost, stolen, destroyed, written off or disposed of by way of gift or free samples; and
- (i) any tax paid in accordance with the provisions of sections 74, 129 and 130.
- (6) The Government may prescribe the manner in which the credit referred to in sub-sections (1) and (2) may be attributed.
Explanation. For the purposes of this Chapter and Chapter VI, the expression 'plant and machinery' means apparatus, equipment and machinery fixed to earth by foundation or structural support that are used for making outward supply of goods or services or both and includes such foundation and structural supports but excludes-
 - (i) land, building or any other civil structures,
 - (ii) telecommunication towers; and
 - (iii) pipelines laid outside the factory premises

Extract of the CGST Rules, 2017**38. Claim of credit by a banking company or a financial institution.**

A banking company or a financial institution, including a non-banking financial company, engaged in the supply of services by way of accepting deposits or extending loans or advances that chooses not to comply with the provisions of sub-section (2) of section 17, in accordance with the option permitted under sub-section (4) of that section, shall follow the following procedure, namely,-

- (a) the said company or institution shall not avail the credit of,-
 - (i) the tax paid on inputs and input services that are used for non-business purposes; and

- (ii) *the credit attributable to the supplies specified in sub-section (5) of section 17, in FORM GSTR-2;*
- (b) *the said company or institution shall avail the credit of tax paid on inputs and input services referred to in the second proviso to sub-section (4) of section 17 and not covered under clause (a);*
- (c) *fifty per cent. of the remaining amount of input tax shall be the input tax credit admissible to the company or the institution and shall be furnished in FORM GSTR- 2;*
- (d) *the amount referred to in clauses (b) and (c) shall, subject to the provisions of sections 41, 42 and 43, be credited to the electronic credit ledger of the said company or the institution.*

42.Manner of determination of input tax credit in respect of inputs or input services and reversal thereof

- (1) *The input tax credit in respect of inputs or input services, which attract the provisions of sub-section (1) or sub-section (2) of section 17, being partly used for the purposes of business and partly for other purposes, or partly used for effecting taxable supplies including zero rated supplies and partly for effecting exempt supplies, shall be attributed to the purposes of business or for effecting taxable supplies in the following manner, namely,-*
- a) *the total input tax involved on inputs and input services in a tax period, be denoted as 'T';*
 - b) *the amount of input tax, out of 'T', attributable to inputs and input services intended to be used exclusively for the purposes other than business, be denoted as 'T₁';*
 - c) *the amount of input tax, out of 'T', attributable to inputs and input services intended to be used exclusively for effecting exempt supplies, be denoted as 'T₂';*
 - d) *the amount of input tax, out of 'T', in respect of inputs and input services on which credit is not available under sub-section (5) of section 17, be denoted as 'T₃';*
 - e) *the amount of input tax credit credited to the electronic credit ledger of registered person, be denoted as 'C₁' and calculated as-*

$$C_1 = T - (T_1 + T_2 + T_3);$$
 - f) *the amount of input tax credit attributable to inputs and input services intended to be used exclusively for effecting supplies other than exempted but including zero rated supplies, be denoted as 'T₄';*

¹²*[Explanation: For the purpose of this clause, It is hereby clarified that in case of*

¹² Inserted vide Nofn no. 16/2019-CT dt. 29.03.2019 wef 01.04.2019

supply of services covered by clause (b) of Paragraph 5 of Schedule-II of the said Act value of T_4 shall be zero during the construction phase because inputs and input services will be commonly used for the construction of apartments booked on or before the date of issuance of completion certificate or first occupation of the project, whichever is earlier, and those which are not booked by the said date].

- g) ' T_1 ', ' T_2 ', ' T_3 ' and ' T_4 ' shall be determined and declared by the registered person at the invoice level in FORM GSTR-2 ¹³[and at summary level in FORM GSTR-3B];
- h) input tax credit left after attribution of input tax credit ¹⁴under clause[(f)] shall be called common credit, be denoted as ' C_2 ' and calculated as:

$$C_2 = C_1 - T_4;$$

- i) the amount of input tax credit attributable towards exempt supplies be denoted as ' D_1 ' and calculated as

$$D_1 = (E \div F) \times C_2$$

where,

'E' is the aggregate value of exempt supplies during the tax period, and

'F' is the total turnover in the State of the registered person during the tax period:

[Provided that in case of supply of services covered by clause (b) of paragraph 5 of Schedule II of the Act, the value of 'E/F' for a tax period shall be calculated for each project separately, taking value of E and F as under:-

E= aggregate carpet area of each apartments, construction of which is exempt from tax, but are identified by the promoter to be sold after the issue of completion certificate or first occupation, whichever is earlier;

F=aggregate carpet area of apartments in the project;

Explanation 1: In the tax period in which the issuance of completion certificate or first occupation of the project takes place, value of E shall also include aggregate carpet area of the apartments, which have not been booked till date of issuance of completion certificate or first occupation of the project, whichever is earlier

¹⁵Explanation 2: Carpet area of apartments, tax on construction of which is paid or payable at the rates specified of items (i), (ia), (ib), (ic) or (id), against serial number 3 of the table in the Notification No. 11/2017-Central Tax (Rate), published in Gazette of India, Extraordinary, Part II, Section 3 subsection (i) dated 28th June, 2017, as amended. shall be taken into account for calculation of value of 'E' in view of Explanation (iv) in paragraph 4 of the notification No. 11/2017-Central Tax (Rate), published in the Gazette of India, Extraordinary, Part II, Section 3,

¹³ Inserted vide Nott no. 16/2019-CT dt. 29.03.2019 wef 01.04.2019

¹⁵ Inserted vide Nott no. 16/2019-CT dt. 29.03.2019 wef 01.04.2019

Subsection (i) dated 28th June, 2017 vide GSR number 690(E) dated 28th June, 2017, as amended].

¹⁶[Provided further] that where the registered person does not have any turnover during the said tax period or the aforesaid information is not available, the value of 'E/F' shall be calculated by taking values of 'E' and 'F' of the last tax period for which the details of such turnover are available, previous to the month during which the said value of 'E/F' is to be calculated;

Explanation: For the purpose of this clause, it is hereby clarified that the aggregate value of exempt supplies and the total turnover shall exclude the amount of any duty or tax levied under entry 84 ¹⁷[and entry 92A] of List I of the Seventh Schedule to the constitution and entry 51 and entry 54 of List II of the said schedule;

- j) the amount of credit attributable to non-business purposes if common inputs and input services are used partly for business and partly for non-business purposes, be denoted as 'D₂', and shall be equal to five per cent. of C₂; and
- k) the remainder of the common credit shall be the eligible input tax credit attributed to the purposes of business and for effecting supplies other than exempted supplies but including zero rated supplies and shall be denoted as 'C₃', where,-

$$C_3 = C_2 - (D_1 + D_2);$$

- l) ¹⁸[the amount 'C₃', 'D₁', and 'D₂' shall be computed separately for the Income tax credit of central tax, State tax, Union territory tax and integrated tax and declared in FORM GSTR-3B or through FORM GST DRC-03]
- m) the amount equal to aggregate of 'D₁' and 'D₂' shall be ¹⁹[reversed by the registered person in FORM GSTR-3B or through GSTR DRC-03];

Provided that where the amount of input tax relating to inputs or input services used partly for the purposes other than business and partly for effecting exempt supplies has been identified and segregated at the invoice level by the registered person, the same shall be included in 'T₁' and 'T₂' respectively, and the remaining amount of credit on such inputs or input services shall be included in 'T₄'.

- (2) ²⁰[Except in case of Supply of services covered by clause (b) of paragraph 5 of Schedule II of the Act, the input tax credit] determined under sub-rule (1) shall be calculated finally for the financial year before the due date for furnishing of the return for the month of September following the end of the financial year to which such credit relates, in the manner specified in the said sub-rule and-

- a) where the aggregate of the amounts calculated finally in respect of 'D₁' and 'D₂'

exceeds the aggregate of the amounts determined under sub-rule (1) in respect of 'D₁' and 'D₂', such excess shall be ²¹[reversed by the registered person in FORM GSTR-3B or through GSTR DRC-03] in the month not later than the month of September following the end of the financial year to which such credit relates and the said person shall be liable to pay interest on the said excess amount at the rate specified in sub-section (1) of section 50 for the period starting from the first day of April of the succeeding financial year till the date of payment; or

- b) where the aggregate of the amounts determined under sub-rule (1) in respect of 'D₁' and 'D₂' exceeds the aggregate of the amounts calculated finally in respect of 'D₁' and 'D₂', such excess amount shall be claimed as credit by the registered person in his return for a month not later than the month of September following the end of the financial year to which such credit relates.

- (3) ²²[In case of supply of services covered by clause (b) of Paragraph 5 of Schedule II of the Act, the input tax determined under sub rule (1) shall be calculated finally, for each on going project or project which commences on or after 1st April ,2019, which did not undergo or did not require transition of input tax credit consequent to the change of rates of tax on 1st April, 2019 in accordance with notification No.11/2017-Central Tax (Rate), dated 28th June, 2017, published vide GSR No. 690(E) dated 28th June, 2017, as amended for the entire period from the commencement of the project or 1st July 2017, whichever is later , to the completion or first occupation of the project, whichever is earlier before the due date of furnishing of the return for the month of September following the end of financial year in which the completion certificate is issued or first occupation takes place of the project, in the manner prescribed in the said sub rule with the modification that value of E/F shall be calculated taking value of E and F as under:

E= aggregate carpet area of the apartments, construction of which is exempt from tax plus aggregate carpet area of apartments, construction of which is not exempt from tax ,but which have not been booked till the date of issuance of completion certificate or first occupation of the project, whichever is earlier:

F=aggregate carpet area of the apartments in the project;

and,-

- a) where the aggregate of the amounts calculated finally in respect of 'D₁' and 'D₂' exceeds the aggregate of the amounts determined under sub rule (1) in respect of 'D₁' and 'D₂', such exceeds shall be reversed by the registered person in FORM GSTR-3B or through FORM GST DRC-03 in the month not later than the month of September following the end of the financial year in which the completion certificate is issued or first completion of the project takes place and the said person shall be liable to pay the interest on the said excess amount at the rate

²¹ Substituted vide Notf no. 16/2019-CT dt. 29.03.2019 wef 01.04.2019

²² Inserted vide Notf no. 16/2019-CT dt. 29.03.2019 wef 01.04.2019

specified in subsection (1) of section 50 for the period starting from the first day of April of the succeeding financial year till the date of payment ; or

- b) where the aggregate of the amounts determined under sub rule (1) in respect of 'D₁' and 'D₂' exceeds the aggregate of the amount calculated finally in respect of 'D₁' and 'D₂' such excess amount shall be claimed as credit by the registered person in his return for the month not later than the month of September following the end of financial year in which completion certificate is issued or first occupation takes place of the project.

- (4) In case of supply of services covered by clause (b) of paragraph 5 of Schedule II of the Act ,the input tax determined under sub rule (1) shall be calculated finally for the commercial portion in each project, other than the residential real estate project (RREP), which underwent transition of input tax credit consequent to changes of rates of tax on 1st April 2019 in accordance with notification No. 11/2017-Central tax (Rate), dated 28th June 2017 published vide GSR No. 690(E) dated 28th June 2017, as amended for the entire period from the commencement of the project or 1st July 2017 or whichever is later, to the completion or first occupation of the project whichever is earlier, before the due date of furnishing of the return for the month of September following the end of financial year in which the completion certificate is issued or first occupation takes place of the project, in the following manner.

(a) The aggregate amount of common credit on commercial portion in the project (C3_{aggregate_comm}) shall be calculated as under,

$C3_{\text{aggregate_comm}} = [\text{aggregate of amounts of C3 determined under sub rule (1) for the tax periods starting from 1st July 2017 to 31st March, 2019} \times (A_c/A_t)] + [\text{aggregate of amounts of C3 determined under sub rule (1) for the tax period starting from 1st April 2019 to the date of completion or first occupation of the project, whichever is earlier}]$

Where,-

A_c = total carpet area of the commercial apartments in the project

A_t = total carpet area of the all apartments in the project

(b) The amount of final eligible common credit on commercial portions in the project (C3_{final_comm}) shall be calculated as under

$$C3_{\text{final_comm}} = C3_{\text{aggregate_comm}} \times (E/F)$$

Where,-

E = total carpet area of commercial apartments which have not been booked till the date of issuance of completion certificate or first occupation of the project, whichever is earlier.

$F = A_c$ = total carpet area of the commercial apartments in the project

(c) where, C3_{aggregate_comm} exceeds C3_{final_comm}, such excess shall be reversed by the registered person in FORM GSTR-3B or through FORM GST DRC-03 in the month not later than the month of September following the end of the financial year in which the completion certificate is issued or first occupation takes place of the project and the

said person shall be liable to pay interest on the said excess amount at the rate specified in sub-section (1) of section 50 for the period starting from the first day of April of the succeeding financial year till the date of payment;

(d) where, $C3_{final_comm}$ exceeds $C3_{aggregate_comm}$, such excess amount shall be claimed as credit by the registered person in his return for a month not later than the month of September following the end of the financial year in which the completion certificate is issued or first occupation takes place of the project.

(5) Input tax determined under sub- rule (1) shall not be required to be calculated finally on completion or first occupation of an RREP which underwent transition of input tax credit consequent to change of rates of tax on 1st April, 2019 in accordance with notification No. 11/2017- Central Tax (Rate), dated the 28th June, 2017, published vide GSR No. 690(E) dated the 28th June, 2017, as amended.

(6) Where any input or input service are used for more than one project, input tax credit with respect to such input or input service shall be assigned to each project on a reasonable basis and credit reversal pertaining to each project shall be carried out as per sub rule (3)].

43. Manner of determination of input tax credit in respect of capital goods and reversal thereof in certain cases

(1) Subject to the provisions of sub-section (3) of section 16, the input tax credit in respect of capital goods, which attract the provisions of sub-sections (1) and (2) of section 17, being partly used for the purposes of business and partly for other purposes, or partly used for effecting taxable supplies including zero rated supplies and partly for effecting exempt supplies, shall be attributed to the purposes of business or for effecting taxable supplies in the following manner, namely,-

(a) the amount of input tax in respect of capital goods used or intended to be used exclusively for non-business purposes or used or intended to be used exclusively for effecting exempt supplies shall be indicated in FORM GSTR-2 ²³[and FORM GSTR-3B] and shall not be credited to his electronic credit ledger;

(a) the amount of input tax in respect of capital goods used or intended to be used exclusively for effecting supplies other than exempted supplies but including zero rated supplies shall be indicated in FORM GSTR-2 ²⁴[and FORM GSTR3-B] and shall be credited to the electronic credit ledger;

²⁵[Explanation: For the purpose of this clause, it is hereby clarified that in case of supply of services covered by clause (b) of paragraph 5 of the Schedule II of the said Act, the amount of input tax in respect of capital goods used or intended to be

44. Manner of reversal of credit under special circumstances.-

- (1) *The amount of input tax credit relating to inputs held in stock, inputs contained in semi-finished and finished goods held in stock, and capital goods held in stock shall, for the purposes of subsection (4) of section 18 or sub-section (5) of section 29, be determined in the following manner, namely,-*
 - a) *for inputs held in stock and inputs contained in semi-finished and finished goods held in stock, the input tax credit shall be calculated proportionately on the basis of the corresponding invoices on which credit had been availed by the registered taxable person on such inputs;*
 - b) *for capital goods held in stock, the input tax credit involved in the remaining useful life in months shall be computed on pro-rata basis, taking the useful life as five years.*

Illustration:

Capital goods have been in use for 4 years, 6 month and 15 days.

The useful remaining life in months= 5 months ignoring a part of the month

Input tax credit taken on such capital goods= C

Input tax credit attributable to remaining useful life= C multiplied by 5/60

- (2) *The amount, as specified in sub-rule (1) shall be determined separately for input tax credit of central tax, State tax, Union territory tax and integrated tax.*
- (3) *Where the tax invoices related to the inputs held in stock are not available, the registered person shall estimate the amount under sub-rule (1) based on the prevailing market price of the goods on the effective date of the occurrence of any of the events specified in sub-section (4) of section 18 or, as the case may be, sub-section (5) of section 29.*
- (4) *The amount determined under sub-rule (1) shall form part of the output tax liability of the registered person and the details of the amount shall be furnished in FORM GST ITC-03, where such amount relates to any event specified in sub-section (4) of section 18 and in FORM GSTR-10, where such amount relates to the cancellation of registration.*
- (5) *The details furnished in accordance with sub-rule (3) shall be duly certified by a practicing chartered accountant or cost accountant.*
- (6) *The amount of input tax credit for the purposes of sub-section (6) of section 18 relating to capital goods shall be determined in the same manner as specified in clause (b) of sub-rule (1) and the amount shall be determined separately for input tax credit of central tax, State tax, Union territory tax and integrated tax:*

Provided that where the amount so determined is more than the tax determined on the transaction value of the capital goods, the amount determined shall form part of the output tax liability and the same shall be furnished in FORM GSTR-1.

[44A. Manner of reversal of credit of Additional duty of customs in respect of Gold dore bar.

³⁹*The credit of Central tax in the electronic credit ledger taken in terms of the provisions of section 140 relating to the CENVAT Credit carried forward which had accrued on account of payment of the additional duty of customs levied under subsection (1) of section 3 of the Customs Tariff Act, 1975 (51 of 1975), paid at the time of importation of gold dore bar, on the stock of gold dore bar held on the 1st day of July, 2017 or contained in gold or gold jewellery held in stock on the 1st day of July, 2017 made out of such imported gold dorebar, shall be restricted to one-sixth of such credit and five-sixth of such credit shall be debited from the electronic credit ledger at the time of supply of such gold dore bar or the gold or the gold jewellery made therefrom and where such supply has already been made, such debit shall be within one week from the date of commencement of these Rules].*

Schedule II	Activities to be treated as supply of goods or supply of services
Rule 45	Conditions and restrictions in respect of inputs and capital goods sent to the job worker
Section 16 of IGST Act	Zero Rated Supply

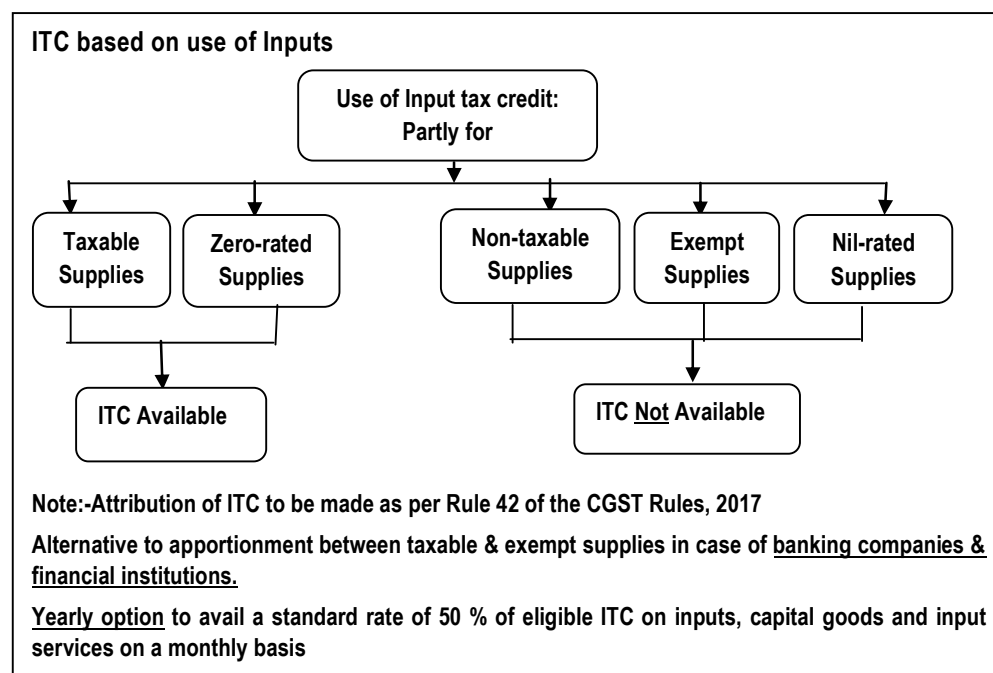

17.1 Introduction

The input tax credit eligibility is based on the fact as to whether the goods or services or both are used for taxable supplies or exempt supplies. Where the goods or service or both are used for both taxable and exempted supplies, only proportionate credit is allowed to a registered person. Further, this section provides for a list of supplies that are ineligible for input tax credit.

17.2 Analysis

(a) Proportionate credit:

ITC based on usage in business

(b) **Definition of 'exempt supply':** It is very interesting to note that although an exempt supply is defined in section 2(47), section 17(3) read with explanation (2) in rule 45 for purposes of input tax credit reversal includes the following transactions as well:

- tax paid under reverse charge,
- transaction in securities,
- sale of land and sale of building subject to clause (b) of Paragraph 5 of Schedule II.

Thus, in a way, exempt supply for the purpose of section 17(3) means all such transactions that come within the sweep and ambit of section 2(47) and such other transactions listed in section 17(3) – is this permissible under law?

Please note that the value of supplies in respect of which the outward supplier is not liable to pay tax but the recipient is made liable to pay tax under Sections 9(3) and 5(3) of the CGST and IGST Act respectively, would be regarded as 'exempt supplies' for the limited purpose of determining net available input tax credit. Doubts have been raised whether such supplies should be included as exempt supplies by the recipient who pays

the tax under reverse charge. In this context, it would be relevant to note that Section 17(3) identifies supplies attracting reverse charge to be an exempt supply in the hands of the supplier effecting such supplies and not in the hands of the recipient who avails such services liable under reverse charge.

Explanation added to Section 17(3) is an important amendment to allow taxpayer to avail full credit even if they are not paying GST if the activities or transactions are mentioned in Schedule III except sale of land and completed building. As such, it is important to note that transactions listed in schedule III are "NOT SUPPLIES" and hence they are neither 'exempt supplies' nor are they 'non-taxable supplies'.

For Eg. Sale of goods on high seas or merchant trading transactions will not entail any reversal of input tax credit as they are covered under Schedule III after the amendment.

CGST Amendment Act, 2018

An explanation has been added to Section 17(3) to provide that value of exempt supplies shall not include transactions listed under Schedule III (Transactions which are treated "neither as a supply of goods nor a supply of services") except sale of Land and Completed Building. Thus, no credit would be required to be reversed for engaging in transactions referred under Section Schedule III though no GST is paid on such transactions.

The above explanation will also cover two new entries which have been added to the said Schedule – Supply of Warehoused Goods before clearance for home consumption and Supply of Goods from one non-taxable territory to another without the goods entering India. No reversal of credit would be required for engaging in these transactions. Experts hold the view that saving from reversal of credit was a treatment that all entries in schedule III qualify for. And the fact that these supplies (high sea sales and in-bond sales) have been inserted in schedule III and not included as an exemption under section 11 makes it clear that reversal of credit is NOT to be followed from inception of GST in Jul 2017. View of our Courts would finally decide on this matter but taxpayers at the risk of interest demand, take a provisional view whether to retain credit or reverse credit on these 'no supply' transactions.

(c) Reversal of credit based on 'condition of end-use' – inputs and input services

Input tax credit is admissible based on certain conditions (refer discussion on 'vesting conditions' for input tax credit under section 16(1) (above) which comprises of precedent conditions or subsequent conditions). Registered persons are responsible for meeting all requirements to correctly claim input tax credit as per section 155. Now, when goods (inputs or capital goods) are received, credit of input tax paid is eligible to be subject to accepting and agreeing to meet all the associated conditions. But when these goods are NOT USED as accepted and agreed (at the time of taking credit), for whatever reason, then credit availed ought not to have been availed and becomes liable for reversal.

For now, let us examine two provisions deals with the disqualification that arises after having admitted that credit taken would meet all the associated conditions:

Description	Section 17(1)	Section 17(2)
Goods or services received	Both	Both
Intended to be USED in the course or furtherance of business	Yes	Yes
Actual USE	Non-business	Business
Outward supply is 'actually' taxed	N.A	No
Outward supply is 'non-supply'	N.A	Yes

From the above table, it is evident that at the time of taking credit, there must be 'intention' to use the goods or services for purposes of 'business' but subsequently changes due to some new development or supervening inconvenience arising later. But, if at the time of taking itself there was no such 'intention', then taking credit is more inculpatory than the change (of intention) arising later. In either case, after taking credit, if the goods or services are:

- NOT USED for business purposes, then section 17(1) comes into operation demanding reversal of credit on both, goods and services. As to whether the goods or services were actually used for business purposes or not may be ascertained from (i) nature of the goods or services itself or (ii) working backwards from non-business 'output' activities of the registered person and then identifying 'input' goods or services that would have been used or involved in such non-business activities. Where any goods or services are used in such non-business activities, then the whole of the credit is straight away liable to be reversed;
- USED for making outward supplies that are NOT TAXED, then section 17(2) comes into operation seeking reversal of credit on both, goods and services based on a formula prescribed in rule 42 (for inputs and input services) and rule 43 (for capital goods). Exempt supply is defined in section 2(47) but for the limited purposes of section 17(2), section 17(3) provides a special definition of 'exempt supply'. Please consider the table below for the description of 'specially exempt supply' and its key differences with the general definition of 'exempt supply', namely:

Description and sub-description of outward supplies				Specially 'exempt supply'	Normal 'exempt supply'
Leviable to GST	Tax applicable	Zero-rated		✗	✗
		Domestic	Rate with credit	✗	✗
			Rate without credit*	✓	✗
	Tax exempted	Zero-rated		✗	✗
		Domestic**	(upto31 Jan 2019)	✗	✗

			Interest on loans given (from 23 Jan 2018)	x	x
			Goods transport by vessel from Indian port (outbound)	x	x
			All others	✓	✓
Non- leviable to GST	Zero-rated			x	✓
	Domestic			✓	✓
No supply (sch III)	Sale of land or sale of (completed) building (para 5)			✓	x
	Supply of all other (listed in sch III)			x	x
Securities (neither 'goods' nor 'services')				✓	x
Supplies liable to payment of output tax on RCM basis				✓	✓
Central excise duty paid under entry 84 and 92-A				x	✓
State excise duty paid under entry 54				x	✓
VAT paid under entry 51				x	✓
CGST, SGST, IGST and Cess paid				x	x

* Notification 11/2017-CT(R) specifies at para 4(iv)(b) that where rate of GST is prescribed (and not '0%' or 'nil') for services with a condition that input tax credit will NOT be allowed. Then such supplies are to be considered as 'exempt supply' for purposes of section 17(2) and where they are (a) wholly used for such supplies taxable at a 'rate without credit', then entire credit will not be allowed and (b) partly used for such supplies taxable as a 'rate without credit', then such credit to be treated under section 17(2).

** Export of services to Nepal and Bhutan against payment in Indian Rupees was excluded from credit reversal but after amendment of definition of export of services to conditionally relax repatriation in INR the same has been deleted from this special relaxation as no longer required since the relief is available in the law itself.

Please note, that where 'exempt supplies' has been given a 'special' meaning for purposes of rule 42 and 43 such that certain outward supplies are 'excluded', it must be noted when such exclusion is provided in the 'numerator' then same must also be excluded from 'denominator'. As the special exclusion is to save the effect on credit reversal due to certain outward supplies (being now treated as not exempt) will be undone if the exclusion is only in numerator and not in denominator. Experts caution that over enthusiastic and literal application should not be at the cost of causing error in formula.

Above table gives a good view of the 'special exempt supplies' that is prescribed for purposes of credit reversal. Now, let us examine the nature of reversal of credit that is prescribed.

- a) Credit review for reversal is required to be carried out monthly (provisional) and annually (final) for inputs and input services and only monthly (final) for capital goods;
- b) Total credit 'taken' in a month comes in for this review and not total credit 'eligible'. So, it seems like one can defer claiming credit where extent of reversal required (by this rule 42) is higher in one month than in another month. But, please note that credit in respect of inputs and input services is required to be revised annually. So, it may not be possible after all to adjust the credit-data to optimize on reversals;
- c) Credit related to schedule III supplies must always be allowed and cannot come in for any reversal for the reasons that (a) items listed in schedule III are 'no supply' and (b) explanation inserted in section 17(3) expressly states this with the only exception from para 5 of sch III. Although this explanation was inserted from 1 Feb 2019, as per decision in *Sundaram Pillai v. Pattabiraman* 1985 AIR 582 SC, where the date of coming into effect of 'explanation' and 'proviso' inserted in a legislation must be examined from the context and Hon'ble SC takes pains to lay down various circumstances and applicability of these expressions in each case;
- d) Purpose of this exercise is to identify 'common credits' that are used for (a) taxable and credit admissible outward supplies and (b) taxable but credit not admissible and exempt outward supplies and those liable to RCM. Merely because inward supplies 'appear' to be common does not mean they must be common, and their credits be subject to treatment under this rule. Experts are of the view that the requirement in this rule is to exclude credits that are directly related to various end-uses (discussed in detail later) and then 'derive' the pool of common credits. If registered persons are able to segregate apparently common inward supplies at invoice-level (and even on analytical basis, which may be subject to challenge), then there may be (almost) 'nil' common credits. And this is permitted in this rule by way of *third proviso* to rule 42(1);
- e) Compliance with rule 42 is different for works contract service involving construction of apartment whether of 'ongoing' real estate project or as 'new' real estate which are taxed without input tax credit ('RE Supplies'). So, the treatment under this rule may be examined in the light of the supplies involved and data qualities from the records of the registered person are extremely important to be sanitized and segregated.

Non-RE Supplies

Instead of detailed discussion running into several pages, the table below attempts to explain the operation of this rule for non-RE supplies:

Outward supplies:		Credit on inward supplies (T)			
		Wholly	Partly (C1) (T-T1-T2-T3)		Ineligible (T3)
	Non-business	✗ (T1)	(C2) (C1-T4)	✗(D2) (5%xC2)	✗
	Specially 'exempt supply' (Note 1)	✗ (T2)		✗(D1) (C2X E/F)	✗
	Zero-rated	✓ (T4)		✓ (C3)	✗
	Domestic (other than above) (Note 2)				✗

Note 1:

Specially 'exempt supply':
Domestic (other than zero-rated):
Taxable but exempt *
Taxable without credit
Sale of land and sale of (completed) building
Sale of securities
Supplies liable to RCM

Note 2:

Domestic (other than all of above):
Taxable with credit
No supply (other than para 5)
Interest on loans given
Transport by vessel from Indian port (outbound)

From the above, it is clear that:

- Credit will first need to be identified where it is 'wholly' not allowed (T1, T2 and T3);
- Remainder is credit 'wholly' allowable PLUS 'common credits' (C1);
- Out of this, credit 'wholly' allowable is identified and allowed (T4);
- From the revised-remainder, common credit (C2) that is to reallocated to:
 - Specially 'exempt supply' (D1) which is a pro-rata of the revised-remainder of credit in the ratio of specially 'exempt supply' by 'total turnover in the State';
 - Non-business end-use (D2) which is a straight allocation of 5% of C2;
 - Adjusted-remainder will be 'allowable' (C3).

The above computation is required to be carried out monthly and then again at the end of the financial year (not later than Sept following end of year). No variation is expected in T1, T2 and T3 in this year-end review. Variation in D1 and D2 are relevant and upward or downward revision is permitted. In case of upward revision, the additional amount that ought to be reversed along with interest from Apr to Sept (or earlier when reversals are finally revised) after end of financial year. In case of downward revision, the excess reversal may be reclaimed as credit in any month (when reversals are finally revised) but not later than returns for the month of Sept following end of year.

RE Supplies

Very simply put, review of common credits in case of RE Supplies is not exactly as discussed

above in the context of non-RE Supplies for the reason of 'timing difference' between year in which inward supplies are received and year in which related outward supplies (of apartments) are made. Having understood the computation of reversal under rule 42, following points may be noted:

- a) RE Supplies DOES NOT cover all works contracts but only construction of apartments as the reference is to para 5(b) of schedule II and not para 6(a) of schedule II;
- b) Exempt supplies will include apartments that are 'taxable without credit' due to the operation of explanation 4(iv)(b) to 11/2017-CT(R). And even though part of an REP project, commercial apartments do not enjoy the new rate regime and would be treated as taxable supplies;
- c) Computation of credit allowable and credit to be reversed are to be determined for each project in the month of completion when certificate completion is granted. Hence, until that month, all credits may be taken so as not to miss the time limit under section 16(4) and left unutilized. Please note reversal of credit under rule 37 attracts interest but not reversal under rule 42. However, please also note that credits such as T1, T2 and T3 should not be availed. Interest liability for claim of credit (between commencement and completion of construction) is allowed only in respect of D1 and D2. In case credits in the nature of T1, T2 and T3 are availed albeit innocently, this relief from interest will not be available;
- d) RE Supplies exempt from tax will comprise of:

Description	Ongoing Project	New Project
Exempt supplies	Apartments sold after date of OC/CC and hence not taxed	All apartments in new projects that are 'taxable without credit'
Taxable supplies	Apartments that are 'taxable with credit' and sold before OC/CC	None, whether sold before or after OC/CC
		Commercial apartments in REP

- e) Rule 42(3) prescribes that annual review of credit reversals is required to be carried out project-wise on date of grant of certificate of completion (not later than Sept following). It is accepted in the rule that projects may take more than one financial year and hence, project duration is considered relevant for this 'project end review' of credit reversal by ignoring any intervening financial year end until completion of said project;
- f) Rule 42(4) applies to 'transition project', that is project that was commenced before 1 Apr 2019 which was 'taxable with credit' and option was exercised for the project to be 'taxable without credit'. In such projects, the requirement is to proceed project-wise and with retrospective effect from (i) date of project commencement or (ii) 1 Jul 2017, whichever is earlier ("Special Review Period). This adjustment is required only in respect of 'commercial units' in a REP project for certain reasons, namely: (A) at the

time of transition into 'new rate regime', all credits taken would have been reversed in terms of 03/2019-CT(R) which made specific amendments to 11/2017(CT(R) and (B) new rate regime applies only to residential apartments as per entry 3(id) and commercial apartments in REP are 'taxable with credit' as they do not come under the new rate regime. Hence, in respect of commercial apartments in REP will be eligible for credit;

g) Review of credit reversal for RE Supplies to be carried out only in respect of REP projects with commercial apartments and not otherwise. The same may be proceeded as follows:

- Common credits would have already been identified monthly and reviewed annually for all operations of registered person since Jul 2017;
- Credits not allowable would have already been reversed towards T1, T2 and T3;
- Special reversals of D1 and D2 would also have been identified and reversed;
- RE Supplies would NOT have been considered as 'exempt supplies'. So, credit related to RE Supplies which are 'exempt' (see table above) would be carried in T4 and in C3;
- Take out from T4 (if not already done), credits relating to apartments 'taxable without credit' on a project-wise basis and reverse the same on date of completion but within Sept following;
- Of the adjusted-remainder (C3), which would have been considered as 'eligible', apply ratio of 'carpet area of commercial apartments in REP' by 'total carpet area in REP project' to arrive at 'adjusted-remainder C3-AG-COM. This credit will be eligible and balance will be liable to be reversed. This is a one-time exercise upto 31 March 2019;
- Redo above computation again after Mar 2019 upto date of completion of every REP project with commercial apartments in ratio of 'carpet area of commercial apartments' by 'total carpet area of REP project';
- Now, actual amount of C3 'eligible' will be determined to when C3-AG-COM is to be reduced in the ratio of 'unbooked commercial apartments' by 'total commercial apartments' (of carpet area). Now this C3-FINAL-COM is eligible common credit on account of commercial apartments in REP;
- Variation in C3-AG-COM and C3-FINAL-COM may either be downward or upward. In case of downward revision (AG is higher than FINAL), then additional amount that ought to be reversed along with interest from Apr to Sept (or earlier when reversals are finally revised) after end of financial year. In case of upward revision (FINAL is higher than AG), the excess reversal may be reclaimed as credit in any month (when reversals are finally revised) but not later than returns for the month of Sept following end of year.

In case of RE Supplies and Non-RE Supplies, following values will NOT be included both as exempt supplies and total turnover:

- (i) Value of Central excise duty paid under entry 84 and 92-A;
- (ii) Value of State excise duty paid under entry 54;
- (iii) Value of VAT paid under entry 51 of the VII Schedule to article 246 of COI; and
- (iv) Value of GST – CGST, SGST, ISGT and Cess – paid.

Illustration (Rule 42): Manner of determination of ITC in respect of inputs or input services and reversal thereof

Rule 42 of the Central Goods and Services Tax Rules, 2017

Sl. No	Particulars	Reference	CGST	SGST/UTGST	IGST
1	Total input tax on inputs and input services for the tax period May 2018	T	1,00,000	1,00,000	50,000
	Out of the total input tax (T):				
2	Input tax used exclusively for non-business purposes (Note 1)	T_1	10,000	10,000	5,000
3	Input tax used exclusively for effecting exempt supplies (Note 1)	T_2	10,000	10,000	5,000
4	Input tax ineligible under Section 17(5) (Note 1)	T_3	5,000	5,000	2,500
	Total		25,000	25,000	12,500
	ITC credited to Electronic Credit Ledger (Note 1)	$C_1 = T - (T_1 + T_2 + T_3)$	75,000	75,000	37,500
	Input tax credit used exclusively for taxable supplies (including zero-rated supplies)	T_4	50,000	50,000	25,000
	Common credit	$C_2 = C_1 - T_4$	25,000	25,000	12,500
	Aggregate value of exempt supplies for the tax period May 2018 (Note 2 & 3)	E	25,00,000	25,00,000	25,00,000

Total Turnover of the registered person for the tax period May 2018 (Note 2)	F	1,00,00,000	1,00,00,000	1,00,00,000
Credit attributable to exempt supplies	$D_1 = (E/F) * C_2$	6,250	6,250	3,125
Credit attributable to non-business purposes	$D_2 = C_2 * 5\%$	1,250	1,250	625
Net eligible common credit	$C_3 = C_2 - (D_1 + D_2)$	17,500	17,500	8,750
Total credit eligible (Exclusive + Common)	G = T₄ + C₃	67,500	67,500	33,750

Note 1: If the registered person does not have any turnover for May 2018, then the value of Exempt Supplies (E) and Total Turnover (F) shall be considered for the last tax period for which such details are available

Note 2: Aggregate value excludes taxes

Note 3: The registered person is expected to make such computation for each tax period and reverse the same in the periodic returns being filed by such registered person. However, on completion of the financial year, input tax credit shall be determined accurately based on actuals, in the same manner as provided in Rule 42. A true up is required to be done on an annual basis (between the amounts reversed for each tax period during the year and the amount determined at the end of the financial year) and any excess credit availed needs to be reversed with interest while short credit, if any, needs to be re-availed within 6 months from end of the financial year.

It is to be noted that the registered person would be required to remit excess ITC claimed (as determined in Note 3 above) with interest calculated for the period starting from the first day of April of the succeeding financial year till the date of payment. However, no interest can be claimed if, at the end of the financial year, it is found that short credit was availed.

(g) Reversal of credit based on 'condition of end-use' – capital goods

Input tax credit in respect of capital goods is also fettered with the same conditions (refer discussion on 'vesting conditions' for input tax credit under section 16(1) (above) which comprises of precedent conditions or subsequent conditions). Registered person continue to be responsible for meeting all requirements to correctly claim input tax credit even on capital goods as per section 155. Now, unlike inputs and input services, end-use of capital goods is more objective because output for each month can be determined.

When capital goods are NOT USED in making taxable outward supplies, then they too come in for review of credit. Capital goods 'used' do not get 'used up'. Hence, the computations applicable to input and input services cannot be applied to capital goods.

Description of outward supplies	Credit on capital goods	End-use 'swap'
Non-business	Not credited to ECL; 'ineligible' capital goods	Credit on 'all' capital goods deemed to accrue on '5% per quarter' (or part). Swap of end use from ineligible to eligible and vice versa will be available to the extent accrued as per rate above.
Specially 'exempt supplies'*		
Taxable	Credited to ECL; 'eligible' capital goods	
Zero-rated		
End-use not identified exclusive to either of above	Credited to ECL (A) and subject to adjustment under rule 43; 'common' capital goods	

* interpretation of specially 'exempt supplies' is same for rule 42 and rule 43.

Treatment given to RE Supplies and Non-RE Supplies is applicable even to capital goods.

Non-RE Supplies

In case of non-RE Supplies, full credit of 'eligible' and 'common' capital goods will be taken in the month in which they are received by the registered person.

- Credit related to capital goods exclusively used to make taxable outward supplies including zero-rated is 'wholly' available;
- Credit related to capital goods exclusively used to make non-business and special 'exempt supplies' are 'wholly' NOT available;
- Credit related to capital goods that are not identified exclusively to either of the above will be taken as credit subject to treatment under this rule (TC);
- Credit subject to treatment will be divided by 60 for each month (TM) of the deemed useful life of 5 years being 60 months (rule 43(1)(c) is prescribed useful life for all capital goods);
- Each such capital goods will have its own TM for a given month. Now monthly TM of all such capital goods must be aggregated (TR);
- Credit liable to reversal is computed on the ratio of 'specially exempt supplies' by 'total turnover in the State' for the registered person (TE); and
- Amount so arrived will need to be reversed. Interest will be applicable because total capital goods credit (A) would have been taken in the month of receipt of capital goods (and credited to ECL) and now a 'new TE' would be computed each month based on the ratio.

RE Supplies

In case of RE Supplies, capital goods used for non-RE Supplies are excluded from this discussion and previous section may be referred for the applicable treatment. Capital goods

used for RE Supplies full credit of 'eligible' and 'common' capital goods will be taken in the month in which they are received by the registered person.

Description of outward supplies	End-use of capital goods		Credit subject to treatment under rule 43
	Exclusively	Commonly	
Apartment 'taxable without credit'	✓	✓	✗
Other exempt construction	✓	✓	✗
Ongoing project	✓	✓	✓
Commercial apartment in REP	N.A	✓	✓

- (a) Credit reversal treatment in respect of capital goods is required to be made project-wise and on the date of grant of certificate of completion;
- (b) During construction period, capital goods used for taxable supplies is required to be assumed as 'nil';
- (c) Value of apartment to be considered is their total value and not the value billed or paid upto date of completion;
- (d) Credit on 'common' capital goods like to be reversed (TE) in case fo RE Supplies is to be determined based on following steps:
 - Identify credit relating to 'common' capital goods from 1 Jul 2017 to date of completion of project;
 - Carry out all steps to arrive at TE, that is:
 - o Take credit individually for each 'common' capital goods NOT monthly but for entire project duration (TC);
 - o Aggregate of all invidivual TC will be TC-FINAL;
 - o Arrive at factor to reduce total credit to arrive at eligible and ineligible;

Total carpet area of apartments constructed (project-wise) (F)			
Exempt	Taxable without credit	Partly taxable and exempt	Taxable with credit
E1 (Area only)		E2 (Area x Value Exempt / Total Value) *	E3 (Area unsold or unbooked only) **

* E2 generally expected to be 'nil' for the reason that in case of apartments under new rate regime credit is not allowed at all. In respect of ongoing projects where old rate regime continues, then full credit is available. Where 'common' capital goods are used for more than one such projects, then 'reasonable basis' (and NOT this rule) is applicable as per rule 43(4).

*** E3 will be limited to 'unsold' or 'unbooked' apartments as GST (ongoing project under old rate regime) will apply even if payments are not fully received within date of OC/CC but have been 'sold' or 'booked' before that date.*

- o Ineligible credit will be the net amount new-TE arrived by applying the above factor to the credit on 'common' capital goods TC; and
- o Applying this formula to all 'common' capital goods will provide TE-FINAL;
- Variation in TE with new-TE-FINAL may either be downward or upward. In case of downward revision (FINAL is higher), then additional amount that ought to be reversed along with interest from Apr to Sept (or earlier when reversals are finally revised) after end of financial year. In case of upward revision (FINAL is lower), the excess reversal may be reclaimed as credit in any month (when reversals are finally revised) but not later than returns for the month of Sept following end of year.
- (e) All computation of eligible-ineligible is required to be considered on 1/60 basis to begin with although credit may have been entirely availed (where available only) at the time of their receipt by the registered person.

Please note, that where 'exempt supplies' has been given a 'special' meaning for purposes of rule 42 and 43 such that certain outward supplies are 'excluded', it must be noted when such exclusion is provided in the 'numerator' then same must also be excluded from 'denominator'. As the special exclusion is to save the effect on credit reversal due to certain outward supplies (being now treated as not exempt) will be undone if the exclusion is only in numerator and not in denominator. Experts caution that over enthusiastic and literal application should not be at the cost of causing error in formula.

Illustration (Rule 43): Manner of determination of ITC in respect of capital goods and reversal thereof in certain cases

Sl. No	Particulars	Reference	IGST
1	ITC on capital goods used exclusively for non-business purposes (Note 1)	T ₁	10,000
2	ITC on capital goods used exclusively for effecting exempt supplies (Note 1)	T ₂	10,000
	Total		20,000
3	ITC on capital goods used exclusively for taxable supplies (including zero-rated supplies) (Note 1)	T ₃	50,000
4	ITC on capital goods (other than T ₁ , T ₂ and T ₃) (Annexure A)	A= b+f	3,90,000
5	ITC on capital goods whose residual life remain in beginning of tax period (Annexure A)	T _r	6,500

7	Aggregate value of exempt supplies for the tax period May 2020 (Note 2 & 3)	E	25,00,000
8	Total Turnover of the registered person for the tax period May 2020 (Note 2)	F	1,00,00,000
10	Credit attributable to exempt supplies	$T_e = (E/F) * T_r$	1,625

Note 1: T_1 , T_2 and T_3 should be declared in Form GSTR-2. T_3 (being ITC on capital goods used for taxable supplies) and A (being common credit in respect of capital goods) shall only be credited to the electronic credit ledger

Note 2: If the registered person does not have any turnover for May 2020, then the value of E and F shall be considered for the last tax period for which such details are available

Note 3: Aggregate value excludes taxes

Annexure A - ITC on capital goods whose residual life is remaining

Sl. No	Particulars	Reference	Amount
For May 2020			
1	Inward supply value of Machinery X	A	12,50,000
	IGST @ 12%	B	1,50,000
	Invoice Value		14,00,000
	Date of inward supply		12 April 2020
	Life of the capital goods (in months) - for GST purpose is 5 years	C	60
	ITC attributable for 1 month	$T_{m_1} = b/c$	2500
2	Inward supply value of Machinery Y	E	20,00,000
	IGST @ 12%	F	2,40,000
	Invoice Value		22,40,000
	Date of inward supply		21 May 2018
	Life of the capital goods (in months) - for GST purpose is 5 years	G	60
	ITC attributable for May 2020 (1 month)	$T_{m_2} = f/g$	4000
	Aggregate of ITC on common credits	$T_r = T_{m_1} + T_{m_2}$	6500

Restrictions on ITC: Banks and NBFCs under section 17(4)

Banking Company or financial institution including NBFC engaged in accepting deposits, extending loans or advances: An option is made available to a Banking company

or financial institution including NBFC engaged in accepting deposits, extending loans or advances that chooses not to comply with the provisions of sub-section (2) of section 17:

- (i) Refrain from availing input tax credit relatable to 'non-business purposes' and those restricted u/s 17(5) – This needs to be reported in FORM-GSTR 2
- (ii) Avail full credit on inter-branch supply of services between distinct persons of the banking company or NBFC. In other words, if HO has restricted credit to 50% and those goods or services are involved in inter-branch taxable supplies, the receiving branch is NOT required to further apply the 50% restriction. This relief is provided in *second proviso* to section 17(4); and
- (iii) Avail 50% of 'all other' input tax credits. 'All other' credits refer to eligible input tax credit that would have been available u/s 16 before administering the restriction in this section.

Restrictions on ITC: Blocked credits under Sec 17(5)

This section commences with a non-obstante clause "notwithstanding anything contained in sub section (1) of section 16 and sub section (1) of section 18". It clearly means that the provision of section 17(5) overrides sections 16(1) and 18(1). Not satisfied with this restriction, the legislature uses the expression 'in respect of' appearing in section 17(5) which connotes a broader meaning.

(a) Motor Vehicles

CGST Amendment Act, 2018

Multiple amendments have been made to Section 17(5) of the CGST Act. The implications of the same have been provided below

1. Credits relating to motor vehicles (MV)

Category of Service	MV with seating capacity of 14 or more	MV with seating capacity or 13 or less*	
		For Re-sale, Transport by Transport Operator, Driving School	Other Use
Credit on MV	Available	Available	Not Available
Credit on repair, insurance, servicing etc	Available	Available	Not Available
Credit on Renting, Leasing or Hiring	Available	Available	Not Available

*Similar conditions prescribed for Aircraft and Vessel. Additionally, Aircraft and Vessel used for transport of goods will also be eligible purchases for taking credit.

2. The Current law disallows credit on Motor Vehicle and other conveyances which can include two wheelers. However, the amended provisions refer to disallowance of credit only in case of Motor Vehicles. Section 2(17) of the Motor Vehicles Act, 1939 defines the term Motor Cycle to mean “two-wheeled motor vehicle” and Section 2(18) of the said Act defines Motor Vehicle to exclude “vehicle having less than four wheels”. Based on the above, we can observe that Motor Vehicles do not include Motor Cycles / Two wheelers and hence credit of the will be available under the Amendment Act.
3. Other employee benefit related entries have been merged and continue restriction of credit on the same unless they are used for providing output services or have been provided based on an obligation arising out of any law. For all the entries in clause (b) of Section 17(5), the input tax credit will be available in respect of goods or services where it is obligatory for an employer to provide the same to its employees under any law.

Note: Further, to come out of the restriction applicable to motor vehicles ‘claiming’ them to be for transportation of goods or transportation of passengers, registrations necessary under the motor vehicles’ registration laws must also be in alignment with such a ‘claim’. It would not suffice to merely claim motor vehicles which are duly registered for ‘private use’ to be used for transportation of goods or transportation of passengers. It may be a fact that a motor vehicle registered for private use, is in fact, used often for transportation of goods or transportation of passengers, it would still not escape the restriction because of the primary purpose of such a motor vehicle reported at the time of its registration.

Also note that rent-a-cab is a term that has been defined in Motor Vehicles Rules, 1989 and motor cab is defined in section 2(25) of the Motor Vehicles Act, 1988 to be limited to vehicles designed to transport ‘less than 6’ persons. Service tax law, however, expanded the meaning of ‘cab’ while imposing tax under the category of Rent-a-Cab Operator Services to include vehicles designed to seat more than 12 persons. In this section, rent-a-cab is not defined and it must be admitted to be an expression not of common usage. Now, the question arises as to whether the expansive meaning from the (now repealed) Finance Act, 1994 is to be borrowed or the meaning (now valid) Motor Vehicles Act/Rules is to be considered. It is a settled position of law that current law, would prevail over repealed law. As such, it would be limited to motor cabs designed to carry ‘less than 6 persons’. Thus, input tax credit in respect of transport of persons in a bus or minivan (for more than 6 persons) would not be blocked and the restriction shall apply only in respect of cars used as cabs.

It would also be relevant to note that for taking of credit on motor vehicles used for transport of passengers, the vehicle should be used for making taxable outward supplies. On the other hand, credit on motor vehicles used for transport of goods does not require taxable outward supplies to be effected. Hence, a company using a motor vehicle for site visit purposes may

not be eligible to avail credit on such motor vehicle but a Company using a motor vehicle to transport goods from their warehouse to factory / site or from factory to customer location would be entitled to claim credit of taxes paid on such motor vehicle.

After notification of clause (b) of Section 9 of CGST Amendment Act, 2018 from 1 Feb 2019, it has replaced clause (a) of Section 17(5) regarding eligibility/ non-eligibility of input tax credit on vehicles is more specific. As per amended provisions, firstly, motor vehicles for transportation of goods is not barred, that is, credit is fully admissible subject to any specific restrictions in tariff notification 11/2017-CT(R). Secondly, motor vehicles for transportation of persons motor vehicle having approved seating capacity of not more than 13 persons (including the driver) are ineligible for input tax credit except if used for following specified purpose:

- (a) Further supply of such vehicle or vessel or aircraft; or
- (b) Transportation of passengers; or
- (c) Imparting training on driving such vehicles.

As per the amended provisions, ITC on motor vehicles with approved capacity of more than 13 persons (including the driver) will be available, subject to tariff restrictions, if any.

Motor Vehicles Act, 1988 defines 'motor vehicle'* in section 2(28) as follows:

Any mechanically propelled vehicle	Adapted for use upon roads	Power of propulsion from external or internal source
Inclusions		Exclusions
Chassis to which body is NOT attached		Vehicle run on fixed rails
Trailer		Vehicle of special type adapted for use only in factory or in an enclosed spaces
		Vehicle having less than 4 wheels with engines capacity less than 25 cc

* vehicle is used interchangeably with motor vehicle.

From the above definition, it is abundantly clear that railway wagons, coal wagons, etc., are not eligible for credit. At the same time, two-wheelers and three-wheelers with engine capacity more than 25 cc will be eligible for credit.

As stated earlier, this entire restriction applies only in respect of 'passenger transport vehicles' and NOT for 'goods transport vehicles'. Please examine whether construction equipment mounted on crawlers or wheels or rollers even though affixed with a 'mark of registration' would be goods transport vehicles or construction machinery. From the above definition, the point of emphasis is 'adapted for use upon road' and not the fact of 'registration mark'. Test of 'adapted for use upon road' refers to the 'principal function' is its use for transportation by road. Added functionalities or features may ease operations before or after transportation. As such, such construction machinery are 'not adapted' for use on road but for use off-road.

Wheels (or crawlers or rollers) fitted are to provide added mobility within the site and for its own transport to other sites, but not for transporting other articles but to work on its own. And then there are tippers and dumpers which are 'adapted' for use on road as earth movers not for excavation but for transporting earth after its excavation along with added features of easy loading or unloading with pneumatic cylinders, etc. Forklifts and other vehicles that have very limited range of mobility but high capacity for lifting or moving loads are also 'not adapted' for use upon road. Care must be taken to classify these vehicles based on the definition referred from MV Act. Road-rollers have rollers for mobility and do not carry any load, would they be 'adapted' for use upon road or construction of roads, may be considered for self-study on this aspect.

Description	Mark of Registration?	Motor Vehicle or Not?	Creditable or Not?
Truck chassis	Yes	Yes	Yes
Truck chassis + goods transport body	Yes	Yes	Yes
Truck chassis + passenger transport body	Yes	Yes	No
Truck chassis + ambulance body	Yes	Yes	No
Tractor (designed to pull or push a payload – farm or road use)	Yes	Yes	Yes
Tractor + Trailer	Yes	Yes	Yes
Trailer only	Yes	Yes	Yes
Tipper	Yes	Yes	Yes
Road-roller	Yes	Yes	Yes
Wheel-loader or pay-loader	Yes	No	Yes
Excavator	No	No	Yes
Fork-lift	No	Yes	Yes
Aircraft tug	No	No	Yes

Another aspect to consider is whether credit is admissible in respect of 'test drive' vehicles that are neither 'held for sale' nor 'put to regular use'. As test for ineligible credit is 'further supply', based on broader meaning of the expression 'in respect of', used in sub-section (5), credit WILL BE allowed. Reference may be had to A. M. Motors (2018) 18 GSTL 93 (AAR, Kerala) and Chowgule Industries (P.) Ltd. (2019) 107 taxmann.in 293 (AAR, Goa).

(aa) Vessels and Aircraft:

After notification of clause (b) of Section 9 of CGST Amendment Act, 2018 from 1 Feb 2019, it has replaced clause (aa) of Section 17(5) regarding eligibility/ non-eligibility of input tax credit on 'vessels and aircraft' is more specific. As per amended provisions, all vessels and aircraft are rendered ineligible for credit except if used for following specified purpose:

- (i) For making taxable supplies or:
 - (a) Such vessel or aircraft themselves; or
 - (b) Transportation of passengers; or
 - (c) Imparting training on navigating such vessels; or
 - (d) Imparting training on flying such aircraft; or
- (ii) For transportation of goods.

From the foregoing it is clear that vessels and aircraft have a similar embargo like motor vehicles although worded slightly differently. That is, transport of goods is totally eligible for credit in case of motor vehicles as well as vessels and aircraft. Care must be taken to note that this exception (ineligible credit is made eligible in certain exceptions listed) must be strictly adhered to. Further, tariff conditions (conditions linked to rate of GST under 11/2017-CT(R)) being more specific, will render credit that is covered by this exception to again become ineligible.

Although notification cannot overrule the statute, please note that section 17(5) is an embargo that is applicable to all registered persons. So also, the relaxation of this embargo applies to all registered persons. Now, a taxable person in search of the GST tariff applicable finds that 11/2017-CT(R) prescribes rate of GST with a condition that input tax credit on goods (includes capital goods) is NOT to be availed. Explanation to section 11 states that where an exemption (partly or full) is granted absolutely (applicable to all) cannot be deviated from and must be mandatorily availed. In other words, 'conditional rate' cannot be converted into 'optional rate' by deliberately violating the 'condition' attached to the prescribed rate of tax. One must pay the specially prescribed rate of GST and also adhere to the condition (and refrain from claim credit). Refraining from claiming credit obviously refers to credit that is otherwise eligible. Tariff notification is not attempting to override the statute here but is in complete harmony where it firstly recognizes that credit (in respect of motor vehicles, vessels and aircraft) to the extent (that it comes within the exceptions carved out) becomes eligible under section 16(1) read with section 17(5) and secondly, it is this (extent of eligible) credit that is to be refrained from availing in order to properly comply with the conditions prescribed in the tariff notification. Hence, there is no disharmony between the conditions prescribed in the tariff notification and the provisions of section 17(5).

Another important aspect to highlight is that 'further supply' of vessel or aircraft (also applicable to motor vehicle) does not mean 'resale' but any 'form' of supply. In other words, 'purchase' of vessel or aircraft (even motor vehicle) when used to let-out on 'lease', will qualify for credit admissibility because the output is 'further supply' although not of the same form. However, it is important to identify a further supply of vessel or aircraft (even motor vehicle) is 'lease' or 'hire'. Further supply which can be in 'any' form must not be of such a form where tariff notification places an embargo on claiming credit. 'Hire' is a fare for passage and 'lease' is right to use. When we buy a flight ticket, we only pay for the trip (or passage along the route) but we do not pay for 'right to use' the aircraft (or vessel or motor vehicle) even when it is a charter. Care must be taken not to interchange these expressions and seek to come

under a tariff entry that is free from credit restriction-conditions.

(ab) Services of upkeep of motor vehicles, vessels and aircraft:

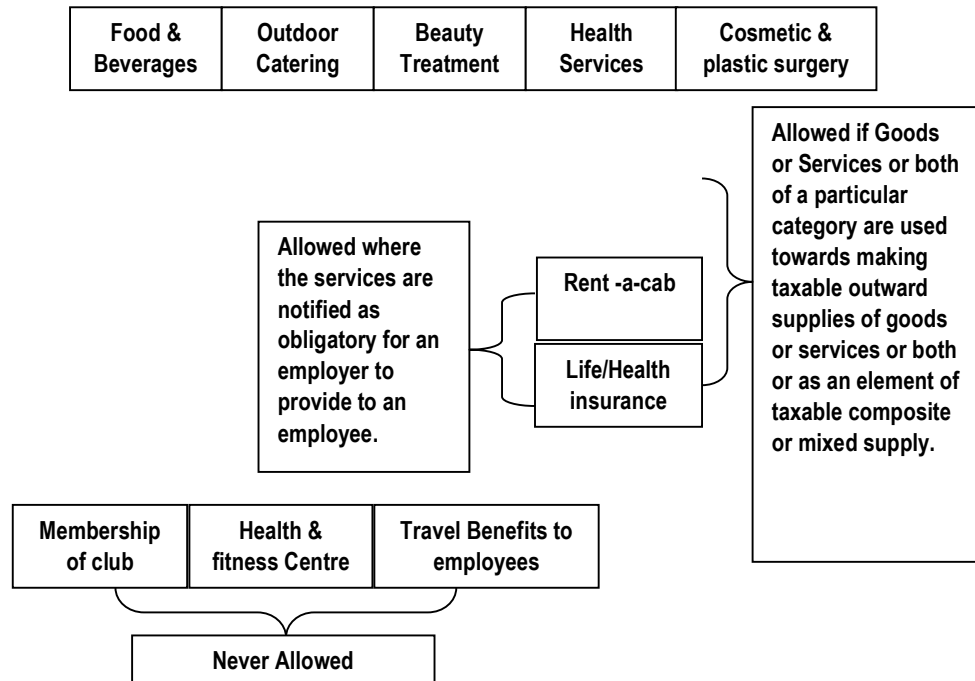

Further, credit of general insurance, servicing, repair and maintenance shall be available so far as it relates to motor vehicle, vessels or aircraft on which credit is available. Further, credit will also be available if the services are received by a taxable person engaged in manufacture of the motor vehicles or in supply of general insurance services in respect of motor vehicles, vessels or aircraft insured by him.

Interestingly, it has been observed that this restriction is being imposed even on authorized service centres (ASC) involved in providing maintenance as their principal supply to customers (owners of motor vehicles). Maintenance charges are an expression that is applicable *qua* owner of motor vehicle. Maintenance charges *qua* authorised service centre are in the nature of sub-contract charges where ASC is the main-contractor of the customer (owner of motor vehicle). ASC will not 'maintain' vehicle belonging to the customer.

Now, maintenance and upkeep charges will be creditable if the underlying motor vehicle (or vessel or aircraft) is also eligible for credit. Please note that the tariff notification restriction on credit will not be limited to motor vehicle (or vessel or aircraft) but will extend to its maintenance and upkeep also.

(b) Supply of goods and services being:

In the certain specified cases, credit is blocked unless they are used in making a further outward supply as such or as an element of a composite or mixed supply.

As per amended section 17(5), input tax credit of all above services shall be eligible if it is obligatory on the part of employer to provide the same to its employees under any law for the time being in force. For Eg Credit of GST paid on outdoor catering services used in factory may be allowed after effective date, as Factories Act made it compulsory to provide canteen services if factory has certain no of employees. Earlier, this credit was not allowed.

Although credit is restricted on the above supplies, credit would still be allowed if they are used for effecting further taxable supply of the same category, or as an element of a taxable composite or mixed supply. Often in a business scenario, it is extremely difficult to link such inward supplies to taxable outward supplies. For instance – in a rent-a-cab service – input tax credit would be allowed if the corresponding inward supply could be linked to an outward supply of the very same rent-a-cab service; but if rent-a-cab outward supply is provided free of cost then the question that arises is – whether input tax needs restriction or output supply is subject to valuation? Assume that in the very same example the rent-a-cab outward supply is provided by a hotel to its guest – in the form of free airport transfers– what would be the position of input taxes? The pertinent question would be whether it was for furtherance of business for which the obvious answer would be in affirmative as the cost would have been included in the value of the other (composite or mixed) supply of services. Alternative views may arise due to the facility not being uniformly available to all guests. But care must be taken to reflect on the admissibility of credit when output is subjected to tax.

It would not suffice to merely claim that these restricted supplies are used for further taxable supply in the absence of a clear link between the restricted inward supply and the taxable outward supply. Mere utilization of these restricted supplies for the benefit of the supplier in the course of an outward supply may validate input tax credit on such restricted supplies.

Certain instances where the credits on aforementioned restricted categories can be attempted to be availed are indicated below:

Inward Supplies	Credit Eligibility
Food & Beverages or Outdoor Catering	<p>Corporate party organized by hiring an Event Manager. Event Manager is contracted to ensure all arrangements relating to food, guests, lighting, decoration, cab services for pick up and drop etc.</p> <p>Event Manager uses the services of a caterer to serve food at the party and engages a rent-a-cab operator to pick-up and drop guests.</p> <p>(i) Credit to Event Manager for food and Rent-a-Cab services – Available since inward supplies have been used for making outward supplies</p> <p>(ii) Credit to Company – Available since they are availing composite supply of event management and not a standalone supply of various elements contained in organizing such event</p>

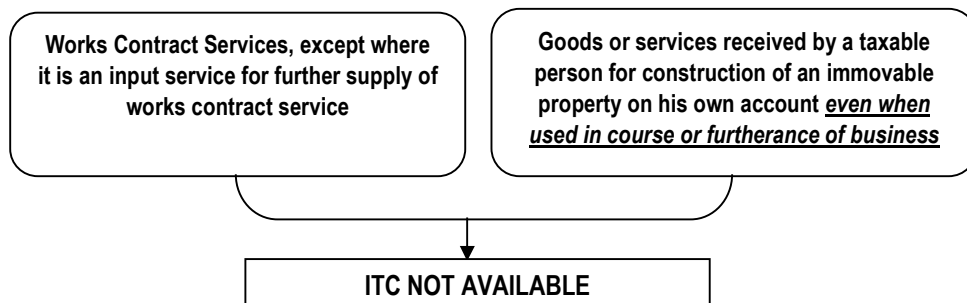

Renting or hiring of motor vehicles provided to Company for transport of female employees who work on night shift	Karnataka Shops and Establishment Regulations mandates every employer to ensure that cab facility is provided to female employees working during night shift. Any cab facility provided for transport of female employees is mandated by statute and credit of the same would be available to the employer.
Travel Benefits to Directors	Travel Benefits to employees have been specifically restricted from taking credit but nothing has been mentioned about the travel benefits extended to non-executive directors and hence the same should be available. Credits on transactions for “non-business use” may not apply here since Company is accounting this as a business expenditure in their books of accounts.

Clause (b) of Section 9 of CGST Amendment Act, 2018 replaces clause (b) of Section 17(5) to bring out the following amendments:

1. Credit shall not be available for the supply of food and beverages, outdoor catering, beauty treatment, health services, cosmetic and plastic surgery, leasing, renting or hiring of motor vehicles, vessels or aircraft referred to in clause (a) or clause (aa) of Section 17(5) except when used for the purposes specified therein. In other words, renting or hiring of motor vehicles, vessels and aircraft are blocked only if the purchase of such motor vehicles, vehicles and aircrafts are blocked as per clause (a) of (aa). However, input tax credit in respect of such goods or services or both shall be available where an inward supply of such goods or services or both is used by a registered person for making an outward taxable supply of the same category of goods or services or both or as an element of a taxable composite or mixed supply.
2. Further, credit in respect of life insurance and health insurance will continue to be blocked.
3. ITC on membership of club, health and fitness centre will also be considered as blocked
4. Further, travel benefits extended to employees on vacation such as leave or home travel concession will also not be available.
5. The provisions have been amended so as to allow ITC in respect of goods or services or both specified above if it is made obligatory for an employer to provide such services under any law for the time being in force.
6. In all the above cases, the credit will be available if the goods or services are required to be provided by the employer through any obligation imposed under any law

Where steps are taken to include these inward supplies as an ‘element’ of an outward supply, then credit cannot be denied.

(c) Construction of Immovable Property (other than plant & machinery)

“Construction” includes re-construction, renovation, additions or alterations or repairs, to the extent of capitalization, to the said immovable property. Please note that ‘alterations’ and ‘repairs’ are also included in this definition if capitalized.

Considering that ‘works contract services’ is not classified as a taxable outward supply in itself, the restriction would apply only in such of those cases where the corresponding inward supply of ‘works contract services’ is not used directly in a further taxable outward supply. Input tax credit attributable to ‘Works Contract Services’ (including inward supply of goods or services) availed by builders/ developers for providing outward supply of services, would be eligible for ITC. It is important to note that credit of GST paid on works contract services would be allowed only if the output supply is also works contract services.

In respect of inward supply of works contract resulting in immovable property for own use, the corresponding tax credits would be blocked if it is used “for” construction. Hence, costs directly related to construction would not enjoy any input tax credit, but costs which directly do not relate to construction would be entitled to credit.

Plant and machinery: means apparatus, equipment, machinery fixed to earth by foundation or structural support that are used for making outward supply of goods or services or both and includes such foundation and **structural** supports but excludes land, building or any other civil structures, telecommunication towers; and pipelines laid outside the factory premises. The definition of plant and machinery is also unique in including foundation and support which could be a works contract service for which credit is allowed but excludes ‘any other civil structure’. The intention appears to be put to rest the disputes in the past where foundation and structure which may include civil construction which are part of the plant and machinery would be eligible for credit. Specific exclusion like telecommunication towers may exclude some parts of other than the basic tower. These aspects may also be tested in time to come.

In this context it is important to note that a single contract may be awarded for construction including interior works along with electronic installations comprising of audio-video equipment. As a composite supply, the electronic installations will also be taxed under HSN 9954 and be incapable of being extracted from the total contract price. But if this contract were

treated as a mixed supply, the works contract too would be taxed at 28% (assumed for discussion purposes) can credit of the entire project be claimed including the works contract embedded in the single contract price even though taxed at 28%. Care appears to have been taken to permit credit only in respect of 'plant and machinery' which has been defined in an explanation that is made applicable to 'this section as well all sections in Chapter VI of the Act'.

Reference may be had to Maha-AAR in the case of Nipro India Corporation Private Limited (ARA- 33/2017-18/B- 41 Mumbai, dt. 28.05.2018) where AAR has travelled to great lengths to collect data of plant and machinery embedded in the contract price and allowed credit to Applicant in respect of such plant and machinery although entire contract sum was taxed under HSN 9954 as 'works contract service'.

Another aspect to be examined is 'factory building' – is it building (and hence credit restricted) or plant (and hence credit admissible)? Every structure is not immovable property. Please examine if the structure is a 'means of production' or the 'location of production'. Steel structures for gantry crane to move about would not be building but part of the supports for the crane. This area requires some technical insight and cannot be dismissed based on visual inspection by an untrained eye. Plant may be annexed to the ground – courts have applied the test whether the annexation is the object of permanent beneficial enjoyment of the land. Machinery for metal shaping and electro-plating which was attached by bolts to special concrete bases that could not be removed was NOT treated to be part of structure or solid beneath as the attachment was NOT for beneficial enjoyment of the soil or concrete. If they retain their identity and are not for beneficial enjoyment of the land, then they will be creditable as 'plant and machinery' even though they may be annexed to the ground. Plant is erected and then an enclosure is fabricated around the plant, the enclosure is not directly involved in the operation of the plant although it is necessary to provide protection to the plant from weather and other factors that can adversely affect the production with the plant. Tendency could be to vaguely describe the enclosure or its fabrication may be simultaneously with the plant but test of identity remains to decide the admissibility or restriction of credit. Examine, if the enclosure is 'passive' component in the working of the factory or an 'active' component.

Please also refer discussion under section 2(52) on 'effect of affixation' whether it remains movable property or becomes immovable property and whether it promotes better enjoyment of the equipment or enhances value of land to which it is affixed/installed. This inquiry is necessary to test whether the bar on credit applies to equipment affixed/installed or is saved.

(d) Self-construction

Inward supply of goods or services for construction of an immovable property for 'own use' would also not be eligible for input tax credit. This restriction applies even when such immovable property is used in the course or in furtherance of business. Understanding the scope of 'immovable property' is very important. Immovable property is well understood to be land and building but it also includes everything that is attached to or forming part of the land and rights-in-land. Credit is blocked on all inward supplies leading to the establishment of

such immovable property. Inward supply of services from real estate agent, architect, interior decorators and contractors are all blocked as these are involved in the establishment of the immovable property. But, if inward supplies such as security, house-keeping and property maintenance are used after construction, then such credits are not blocked as these are received after establishment of the immovable property. One needs to note the fine line that the law draws to prevent indiscriminate extension of this credit blockage beyond the purpose for which it is specified.

Factors to be considered for deciding whether the credits on costs associated with works contract or construction of immovable property are available or not:

- (i) If rent charged separately for bare shell and the fitouts – No Credit in respect of inputs used in construction of bare shell whereas credits could be availed on fitouts and related material if they are separable from the construction materials and labour. Separable not by securing a pricing break-down from the supplier but identifiable as a distinct asset class involved in the construction project activity. Often it is seen that in order to fasten turnkey responsibility of supply and installation of equipment and installations, single contract is awarded. Articles that do not form an integral part or create the identity of the immovable property such as electronic installations including audio-video equipment may be included in the same contract but as a separable item of supply with its own price, tax and other terms. Apart from risk of being treated as a mixed supply, there is a potential for loss of credit. Fit-out is a generic expression that includes false roofing and cornice-work, sound-proof panelling, glass partitions, anti-static carpets, loose furniture in lobby and client reception areas, pantry infra with movable furniture and wash-area facilities. Here too, those assets that do not form an integral part or create the identity of the immovable property may be identified separately so that credit can be availed without being lost as an integral part of the interior decoration works which merges inseparably with the immovable property;
- (ii) Lease premium or lease rental for land on which immovable property is constructed – It is common to take land on lease (on payment of one-time premium and / or recurring rental) for long-term (say) 10 years to 99 years. And then invest in the construction of a building for use as factory, warehouse or office. Rent paid for building is not affected by this clause (d) as the 'lease' of building is not barred under section 17(5). However, the lease of land needs to be carefully understood. On one hand, lease of land may be equated with lease of building and credit claimed, regardless of what the lease is for – building or land only. Unless agreed otherwise, building (that is put-up on that land) belongs to the landowner at the end of lease tenure because of ownership of land all things attached permanently to that land merges with the property in that land and cannot remain the property of the lessee after the end of lease tenure. This merger is due to the construction in a permanent manner and coalescing of the two properties – land apart from building – only at the end of lease (called determination of lease).

Now, in lease, there is an expression 'demise' which needs to be carefully understood. For example, if land is taken on lease and lessee puts-up a temporary structure of tents

and carries on his circus business. Lessee is liable to pay rent (for land) whether the circus is running or the tent-structures (God forbid) get destroyed in a fire accident. This is because the 'demise' here is the land which continues to remain in the possession of the lessee who may re-erect the tent-structures and restart the circus or terminate the lease and vacate the land. There is no third scenario possible and lease rentals will continue to accrue. Contrasted with another example, where the tent-structures are taken on lease from the landowner. And if this tent-structure were to be destroyed by a fire accident, there is no rent payable as the demise here is 'tent-structures'. When there is no demise, there can be no tenancy and hence no lease rental payable.

In the case of land taken on lease (and building put-up by lessee), inquiry is required into the 'demise' in respect of which premium and or rentals paid and then examine if the credit restriction is attracted or not. When parties contract in such a manner so as to themselves treat the land as being distinct from the building thereon, the 'demise' is the 'land alone' and not the 'land and building'. So, the question that arises is whether the building is where business is carried on or is the land where business is carried on. When these two – land and building thereon – have once been accepted as separate and distinct, their uses must also be gone into. And by these tests, building is where business is carried on and GST paid on lease rental for building is not restricted. But land is where the building is put-up and lease rental for land is to put-up (during the years of construction) and retain it there (for the remainder of the lease tenure). Having said that land is the demise and it is separate from the building put-up on that land. Then, end-use of land and end-use of building must retain their separate identities and then stand the test of credit restriction under this clause.

Relatively simpler issues have been hotly contested in GST and this question is far-reaching and is riddled with forceful arguments. Reference may be had to decision of Hon'ble Orissa High Court in the case of Safari Retreats Private Limited v. CC-CGST in W.P. (C) No. 20463 of 2018 vide order dated April 17 2019 has allowed input tax credit in respect of GST paid on construction of immovable property that is meant for further lease by the owners. As this is the view of the Hon'ble HC, in the absence of contradictory decisions of any other jurisdictional HC or SC, this decision will continue to have force. Care must be taken while relying on this decision as credit 'availed even if not utilized' would attract interest at 24 per cent in GST. Considered decisions may be taken by as the quantum of credit may be quite large and so will be the consequences.

- (iii) Accounting treatment in the books – Are the costs capitalized with the Building or separately disclosed in the fixed asset register? Separate capitalization – Credit would be available. Accounting treatment is a good alibi for claiming credit. If an item of expenditure is not permitted to be capitalized as PPE, then the same cannot be treated by GST to be capital goods, whether creditable or not. Similarly, if any items of supply included in the turnkey contract is to be separated from the construction material and labour for putting up the immovable property for the reason that they items DO NOT form an integral part or create the identity of the immovable property, support must be available in the manner of capitalization. If these items actually comprise an

independent but simultaneous item supplied, then they would be capitalized separately as an independent asset class or group as it demonstrates characteristics of use, usefulness and useful life that is different from that of the immovable property. Although not impossible, contradictions in accounting treatment with that in GST for claiming credit may generally not be free from litigation. In fact, where there are such contradictions more transparent explanations and notes may be prepared so as to allow tax authorities to consider if they are concurred with the uniqueness of the GST treatment.

- (iv) Things which cannot be retrieved without damage to the goods – Immovable and hence no credit. As to what is immovable property and what is movable property, reference is no longer about 'retrieve without damage' but 'purpose of affixation'. Refer to detailed discussion under definition of 'services' in section 2(102) where among other things, it has been explained that *"Based on the three limbs to the definition of 'attached to the earth' in section 3 of TP Act, it appears that if the attachment (of equipment) is for beneficial enjoyment of the land (or building), then equipment becomes immovable property itself. But, if the attachment is for the beneficial enjoyment of the equipment then, equipment remains movable property. These principles were expounded in Subramaniam Chettiar v. Chidambaram Servai AIR 1940 Mad 527 which were reiterated in CCE v. Solid and Correct Engineering Works 2010 (252) ELT 481 (SC)"*;
- (v) HSN Code in the Bill – If classified under the category of construction – Then credit is may not be available. There is a settled principle of law that incorrect classification by the supplier should not lead to denial if in normal circumstances it would be eligible. There is no 'one fits all' rule that be applied here. HSN may change when it passes supplier's hands;
- (vi) Separate PO and Invoice from the vendor to bifurcate between transactions on which one would avail credits and on transactions on which one would not avail credits. Artificial bifurcation of otherwise inseparable works is not advised. It depends on the nature of the article supplied and the understanding of its installation will guide whether the two can be separated or not. If the parties are the same but operating under two separate documents (PO and Contract), it arouses suspicion. Further suspicious are clauses where both components are taken together for computing advance, LD and recoveries and if there are 'cross-fall breach' clauses, then it becomes all the more worrisome;
- (vii) Accounting of transactions and assigning the Project / Cost Code. Services may also be capitalized along with an asset class or asset group but that does not mean they cease to remain 'input services'.

(e) Goods or services or both on which tax has been paid under Section 10

Section 10(4) provides the conditions to be fulfilled for a person falling under composition scheme, with respect of input tax credit. One of the conditions state that a person opting for

the composition scheme should not collect any taxes from the recipient. As no taxes are paid by the recipient, no input tax credit can be availed by them either. For this reason, any tax paid by supplier under section 10 will be restricted by this clause under Section 17(5).

Since no tax has been charged by the supplier (opting for composition), this restriction may seem academic. But, not quite so, as section 10(4) authorizes tax authorities not only to take action against erring composition taxpayers for collecting tax, section 17(5)(e) authorizes action against recipient-taxpayers who may have taken credit of the same, even innocently.

(f) Goods or services or both received by a non-resident taxable person except on goods imported by him

A non-resident taxable person (NRTP) is a person who temporarily supplies any goods or services within India even though they are not a resident of the taxable territory. For such NRTPs, restriction has been cast in respect of the goods or services received within India. In respect of the goods or services received within India, no input tax credit can be availed by them. However, they are free to avail the input tax credit of the goods imported by them from outside India.

Reference may be had to the discussion in the context of section 27 about Casual Taxable Person compared to Non-Resident Taxable Person. Indian FDI regulations place a restriction on foreign companies entering in India and undertaking 'business-like' activities without establishing a taxable enterprise. And income-tax law will impute a taxable presence in the form of a 'business connection' or 'permanent establishment' in India to subject the income of this presence to tax in India. Conclusions and compliances under income-tax and FDI will impact the conclusions in GST about CTP v. NRTP and hence credit entitlements to each. Care must be taken of the same not apply this clause (f) mechanically. Registration as NRTP may itself need to be examined carefully due to the adverse credit consequence to NRTPs compared to CTPs that is applicable.

(g) Personal consumption

Goods received by a registered person may be used for 'personal' consumption. It would be apposite to recollect para 4 of schedule II where it states two situations that is relevant for present purposes, namely, (a) diversion from intended end-use in business and (b) private use of business assets (and the third situation is not relevant for present purpose).

Business assets may or may not include inputs and capital goods on which input tax credit has been availed. So, the scope of para 4 of schedule II is far wider than this clause (g). Presently, the concern is only in respect of 'personal' use which would be a sub-set of para 4 of schedule II. Reason why it is considered to be a sub-set and not something else outside of schedule II is because schedule II completely and comprehensively covers all situations regarding the treatment to be extended to a actual supply or deemed supply by schedule I.

All assets of an incorporeal taxpayer (any kind of legal entity) is used and consumed by employees or other natural persons. This clause (g) does NOT get attracted in all those situations and deny credit. The 'nature' of use or consumption must be examined. For

example, a software engineer uses the computer provided by the company along with the workstation provided in the air-conditioned environment. None of these are personally consumed because all facilities provided are 'tools-of-trade' that company must provide in order to avail the work and skill of the software engineer. Then it may seem like all inward supplies used or consumed may be justified in this manner. Not quite so and some criteria could be devised to differentiate – whether it is a means of performing their duties or the rewards after performing their duties – as personal consumption inherently yields no direct and proximate benefit to the company in making outward supplies.

This clause (g) should not be considered as a threat to claiming credit if the inward supplies on which credit is being claimed are diligently availed. Section 16(1) permits credit on everything but with an 'end use' criteria – in the course or furtherance of business. Income-tax law also allows deduction in respect of expenses that are 'for earning income' in the business. But these two statutes have different objectives in this regard. Income-tax is determining the 'profit before tax' whereas GST is determining the 'credits in respect of outward supply'.

By this reasoning, it appears that clause (g) could be pressed into service when there is no 'nexus' between items in respect of which credit is availed and outward supplies. Care must be taken not to use the language of section 16(1) liberally and without check or limits. Clause (g) provides the check to see if the 'immediate and ultimate' use or consumption of any item is for personal benefit to the person (employee or director or any person who can consume on behalf) or not. If the immediate benefit is for the said person but the ultimate benefit is for the supplier-company, the credit would not be restricted by clause (g).

Inward supplies by company such as raw-material, capital goods including computers, air-conditioning, work areas, factory and office building taken on lease, flight tickets, hotel accommodation, etc. are creditable by the company even though they are for 'immediate' consumption by employees; they are for 'ultimate' benefit by company.

However, inward supplies such as video games, cinema or IPL tickets, theme-party organized, holiday package, etc., are 'unlikely' to be creditable by the company as they are for 'immediate and ultimate' consumption by employees only.

Then there would be an 'in-between' category where though it is 'immediate' consumption by employees, there may be a proportion of 'ultimate' benefit to the company. These cases, discretion must be exercised to identify admissibility of credits to the company. A perfect rule cannot be fixed for all cases nor can credit be completely allowed.

And for these reasons, income-tax rules of allowance/disallowance cannot be applied in GST as every expenditure 'by' the business is the allowed in income-tax where 'for' the business is admissible in GST. Please refer discussion under section 16(1) on (i) commencement of business and (ii) used in business, in respect of various expenses and the effect on credit.

Deemed supply to related party (especially employee) is attracted by sch I, para 2 even when no consideration is present. Where employees are involved, gifts that are not remuneration for

their employment services is a 'perquisite' above Rs.5,000/- per annum and therefore comes within the exclusion by sch III, para 1. Where any other related persons are involved, care must be taken to examine whether there is a 'diversion of business assets' (not limited to fixed assets but all assets of the business even if it is not capitalized) are used for 'non-business purposes'. Where credit is availed and thereafter, they are 'diverted' care must be taken to address the 'treatment' prescribed in sch II, para 4(b). Although sch II does not itself define supply, sch II provides 'classification' whether the supplies are to be 'treated' (as goods or as services), existence of entries in sch II arouses questions about taxability of said transactions. Without the transaction, at least in the opinion of lawmaker, its treatment would not be provided and conversely, existence of a treatment indicates (possible) taxability.

Whether such diversion of business assets is supply or not may be debated but attention must be drawn not only to (i) taxability of such diversion but also (ii) admissibility of credit on such inward supplies. If it is concluded that there is no supply involved in such diversion, then credit could easily come within the disqualification under 'personal consumption' and vice versa.

Further, every telephone call made from the office does not need to be justified as to its 'use in furtherance of business'. Also, there is no requirement to admit personal element in telephone expenses (and all such inward supplies) without examining the (i) tools-of-trade and (ii) 'immediate and ultimate' benefit consideration discussed above. There is also no requirement to automatically consider all such inward supplies as being liable for reversal of an amount of 5 per cent (as item D2 under rule 42). If there were compulsory element of 'personal consumption' in all such inward supplies then, the treatment of such expenditure in income-tax (in computation of income from business or profession) or its disclosure in CARO cannot be ignored. As all these different legislations are looking for the same 'assertion on facts' by the legal entity which the registered person is an integral part.

Section 17(5) is given the title of an 'imperfect negative list' and it is deliberate so that there is room to accommodate *bona fide* cases where credit ought to be allowed as there is greater proportion of benefit ultimately flowing to the company. Courts will have final say in the matter that we will need to learn from as things unfold.

(h) Goods lost, stolen, destroyed, written off or disposed of by way of gift or free samples

Consider an illustration where input 'A' is converted into output 'B' (both being goods) and a certain quantity of output 'B' that are produced but not yet supplied are destroyed by fire within the factory premises. Now, is GST payable on output 'B' or is it sufficient, if input tax credit taken on input 'A' is reversed? Destruction of a part of output 'B' does not satisfy the requirements of 'supply' and therefore, there is no question of payment of tax on the stock of 'B' that are destroyed by fire before they are supplied. This would not have been the case under Central Excise law (as Central Excise Duty was payable on manufacture) as those principles do not find place in GST law. Under the GST law, on destruction of stock of 'B', the only tax that remains to be paid is the proportionate credit availed on input 'A' because goods destroyed are 'A' only in the form of 'B'.

Credit was properly availed on 'A' and was even used properly in the course or furtherance of business in the production of 'B' which was subsequently destroyed before being supplied renders the credit availed of 'A' to fail the 'vesting condition subsequent' attached to validity of credit taken under section 16(1) being proper 'end use' of 'A'. Credit is not a 'vested right' at the time of receipt of inputs but only on satisfying all 'vesting conditions', including its participation in a taxable outward supply.

Please note that while credit reversal discussed above applies to goods destroyed flows from the operation of a specific provision in section 17(5)(h) but no such reversal because though inefficiently used, they are still USED as accepted and agreed at the time of taking credit. by this clause (please refer discussion under section 19(3) where abnormal loss in the hands of job-worker will be deemed to be a supply in the hands of principal due to an express provision).

As the 'reasons' for reversal and specific in this clause (h), reversal is 'without any interest' consequence. If the credit was 'ineligible' and is reversed, that is ineligible *ab initio*. Such reversal is not the same as reversal due to change of circumstances contemplated in this clause (h) which is a current change requiring reversal.

Therefore, it becomes clear that the words 'in respect of' are not limited to the very articles that are disqualified from claim of input tax credit under this sub-section but also credits 'in respect of' goods or services linked to the disqualified articles are also liable to be disqualified.

Now, in order to discuss this clause (h), it may be appropriate to first describe the scope of the words listed here. A short description of each of the words given above is depicted below:

- (a) Lost – When goods are missing, not traceable or inexplicable absence. Word 'lost' is not to be confused with 'loss'. Loss is explicable but nevertheless a 'loss' but certainly not 'lost'. Explicable loss is in-process loss which may be normal or abnormal loss. Explicable losses do not attract reversal of credit under this clause (h) because the 'credit condition' accepted and agreed at the time of taking credit was that the said goods WILL BE USED. And when explicable in-process (normal or abnormal) loss occurs, the fact that they said goods have been used is undeniable albeit inefficiently for failing to generate produce output.

Lost, on the other hand, is a clear indication due to the inexplicable nature of this situation that the said goods ARE NOT USED as accepted and agreed. As such, 'lost' attracts reversal of credit but not 'loss'. Explicable means explainable and being able to explain the reasons for the loss does not include any loss due to "not using" the said goods. As additional notes, it merits to mention that full credit may be taken and retained and even utilized in case of goods which are involved in explicable in-process loss, whether normal or abnormal (exception is when abnormal loss occurs in the hands of job-worker, please refer detailed discussion in the context of deemed supply by principal under section 19(3)).

With regard to in-process loss of inputs a very interesting decision may be found in *Ashok Leyland Ltd v. CCE, Nagpur 2004 (169) E.L.T. 131 (Tri. - Mumbai)*.

- (b) **Stolen** – When any goods are found to be lower upon physical verification, it may be considered as stolen. This will require reversal of any input tax credit taken earlier. Stolen may or may not be covered by suitable insurance. As such, ‘insurable interest’ in case of goods (inventory or assets) on which GST credit is claimed ought not to be at the carried value in the book as per AS2/AS10 or IndAS2/IndAS16 but value as per “balance sheet PLUS GST credit availed”.
- (c) **Destroyed** – Any goods which get destructed due to any natural calamity like flood, earthquake or a manmade event like fire, water leakage etc. However, if the goods reach to a certain level of destruction that it cannot be possibly reversed, then this clause gets attracted. Destroyed is not an expression that is used to refer to normal wear and tear or normal ageing deterioration. Destroyed leans towards a ‘sudden occurrence’, whether it could have been avoided or not, the outcome is relevant and not the reason for this occurrence. It’s not an accounting treatment but a fact to be observed or verified.
- (d) **Written off** – If any goods are having a certain value as per the books of accounts but are completely written off due to any reason, this clause will get attracted. This can include goods getting written off due to obsolescence or lapse of time. But ‘write-off’ must be differentiated from (a) ‘write-down’, which is a temporary and sometimes reversible accounting treatment in order to more accurately reported the carried value of Property, Plant and Equipment under AS28 or IndAS36 and (b) ‘charge-off’ by claiming 100% depreciation in respect of assets costing below a certain value per unit. Both these instances are NOT covered by this clause (h). However, due to poor understanding of the differences in each of these words, there may be some misapplication of the provision. Once time to claim credit in section 16(4) has passed, then the reversal will be irreversible even if done under misinformation.
- (e) **Disposed-off by way of gift or free samples**– Any goods which are disposed through these two mechanisms will be covered here. Key words to note are
 - (a) ‘disposed’ which is a word that appears in 3 key places in GST law (all other places it is used are in the context of ‘disposal of an application or appeal’, it is used 11 times in CGST Act). And they are (i) section 7(1)(a), (ii) para 1, schedule I and (c) this clause (h). The expression ‘disposed’ not used as a synonym of ‘sale’. Disposed is akin to discard or get-rid-off or clear away and implies articles that are ‘unfit for sale’. Whereas, the expression ‘sale’ always implies an assurance of merchantability even if it is offered at a deep discount due to change in trends or end of season, etc. Also, articles are ‘unfit for sale’ not only when their quality is unsuited (as per law, if any, and as per trade understanding) but also in the presentation in quality or quantity is such that is not suited for effective use. For eg. tester perfume in 5 ml bottles, shampoo in 10 ml sachets, etc., indicate lack of fitness for sale although the products may be of standard quality but are presented in non-standard quantity that they are ‘unfit for use’ as they are intended.

- (b) 'By way of' is an expression that refers to 'the way of doing something'. It is not used for 'such as' or 'namely'. Hence, 'disposed off by way of' means 'gift or free sample' are the 'ways' in which goods that are 'unfit' are given away. Given that 'disposed' is one of the forms of 'supply', a lot of care must be taken not to reverse credit when in fact, output tax should have been on the outward supply. Any error in this understanding could result in losing the reversed credit (after time lapse) and output tax still being demanded.

Now, 'gift' and 'free sample' may be understood not in isolation but in the context of 'disposal' and these being the 'ways' in which such disposal is taking place. This understanding clears any confusion about gift and free sample of articles of 'merchantable quality'. Gift is a form of transfer if it is irrevocable and hence it is supply. Free sample indicates delivery of goods for use or consumption on non-contractual basis. Articles put-up for distribution are 'unfit for sale'. Not that these articles are sub-standard or even harmful, but they are not in commercial quantity or presentation. For example, perfumes are presented in tester bottles which are very small pinch sized only to enthruse customers to 'use without buying' or shampoo presented in sachets and inserted inside magazines which are of insufficient quantity to satisfy actual bathing use but sufficient for customer to 'use without buying'. Articles 'lacking merchantability' is any aspect of merchantability that is absent and quality is only one aspect and others are quantity. It is such articles 'lacking merchantability' when they are given away that is amounts to "*disposal 'by way of' gift or free sample*". Care must be taken not to gloss over the words "by way of" which greatly affects our conclusions.

But where the articles are 'fit for sale' and delivered (even without consideration) will be deemed supply under para 1 of schedule I. Refer detailed discussion of this deemed supply under schedule I.

And where credit is availed on goods that are 'disposed of', then para 1 of schedule I is attracted due to the words "*....disposal of business assets where input tax credit has been availed on such assets*". Once credit is reversed on account of the fact that the said goods are 'disposed off' then, there cannot be a second demand for tax by deeming fiction flowing from schedule I when the said goods are taken out on account of disposal.

Some examples of goods 'not meant for supply' are as follows:

- Prescription drug samples marked 'Physician's sample not to be sold'
- As per the Legal Metrology (Packaged Commodity) Rules, 2011 sale of packaged commodities by a manufacturer, importer or wholesale dealer to an Industrial consumer shall have the declaration 'Not for retail sale'.

Some experts argue that nothing done in business is free and therefore credit reversal would NOT always be sufficient compliance as even this activity is in course and furtherance of

business. This matter may also be tested in time to come. Reference may be had to discussion on various examples in the context of valuation under section 15 of 'free supplies' which may actually be for consideration that is in non-monetary form.

Implications under GST in case of Expired Medicines –

In case of Pharmaceutical Industry, the medicines carry expired date and it is the duty of the manufacturer to destroy the unsold medicines on the date of expiry. Accordingly, the manufacturer collects such unsold expired medicines from various levels in the supply chain and destroys the expired medicine based on the provisions of the Drugs and Cosmetics Act, 1940. It would be relevant to note that the manufacturer compensates the supply chain for loss due to expired medicine. Circular 72/2018 has been issued to highlight the implications under GST on such expired medicine. These implications have been discussed below by way of an example

Assumption

- Medicine purchased / imported at Rs 100 and GST paid Rs 5
- Medicine sold to Distributor at Rs 1000 and GST charged Rs 100

Scenario	Clarification Issued – Options	Implications
Original Sale 2017-18 (till March 31, 2018) Expired Stock Returned By September 30, 2018	Option 1 1. Seller to issue credit note to Distributor for Rs 1000 + 100 2. Distributor to reverse credit of Rs 100 3. Seller to reverse credit of Rs 5 (GST paid on procurement)	Seller to receive expired stock under credit note route (option 1) and thereby restrict credit reversal to the tax paid on procurement
	Option 2 1. Distributor to issue Invoice for Rs 1000 + 100 2. Seller to avail credit of the same On destruction of goods, Seller to reverse credit of Rs 100 (GST paid on return supply)	
Original Sale 2017-18 (till March 31, 2018) Expired Stock Returned	Option 1 1. Seller to issue credit note to Distributor for Rs 1000 + Rs 0 2. Credit availed by distributor may be affected due to non-payment of consideration for the inward supply and return of stocks.	Option 1 leads to reversal of credit of Rs 105 whereas Option 2 leads to reversal of credit of Rs 100. Effectively, the Seller (importer) is required to reverse credit on

after September 30, 2018	<p>However, distributor would claim compensation of Rs 100 credit lost by him which may be a separate taxable supply of 'tolerating and act' (of breach by Seller).</p> <p>3. Seller to reverse credit of Rs 5 (GST paid on procurement)</p> <p>Option 2</p> <ol style="list-style-type: none"> 1. Distributor to issue Invoice for Rs 1000 + 100 2. Seller to avail credit of the same 3. On destruction of goods, Seller to reverse credit of Rs 100 (GST paid on sales) 	<p>the selling price which can be substantial amount.</p> <p>This needs to be examined specifically in terms of Section 18 of Drugs and Cosmetics Act, 1940 which prohibits sale of Expired Stock</p>
--------------------------	---	---

It is a wonder how 'expired medicines' can at all enjoy same HSN and 'medicines'. Surely, something has occurred that brings about this categorization as 'expired'. And when HSN cannot remain the same, inquiry is required into what is the 'object of supply'. Question to inquire is whether they are some other goods or when it is not goods of any kind, whether this repayment of original billed value is therefore a service (in GST terms). It all depends on the contractual arrangement between the parties to see 'who bears the financial risk of expiry of drugs'. And this issue is common in all other sectors and there cannot be a 'one-fits-all' rule but in sectors like pharma or food products, there is some limits to contractual liberty that is set by the governing law.

Circular 105/24/2019-GST dated 28 Jun 2019 had expressed certain views from Indian Contract Act that was not well received by trade, not so much of the principles brought out, but the delay in issuing such a circular as nearly two-years of business practices had gone in one way. Nothing new was said in this circular because it stated only certain 'application points' from Contract law. And this circular was decided to be withdrawn by GST Council in its 37th meeting and very interestingly *ab initio*. Generally, when circulars were withdrawn under the Central Excise law, the withdrawal would be 'with reasons' such as, Court ruling to the contrary or change of law or change of thinking by CBEC (as it then was called). By withdrawing *in silentio*, more room seems to be left for the 'application points' brought out in this (now non-existent) circular to be tested out in Courts. Experts advise great caution while writing up 'returns policy' in GST regime to consider the risks involved in ignoring these application points.

(i) Any taxes paid in accordance with the provisions of Sections 74, 129 and 130

Section 74 talks about payment of taxes in a situation where taxes is not paid or short paid or

erroneously refunded or input tax credit wrongly availed or utilized by reason of “**fraud or willful misstatement or suppression of facts**”. If the supplier is making payment of taxes under forward charge due to the aforesaid reasons, no input tax credit will be available to the recipient. In case of reverse charge, if the recipient is making payment of taxes under this section, even the recipient will not be allowed to avail input tax credit.

Section 129 talks about detention, seizure and release of goods and conveyance in transit. Further, Section 130 mentions about confiscation of goods and/or conveyance and levy of penalty. In both the cases if any payment is made by any person under these sections, no input tax credit in respect of these will be available.

Through this point, input tax credit is proposed to be blocked wherever *mens rea* is proven/accepted. In such cases, since taxes had not been paid earlier due to any fraudulent intent, no input tax credit is allowed by the law. But the question that comes up, say, in case of RCM demanded under section 74, whether the registered person should claim the tax paid or not, because the question of ‘fraud, etc.’ will be decided by tribunal/court and the time-limit under section 16(4) will encourage registered person to claim credit on payment. Consider a registered person who forfeits credit on the basis of the SCN being under section 74 and later it turns out the tribunal/court confirmed demand but sets aside extended period. In other words, as per section 75(2), if ‘fraud, etc.’ alleged in a notice issued under 74 is not established then the same notice ‘will be deemed’ to be notice under section 73. In this case, credit was eligible by the registered person was misguided by the fact that SCN was issued under 74. Great care and attention must be paid even to admit and pay tax demanded due to the direct and indirect implications under this clause (i).

17.3 Comparative Review

Aspect	Credit under old regime	Input tax credit under GST regime
Proportionate credit	No explicit distinction made between goods or services used for business and non-business	Specific distinction made between goods or services used for business and non-business
Works contract credit	Restriction to inputs only	Credit allowed when used for further supply of works contract
Credit on inputs used for construction of immovable property	Input or Input Service used for civil construction not eligible.	Restriction to both inputs and input services.
Credit related to works contract and construction w.r.t plant and machinery	Plant and machinery not excluded from restriction of credit	Plant and machinery is excluded from restriction of credit unless depreciation has been claimed on the tax component.

17.4 FAQs

Q1. Where goods or services or both received, is used for both taxable and non-taxable supplies, what would be the input tax credit entitlement for the registered person?

Ans. The input tax credit of goods or service or both used in respect of taxable supplies can only be availed by the registered person

Q2. Whether the taxable supply would include supplies on which tax is payable by recipient on reverse charge basis?

Ans. No.

17.5 MCQs

Q1. Which of the following is included for computation of taxable supplies for the purpose of availing credit?

- (a) Zero-rated supplies
- (b) Exempt supplies
- (c) Both
- (d) None of the above

Ans. (a) Zero Rated supplies

Statutory Provisions**18. Availability of credit in special circumstances**

(1) *Subject to such conditions and restrictions as may be prescribed-*

- (a) *a person who has applied for registration under the Act within thirty days from the date on which he becomes liable to registration and has been granted such registration shall, be entitled to take credit of input tax in respect of inputs held in stock and inputs contained in semi-finished or finished goods held in stock on the day immediately preceding the date from which he becomes liable to pay tax under the provisions of this Act;*
- (b) *a person, who takes registration under sub-section (3) of section 25 shall, be entitled to take credit of input tax in respect of inputs held in stock and inputs contained in semi-finished or finished goods held in stock on the day immediately preceding the date of grant of registration;*
- (c) *where any registered person ceases to pay tax under section 10, he shall be entitled to take credit of input tax in respect of inputs held in stock, inputs contained in semi-finished or finished goods held in stock and on capital goods on the day immediately preceding the date from which he becomes liable to pay tax under section 9:*

Provided that the credit on capital goods shall be reduced by such percentage points as may be prescribed;

- (d) *where an exempt supply of goods or services or both by a registered person becomes a taxable supply, such person shall be entitled to take credit of input tax in respect of inputs held in stock and inputs contained in semi-finished or finished goods held in stock relatable to such exempt supply and on capital goods exclusively used for such exempt supply on the day immediately preceding the date from which such supply becomes taxable:*

Provided that the credit on capital goods shall be reduced by such percentage points as may be prescribed.

- (2) *A registered person shall not be entitled to take input tax credit under sub-section (1), in respect of any supply of goods or services or both to him after the expiry of one year from the date of issue of tax invoice relating to such supply.*
- (3) *Where there is a change in the constitution of a registered person on account of sale, merger, demerger, amalgamation, lease or transfer of the business with the specific provision for transfer of liabilities, the said registered person shall be allowed to transfer the input tax credit which remains unutilized in his electronic credit ledger to such sold, merged, demerged, amalgamated, leased or transferred business in such manner as may be prescribed.*
- (4) *Where any registered person who has availed of input tax credit opts to pay tax under section 10 or, where the goods or services or both supplied by him become wholly exempt, he shall pay an amount, by way of debit in the electronic credit ledger or electronic cash ledger, equivalent to the credit of input tax in respect of inputs held in stock and inputs contained in semi-finished or finished goods held in stock and on capital goods, reduced by such percentage points as may be prescribed, on the day immediately preceding the date of exercising such option or, as the case may be, the date of such exemption:*
- (5) *The amount of credit under sub-section (1) and the amount payable under sub-section (4) shall be calculated in such manner as may be prescribed.*
- (6) *In case of supply of capital goods or plant and machinery, on which input tax credit has been taken, the registered person shall pay an amount equal to the input tax credit taken on the said capital goods or plant and machinery reduced by such percentage points as may be prescribed or the tax on the transaction value of such capital goods or plant and machinery determined under section 15, whichever is higher:*

Provided that where refractory bricks, moulds and dies, jigs and fixtures are supplied as scrap, the taxable person may pay tax on the transaction value of such goods determined under section 15.

Extract of the CGST Rules, 2017

40. Manner of claiming credit in special circumstances.

(1) *The input tax credit claimed in accordance with the provisions of sub-section (1) of section 18 on the inputs held in stock or inputs contained in semi-finished or finished goods held in stock, or the credit claimed on capital goods in accordance with the provisions of clauses (c) and (d) of the said sub-section, shall be subject to the following conditions, namely, -*

- a) *the input tax credit on capital goods, in terms of clauses (c) and (d) of sub-section (1) of section 18, shall be claimed after reducing the tax paid on such capital goods by five percentage points per quarter of a year or part thereof from the date of the invoice or such other documents on which the capital goods were received by the taxable person.*
- b) ⁴³*[the registered person shall within a period of thirty days from the date of becoming eligible to avail the input tax credit under sub-section (1) of section 18, or within such further period as may be extended by the Commissioner by a notification in this behalf, shall make a declaration, electronically, on the common portal in FORM **GST ITC-01** to the effect that he is eligible to avail the input tax credit as aforesaid:*

Provided that any extension of the time limit notified by the Commissioner of State tax or the Commissioner of Union territory tax shall be deemed to be notified by the Commissioner].

- c) *the declaration under clause (b) shall clearly specify the details relating to the inputs held in stock or inputs contained in semi-finished or finished goods held in stock, or as the case may be, capital goods—*
 - i. *on the day immediately preceding the date from which he becomes liable to pay tax under the provisions of the Act, in the case of a claim under clause (a) of sub-section (1) of section 18;*
 - ii. *on the day immediately preceding the date of the grant of registration, in the case of a claim under clause (b) of sub-section (1) of section 18;*
 - iii. *on the day immediately preceding the date from which he becomes liable to pay tax under section 9, in the case of a claim under clause (c) of sub-section (1) of section 18;*
 - iv. *on the day immediately preceding the date from which the supplies made by the registered person becomes taxable, in the case of a claim under clause (d) of sub-section (1) of section 18;*

⁴³ Substituted vide Notf no. 22/2017 – CT dt. 01.07.2017

- d) *the details furnished in the declaration under clause (b) shall be duly certified by a practicing chartered accountant or a cost accountant if the aggregate value of the claim because central tax, State tax, Union territory tax and integrated tax exceeds two lakh rupees;*
- e) *the input tax credit claimed in accordance with the provisions of clauses (c) and (d) of sub-section (1) of section 18 shall be verified with the corresponding details furnished by the corresponding supplier in FORM GSTR-1 or in FORM GSTR- 4, on the common portal.*
- (2) *The amount of credit in the case of supply of capital goods or plant and machinery, for the purposes of sub-section (6) of section 18, shall be calculated by reducing the input tax on the said goods at the rate of five percentage points for every quarter or part thereof from the date of the issue of the invoice for such goods.*

41. Transfer of credit on sale, merger, amalgamation, lease or transfer of a business

- (1) *A registered person shall, in the event of sale, merger, de-merger, amalgamation, lease or transfer or change in the ownership of business for any reason, furnish the details of sale, merger, de-merger, amalgamation, lease or transfer of business, in FORM GST ITC-02, electronically on the common portal along with a request for transfer of unutilized input tax credit lying in his electronic credit ledger to the transferee:*
Provided that in the case of demerger, the input tax credit shall be apportioned in the ratio of the value of assets of the new units as specified in the demerger scheme.
⁴⁴[Explanation: - For the purpose of this sub-rule, it is hereby clarified that the "value of assets" means the value of the entire assets of the business, whether or not input tax credit has been availed thereon.]
- (2) *The transferor shall also submit a copy of a certificate issued by a practicing chartered accountant or cost accountant certifying that the sale, merger, de-merger, amalgamation, lease or transfer of business has been done with a specific provision for the transfer of liabilities.*
- (3) *The transferee shall, on the common portal, accept the details so furnished by the transferor and, upon such acceptance, the un-utilized credit specified in FORM GST ITC02 shall be credited to his electronic credit ledger.*
- (4) *The inputs and capital goods so transferred shall be duly accounted for by the transferee in his books of account.*

⁴⁵[41A. Transfer of credit on obtaining separate registration for multiple places of business within a State or Union territory

- 1) A registered person who has obtained separate registration for multiple places of business in accordance with the provisions of rule 11 and who intends to transfer, either wholly or partly, the unutilised input tax credit lying in his electronic credit ledger to any or all of the newly registered place of business, shall furnish within a period of thirty days from obtaining such separate registrations, the details in FORM GST ITC-02A electronically on the common portal, either directly or through a Facilitation Centre notified in this behalf by the Commissioner:

Provided that the input tax credit shall be transferred to the newly registered entities in the ratio of the value of assets held by them at the time of registration.

Explanation. - For the purposes of this sub-rule, it is hereby clarified that the 'value of assets' means the value of the entire assets of the business whether or not input tax credit has been availed thereon.

- 2) The newly registered person (transferee) shall, on the common portal, accept the details so furnished by the registered person (transferor) and, upon such acceptance, the unutilised input tax credit specified in FORM GST ITC-02A shall be credited to his electronic credit ledger].

44. Manner of reversal of credit under special circumstances

- 1) The amount of input tax credit relating to inputs held in stock, inputs contained in semi-finished and finished goods held in stock, and capital goods held in stock shall, for the purposes of sub-section (4) of section 18 or sub-section (5) of section 29, be determined in the following manner, namely, -

- a) for inputs held in stock and inputs contained in semi-finished and finished goods held in stock, the input tax credit shall be calculated proportionately on the basis of the corresponding invoices on which credit had been availed by the registered taxable person on such inputs;
- b) for capital goods held in stock, the input tax credit involved in the remaining useful life in months shall be computed on pro-rata basis, taking the useful life as five years.

Illustration:

Capital goods have been in use for 4 years, 6 month and 15 days.

The useful remaining life in months= 5 months ignoring a part of the month

Input tax credit taken on such capital goods= C

⁴⁵ Inserted vide Notf no. 03/2019-CT dt. 29.01.2019 wef 01.02.2019

Input tax credit attributable to remaining useful life= C multiplied by 5/60

- 2) *The amount, as specified in sub-rule (1) shall be determined separately for input tax credit of central tax, State tax, Union territory tax and integrated tax.*
- 3) *Where the tax invoices related to the inputs held in stock are not available, the registered person shall estimate the amount under sub-rule (1) based on the prevailing market price of the goods on the effective date of the occurrence of any of the events specified in subsection (4) of section 18 or, as the case may be, sub-section (5) of section 29.*
- 4) *The amount determined under sub-rule (1) shall form part of the output tax liability of the registered person and the details of the amount shall be furnished in FORM GST ITC-03, where such amount relates to any event specified in sub-section (4) of section 18 and in FORM GSTR-10, where such amount relates to the cancellation of registration.*
- 5) *The details furnished in accordance with sub-rule (3) shall be duly certified by a practicing chartered accountant or cost accountant.*
- 6) *The amount of input tax credit for the purposes of sub-section (6) of section 18 relating to capital goods shall be determined in the same manner as specified in clause (b) of sub-rule (1) and the amount shall be determined separately for input tax credit of central tax, State tax, Union territory tax and integrated tax:*

Provided that where the amount so determined is more than the tax determined on the transaction value of the capital goods, the amount determined shall form part of the output tax liability and the same shall be furnished in FORM GSTR-1.

⁴⁶**[44A. Manner of reversal of credit of Additional duty of Customs in respect of Gold dore bar.**

The credit of Central tax in the electronic credit ledger taken in terms of the provisions of section 140 relating to the CENVAT Credit carried forward which had accrued on account of payment of the additional duty of customs levied under sub-section (1) of section 3 of the Customs Tariff Act, 1975 (51 of 1975), paid at the time of importation of gold dore bar, on the stock of gold dore bar held on the 1st day of July, 2017 or contained in gold or gold jewellery held in stock on the 1st day of July, 2017 made out of such imported gold dore bar, shall be restricted to one-sixth of such credit and five-sixth of such credit shall be debited from the electronic credit ledger at the time of supply of such gold dore bar or the gold or the gold jewellery made therefrom and where such supply has already been made, such debit shall be within one week from the date of commencement of these Rules].

Related Provisions of the Statute

Section or Rule	Description
Section 2(19)	Definition of 'Capital Goods'
Section 2(59)	Definition of 'Inputs'
Section 2(60)	Definition of 'Input Services'
Section 25	Procedure for registration
Section 9	Levy and collection
Section 10	Composition levy
Rule 44	Manner of reversal of credit under special circumstances

18.1 Introduction

Input tax credit is normally available to a registered person who engages in taxable outward supplies and such person not being a composition person. However, in certain cases, credit would be available on inputs held in stock, inputs contained in semi-finished and finished goods and on capital goods even though the supplier was unregistered or engaged in exempt supplies or was under the composition scheme on the date of procurement of such goods or services. Conversely, instances where input tax credit legitimately availed needs to be reversed has also been dealt with under this Section.

18.2 Analysis

Eligibility of input tax credit on inputs held in stock and contained in semi-finished and finished goods held in stock: The credit on inputs held in stock and inputs contained in semi-finished goods and finished goods held in stock is available in the following manner:

Supplier	Inputs	Input Services	Capital Goods	Stock to be considered as on
Liable for registration (crosses the prescribed threshold limit) – Applies for registration within 30 days of becoming liable for registration and obtains registration	Available	Not Available	Not Available	Day immediately preceding the date from which he becomes liable to pay tax
Voluntary Registration	Available	Not Available	Not Available	Day immediately preceding the date of grant of registration
Composition Scheme to Regular Scheme	Available	Not Available	Available	Day immediately preceding the

				date from which supplier is liable to pay tax under regular scheme
Exempt Supplies become Taxable	Available	Not Available	Available*	Day immediately preceding the date from which exempt supplies become taxable

* Only for capital goods previously used exclusively in making exempt supplies.

Credit on inputs includes inputs and inputs contained in semi-finished and finished goods. Credit on input services is not available under any circumstance.

- Declaration in Form GST ITC-01 must be filed within thirty days from the date of becoming eligible to input tax credit. Rule 40 of Central Goods and Service Tax Rules, 2017 requires a declaration to be filed containing details of stocks and capital goods along with a certificate from a practicing Chartered Accountant or Cost Accountant where the aggregate credit of CGST, SGST/UTGST and IGST so claimed exceeds ₹ 2 lakhs.
- The supplier would not be entitled to credit of goods or services or both after expiry of 1 year from date of issue of tax invoice (this restriction applies even to capital goods though this may not have been the intention).
- The credit on capital goods shall be reduced by five percentage per quarter or part thereof from the date of invoice.
- Credits are subject to verification of details furnished by the supplier in GSTR-1 or GSTR-4 on the common portal only in case of conversion from composition to regular scheme or when exempt supplies become taxable supplies. Verification is not possible for new registration cases as the supplier was unregistered at the time of procurement.

Examples:

- (i) A person becomes liable to pay tax on 1st August 2019 and has obtained registration on 15th August 2019. Such person is eligible for input tax credit on inputs held in stock as on 31st July 2019.
- (ii) Mr. A applies for voluntary registration on 5th June 2019 and obtained registration on 22th June 2019. Mr. A is eligible for input tax credit on inputs in stock as on 21st June 2019.
- (iii) Mr. B, registered person was paying tax under composition rate upto 30th July 2019. However, w.e.f 31st July 2019, Mr. B becomes liable to pay tax under regular scheme. Mr. B is eligible for input tax credit on inputs held in stock as on closure of business hours on 30th July 2019.

Illustration (Rule 40): Manner of claiming credit in special circumstances

Akshay Steels Limited is a manufacturer of iron & steel. It procures raw materials and inputs such as iron ore, chemicals, gases, etc. and capital goods including plant & machinery, for the manufacture of such iron & steel. In this example, it has been assumed that iron & steel (which is the outward supply of Akshay Steels Ltd) is exempt from payment of taxes until 31-Mar-2020. Iron & steel become taxable with effect from 01-Apr-2020. The method of taking of input tax credits on inputs contained in stock and capital goods as on 31-Mar-2020 is covered by this illustration

Particulars	Amount (₹)
Value of inputs in stock on 31-Mar-2020	1,00,000
IGST @18%	18,000
All inputs were procured after 01-Jul-2019	
Value of inputs contained in semi-finished goods held in stock on 31-Mar-2020	4,00,000
CGST @ 6%	24,000
SGST @ 6%	24,000
All inputs contained in semi-finished goods were procured after 01-May-2019	
Value of inputs contained in finished goods held in stock on 31-Mar-2020	50,000
CGST @ 6%	3,000
SGST @ 6%	3,000
Only inputs worth ₹ 40,000 in finished goods were procured after 01-Apr-2019	
Capital Goods procured vide invoice dated 22.01.2020	20,00,000
IGST Paid @ 18%	3,60,000
Credit available in respect of inputs:	
CGST (Note 1)	26,400
SGST (Note 2)	26,400
IGST (Note 3)	18,000
Total credit available on inputs	70,800
Value of capital goods used exclusively in relation to exempted goods held on 31-Mar-2020	20,00,000
IGST @ 18%	3,60,000
Credit available in respect of capital goods:	
Date of invoice of capital goods	22-Jan-2020

Date from which the exempt goods become taxable	01-Apr-2020
No. of quarters from date of invoice	1
Percentage points to be reduced (5% per quarter) (Note 4)	5%
IGST paid on the capital goods used exclusively in relation to goods exempted up to 31-Mar-2020	3,60,000
ITC to be reduced by 5%	(18,000)
Credit (IGST) available on capital goods	3,42,000

Working notes:

Note 1: CGST credits on inputs in stock held on 31-Mar-2020:

a	ITC on the value of inputs		
b	ITC on the value of inputs contained in semi-finished goods: All inputs were acquired within 1 year prior to the effective date on which the goods become taxable. Hence, entire ITC would be allowed.	24,000	
c	ITC on the value of inputs contained in finished goods: Out of the total stock of ₹ 50,000/-, inputs totalling to ₹ 10,000/- are older than 1 year from the effective date on which the goods become taxable. Therefore, ITC to this extent stands disallowed. ITC on inputs contained in stock of ₹ 40,000 would be eligible. [Eligible credit = 40,000 * 6%]	2,400	
	CGST credit available on inputs		26,400

Note 2: SGST credits on inputs in stock held on 31-Mar-2020:

a	ITC on the value of inputs		
b	ITC on the value of inputs contained in semi-finished goods: <i>Refer Note 1</i>	24,000	
c	ITC on the value of inputs contained in finished goods: <i>Refer Note 1</i>	2,400	
	SGST credit available on inputs		26,400

Note 3: IGST credits on inputs on stock held on 31-Mar-2020:

a	ITC on the value of inputs: All inputs were acquired within 1 year prior to the effective date on which the goods become taxable. Hence, entire ITC would be allowed.	18,000	
b	Input tax credit on the value of inputs contained in semi-finished goods	-	
c	Input tax credit on the value of inputs contained in finished goods	-	
	IGST credit available on inputs		18,000

Note 4: Rule 40(1)(a) of the Central Goods and Service Tax Rules, 2017 provides that input tax credit on capital goods can be claimed after reducing 5% per quarter of a year or part thereof, from the date of invoice in respect of which capital goods are received. Therefore, the number of quarters is 1, being the first quarter of the year 2020. The reversal of credit would therefore be, to the extent of ₹ 18000 (5% of ₹ 3,60,000).

Rule 44 mandates credit reversal when a registered person switches from regular scheme to composition scheme or goods and services supplied by him become wholly exempt:

- Pay an amount by debiting electronic cash ledger / credit ledger, equivalent to input tax credit of -
 - Inputs held in stock
 - Inputs contained in semi-finished or finished goods held in stock and
 - Capital goods
- On the day immediately preceding the date of such switch over.
- Balance of input tax credit lying in the electronic credit ledger, after payment of the above said amount, shall lapse.
- Such amount is calculated in manner to be prescribed

Pay and Exit Scheme:

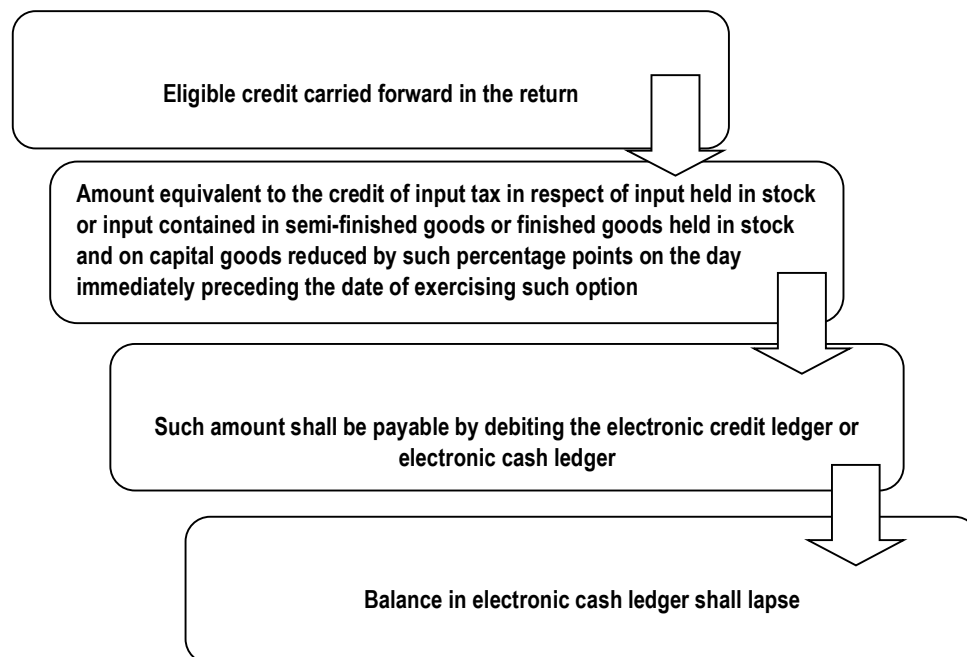

Illustration 1: Where input tax credit lapses

Sl. No	Particulars	Reference	Amount
1	Value of capital goods		1,00,000
	IGST @ 12%	A	12,000
	Invoice Value		1,12,000
2	Date of shift to composition scheme		01 April 2019 (Can be opted in Financial year beginning)
3	Date of inward supply and use of capital goods		01 September 2017
4	Period of use (days)		577
	Period of use (months)		19
5	Residual life in months	B	41
	(Considering full life as 5 years)		
6	ITC attributable to residual life	$C = (A*B/60)$	8,200
	(To be added to the output tax liability of the registered person)		
5	Balance of ITC as on 31.03.2019		10,000

6	ITC attributable to residual life	$C = (A*B/60)$	0
	(No payment required)		

Input tax credit and change in constitution of registered person: The change in constitution of registered person due to sale, merger, demerger, amalgamation, lease or transfer or change in the ownership of business including transfer of liabilities provides for the following:

- (i) The registered person is allowed to transfer the input tax credit remaining unutilized in the electronic credit ledger to such sold, merged, demerged, amalgamated, leased or transferred business.
- (ii) Rule 41 prescribes such credit transfer be made on the Common Portal in FORM GST ITC-02 and in case of demerger, credit to be transferred must be apportioned to the value of assets transferred in the arrangement to each such unit. Value of the assets has been explained in the said rule to mean the value of the entire assets of the business whether or not input tax credit has been availed on them.
- (iii) A practicing Chartered Accountant or Cost Accountant to certify that the arrangement contains a specific provision for the transfer of liabilities.
- (iv) Details furnished in Form GST ITC-02 by the transferor would have to be accepted by the transferee on the Common Portal. Please refer to discussion on Registrations in case of such arrangements to examine the timing of seeking registration by transferee.
- (v) Transferee to duly account for the stocks & capital goods received in books of accounts.

The analysis of above provision in a pictorial form is summarised as follows:

ITC: Change in Constitution of registered Person

Transfer of credit on obtaining separate registration for multiple places of business within a State: If a person wishes to obtain separate registration for multiple places of business in a state, the law provides the mechanism for transfer of unutilized input tax credit lying in the electronic credit ledger to these new registrations. For this purpose, the registered unit needs to submit Form GST ITC-02A on the common portal. Such Form ITC-02A is to be accepted by the newly registered person on the common portal. Upon such acceptance, the input tax credit is transferred to these newly registered persons.

As regards the proportion of the input tax credit to be transferred, it has been provided that the transfer of input tax credit is to be divided in the ratio of the value of assets held by these persons at the time of transfer. Such value of assets is to be taken as the value of the entire assets of the business whether or not input tax credit has been availed on them.

Supply of capital goods on which input tax credit is taken: The registered person shall pay an amount equal to the higher of:

- o Input tax credit taken on such capital goods as reduced by such prescribed percentage points or
- o the tax on the transaction value of such capital goods,

One striking difference becomes evident in Rule 40 in the manner of computation of ITC in respect of used capital goods under sub rule (1a) and sub rule (2). While sub rule (1a) deals with input tax credit on capital goods after reducing “five percentage points **per quarter of a year** or part thereof”, sub rule (2) specifies computation of input tax credit by reducing “five percentage points **for every quarter or part thereof** from the date of the issue of the invoice”.

From the above we may come to the following conclusion:

- For the purpose of sub-rule (1a), quarter shall mean a ‘calendar quarter’
- For the purpose of sub-rule (2), the quarter shall be computed from the date on the invoice.
- For example: capital goods purchased on 25th March, 2018 would be reduced by 5 percentage points for the quarter ending March 2018 for the purpose of sub-rule (1a) while the same assets would be reduced by 5 percentage points for the period ranging between 25.03.2018 to 24.06.2018 and so on.

Supply of Capital goods on which ITC already taken

Please note that there is no saving clause in the event the taxable person entertained a *bona fide* view as to the non-taxability of certain supplies or availability of an exemption which is later overturned by a superior Court and the demand crystallizes. In this scenario, limitation of taking of input tax credit lands a double blow to this taxable person. That is, not only would GST have been paid on inputs, input services and capital goods on which no credit would have been availed (due to this *bona fide* view having been entertained) but also, the full extent of the output tax becomes payable (without any relief towards credit that would otherwise have been available) due to the decision of the superior Court. One needs to exercise caution while entertaining a view about non-taxability or exemption. At the same time, it is not permitted to take a hyper-conservative view – where even with the availability of a clear and absolute exemption, the taxable person chooses to pay GST in order to protect credit from the

limitation. This option cannot be taken in view of the mandatory nature of such exemptions as clearly stated in explanation to section 11. It could lead to denial of credits as the supply was not taxable!

The difference between 'taxable person' and 'registered person' is important – they are two deliberately dissimilar phrases used in the law – and credit is allowed u/s 16(1) only to a 'registered person' where as u/s 9(1) tax levied is payable by every 'taxable person' implying that the liability subsists even if not registered but credit is available only if registered.

Refractory bricks, moulds and dies, jigs and fixtures are supplied as scrap: Taxable person may pay tax on transaction value under section 15.

18.3 Issues and Concerns

It is important to note that unlike Rule 42 which mandates determination of the actual amount of reversal on the completion of the financial year, Rule 43 does not prescribe any re-computation at the end of the financial year. This could be presumed to be due to the fact that reversal of input tax credits under Rule 43 is based on number of tax periods unlike that of Rule 42. But considering the fact that reversal of common credits under Rule 43 is also based on the proportion of turnover of exempt supplies to the total turnover in the State for that tax period, due consideration should be given to the fact that any shortage of ITC on account of any reason cannot be subsequently availed under Rule 43. On the other hand, any excess credit availed would promptly be subject to scrutiny by the proper officer.

Applicability of section 18(6) is also a concern due to the practice of adopting 'useful life' of assets (being capital goods under GST) less than 60 months. In such cases, experts are of the view that where full depreciation is claimed within, say, 36 months, it may be treated that the said capital goods have been 'written-off' (by the end of 36 months) so as to attract reversal of credit relating to balance of 24 months (60 minus 36 months) in terms of section 17(5)(h). Whether this view is far-fetched or not, it is advisable to (a) depreciate 95% of the cost and carry 5% as long as the said capital goods remain in use or (b) report every year after 36th month that the said capital goods although fully depreciated are 'still in the use and possession' of registered person. These steps could overcome the concerns expressed.

18.4 Comparative review

Aspect	Credit under old regime	Input tax credit under GST regime
Credit on stock-in-hand	Rule 3(2) of CCR Rules, 2004	Specified persons in specified situations are eligible for input tax credit on stock
Credit on sale merger or transfer of business	Rule 10 of CCR Rules, 2004	Specific section covering the sale, merger etc
Reversal on goods becoming exempt	Rule 11(3) of CCR, 2004	To be reversed as per section 18(4)

Statutory Provisions**19. Taking input tax credit in respect of inputs and capital goods sent for job work**

- (1) *The principal shall, subject to such conditions and restrictions as may be prescribed, be allowed input tax credit on inputs sent to a job worker for job work.*
- (2) *Notwithstanding anything contained in clause (b) of sub-section (2) of section 16, the "principal" shall be entitled to take credit of input tax on inputs even if the inputs are directly sent to a job worker for job-work without being first brought to his place of business.*
- (3) *Where the inputs sent for job-work are not received back by the "principal" after completion of job-work or otherwise or are not supplied from the place of business of the job worker in accordance with clause (a) or clause (b) of sub-section (1) of section 143 within one year of being sent out, it shall be deemed that such inputs had been supplied by the principal to the job worker on the day when the said inputs were sent out:*

Provided that where the inputs are sent directly to a job worker, the period of one year shall be counted from the date of receipt of inputs by the job worker.

- (4) *The principal shall, subject to such conditions and restrictions as may be prescribed, be allowed input tax credit on capital goods sent to a job-worker for job-work.*
 - (5) *Notwithstanding anything contained in clause (b) of sub-section (2) of section 16, the "principal" shall be entitled to take credit of input tax on capital goods even if the capital goods are directly sent to a job worker for job-work without being first brought to his place of business.*
 - (6) *Where the capital goods sent for job-work are not received back by the "principal" within a period of three years of being sent out, it shall be deemed that such capital goods had been supplied by the principal to the job worker on the day when the said capital goods were sent out:*
- Provided that where the capital goods are sent directly to a job worker, the period of three years shall be counted from the date of receipt of capital goods by the job worker.*
- (7) *Nothing contained in sub-section (3) or sub-section (6) shall apply to moulds and dies, jigs and fixtures, or tools sent out to a job-worker for job-work.*

Explanation.—For the purpose of this section, "principal" means the person referred to in section 143

Extract of the CGST Rules, 2017**45. Conditions and restrictions in respect of inputs and capital goods sent to the job worker.**

- (1) *The inputs, semi-finished goods or capital goods shall be sent to the job worker under the cover of a challan issued by the principal, including where such goods are sent*

directly to a job-worker, ⁴⁷[and where the goods are sent from one job worker to another job worker, the challan may be issued either by the principal or the job worker sending the goods to another job worker:

Provided that the challan issued by the principal may be endorsed by the job worker, indicating therein the quantity and description of goods where the goods are sent by one job worker to another or are returned to the principal:

Provided further that the challan endorsed by the job worker may be further endorsed by another job worker, indicating therein the quantity and description of goods where the goods are sent by one job worker to another or are returned to the principal]

- (2) The challan issued by the principal to the job worker shall contain the details specified in rule 55.
- (3) The details of challans in respect of goods dispatched to a job worker or received from a job worker ⁴⁸~~[or sent from one job worker to another]~~ during a quarter shall be included in FORM GST ITC-04 furnished for that period on or before the twenty-fifth day of the month succeeding the said quarter ⁴⁹~~[or within such further period as may be extended by the Commissioner by a notification in this behalf:~~

Provided that any extension of the time limit notified by the Commissioner of State tax or the Commissioner of Union territory tax shall be deemed to be notified by the Commissioner.]

- (4) Where the inputs or capital goods are not returned to the principal within the time stipulated in section 143, it shall be deemed that such inputs or capital goods had been supplied by the principal to the job worker on the day when the said inputs or capital were sent out and the said supply shall be declared in FORM GSTR-1* and the principal shall be liable to pay the tax along with applicable interest.

Explanation.- For the purposes of this Chapter, -

- (1) the expressions "capital goods" shall include "plant and machinery" as defined in the Explanation to section 17;
- (2) for determining the value of an exempt supply as referred to in sub-section (3) of section 17-
 - (a) the value of land and building shall be taken as the same as adopted for the purpose of paying stamp duty; and
 - (b) the value of security shall be taken as one per cent of the sale value of such security.

Related Provisions of the Statute:

Section or Rule	Description
Section 16	Eligibility and conditions for taking input tax credit
Section 143	Job work procedure
Rule 55	Transportation of goods without issue of invoice

19.1 Introduction

This provision relates to taking of credit of input tax on goods sent for job work.

19.2 Analysis**(i) Relevant Definitions:**

- **Job work:** Any treatment or process undertaken by a person on goods belonging to another registered person (section 2(68)).
- **Job worker:** A person who undertakes any treatment or process on goods belonging to another registered person.
- **Principal:** A person on whose behalf an agent carries on the business of supply or receipt of goods or services or both.

(ii) Entitlement of credit on inputs: The principal can take credit of input tax on inputs sent to job-worker subject to fulfilment of the following conditions:

- Rule 45 of Central Goods and Service Tax Rules, 2017 provides the following:
 - o To issue a delivery challan for transfer of inputs to the job-worker including where they are sent directly (to maintain paper trail of transaction)
 - o The details of delivery challans for goods dispatched to job worker or received from job worker or sent from one job worker to another during the quarter are to be included in Form GST ITC-04 to be furnished on or before 25th day of the month succeeding that quarter. However, vide Notification no. 38/2019-Central tax dated 31st August 2019, the government has waived off the requirement to furnish Form GST ITC-04 for the period July 2017 to March 2019. However, the Form GST ITC-04 for the period April to June 2019 is required to contain the details of the goods sent on job work but not received within the time limit till the period of March 2019.
 - o Delivery challan is to contain all details as required in respect of an invoice prescribed in Rule 55 of Central Goods and Service Tax Rules, 2017. All delivery challans issued in respect of inputs sent to a job-worker and those received back are to be reported in GSTR-1

- o The inputs, after completion of job-work, are to be received back by the principal within 1 year of their being sent out.
- o In case of non-receipt of the inputs within the time prescribed, the principal shall issue an invoice for the same and declare such supplies in his return for that particular month in which the time period of one year has expired.
- o In case of direct supply, the period of 1 year shall be reckoned from the date the job worker receives such inputs.
- o The credit of inputs can be taken even if inputs are sent directly to job-worker's premises without bringing it to principal's place of business.
- o If the inputs are not received back within 1 year, it shall be deemed that such inputs had been supplied by principal to the job worker on the day when the said inputs were sent out.

(iii) **Entitlement to credit on capital goods:** The principal can take credit of input tax on capital goods sent to job-worker subject to the fulfilment of the following conditions:

- The capital goods, after completion of job-work, are received back by him within 3 years of their being sent out.
- The principal can take credit of capital goods even if such capital goods are sent directly to job-worker's place without bringing to principal's place of business.
- If the capital goods are not received back within 3 years, it shall be deemed that such capital goods had been supplied by principal to the job worker on the day when the said capital goods were sent out.
- Procedures listed in respect of inputs under Rule 45 of the Central Goods and Service Tax Rules, 2017 will equally apply to capital goods also (refer above).

Given that non-receipt of inputs or capital goods within a period of one year and three years respectively would be deemed to be a supply as on the date on which goods were originally dispatched to the job worker, it is preferred that a principal raises a tax invoice and supplies the goods against such invoice at the time of original supply, if he is certain that such goods would not be received within the period specified above. This would enable the principal from having to bear the burden of interest, as interest would be calculated from the date on which the goods were originally dispatched and not from the date on which the period of one year or three years, as the case may be, expires.

Some experts are of the view that unless the Principal is 'registered', the activity would not be 'job-work'. And when the supply – treatment or process – is not job-work, then it would also not be eligible to be classified under HSN 9988 in the Annexure – Scheme of Classification of Services. Although the nature of work performed is the same whether the Principal is registered or not, the classification of supplies would need to be based on another suitable

HSN code in chapter 99 because paragraph 3, Schedule II does refers to 'another person's goods' and not 'another registered person's goods'. Hence, due to the registration status of the Principal, the treatment or process may or may not qualify as job-work but in either case, the work of the supplier would continue to be 'treated as supply of services' though not under HSN 9988. It must be noted that while every manufacture may encompass 'process or job-work' every job-work need not necessarily result in manufacture. It is for this reason that in the rate notification manufacturing services has been separately mentioned for work carried out on "physical inputs owned by others".

Treatment of process undertaken may or may not result in manufacture (section 2(72)) where processing of raw material or inputs that results in the emergence of a new product. Whether it results in manufacture or not, the treatment or process would always be 'treated as supply of services' in view of the mandate specified in paragraph 3, schedule II. Manufacture is a sub-set of job-work. And job-work will only NOT be job-work if principal is unregistered. Reference may be had to be recent changes in entry 26 as follows:

Sub-entry under entry 26	Keywords from Description	Sub-entry applicable only		
		if Principal is:		If new article emerges
		Registered	Unregistered	
(i), (ia), (ib), (ic) and (id)	Services by way of job work....	✓	✗	✗
(ii), (ia) and (iii)	Services by way of any treatment or process	✓	✓	✗
(iv)	Manufacturing services....	✓	✓	✓

Now, 'goods belonging to another' does not mean 100% of the goods required in the job-work must be provided by the Principal. It is common, and often inevitable, for the job-worker to apply his own goods. Goods required for job-work can generally identified as primary, secondary and ancillary material. If the job-worker applies ancillary material in the course of carrying out the treatment or process, the transaction does not cease to be job-work. Similarly, if the Principal provides only ancillary material, it is not justifiable to regard the transaction as job-work. Hence, a reasonable construction of the definition of paragraph 3, schedule II requires the Principal to provide the 'primary material' at least to qualify a transaction to be termed as 'job work'. Although there are no infallible tests or undisputed guiding principle or no one-rule can be prescribed the classification into primary-secondary-ancillary itself is a subjective matter. Reasonable construction is required based on the role, each component plays in relation to the finished product in terms of function and identity to determine 'goods belonging to another' correctly.

Please note that job-working must not be confused with repair or maintenance. Job-working creates the functionality of an article, but repair or maintenance restores or improves the functionality already created and possessed by that article or thing.

As regards 'movement of goods' by Principal to job-worker, it is not a supply for the reason that the ingredients required to constitute supply (as detailed in the explanation of clause (a) to (c) under section 7(1)) are not satisfied. It is for this reason that section 19(3) and 19(6) is required to 'deem' this movement of goods to be a supply in the event of failure of job-worker to return processed goods within the permitted time (1 year for inputs and 3 years for capital goods, respectively). Further, 19(3) and 19(6) 'deem' it to be a supply not on the date of expiry of the permitted time to return them, but retrospectively on the date when the inputs / capital goods were originally sent 'for' job-work.

Deeming fiction is capable of providing a meaning that is otherwise not available to a word or phrase. Deeming fiction is used with great caution by the lawmaker and when it is used, its construction must be with the same caution and seriousness. Hence, 'movement of goods' for the purpose of job-work is not supply but is 'deemed' to be a supply by failure of a contingency or condition-subsequent.

As discussed earlier, loss of goods (inputs or capital goods) during the processing or manufacture of output is NOT liable to reversal of credit under section 17(5)(h). Now, when inputs have been issued to a job-worker and there is some loss of inputs in the hands of job worker, whether the same would also NOT be liable reversal of credit.

Do consider that conversion of inputs into processed output on job working basis necessarily involves normal loss. If the extent of normal loss has been records (as there is no provision in GST law to report the same prior to sending inputs to job worker), non-receipt of inputs DOES NOT amount to deemed supply under section 19(3). However, any abnormal loss in job worker's hand will not enjoy this relief but be deemed supply and attract tax in the hands of principal. Time of supply will be the date when the inputs were issued for job work and hence attract interest also. Please note the divergence in treatment of abnormal loss in hands of principal which is saved due to actual use albeit inefficiently by principal whereas such abnormal loss in hands of job worker is impacted by the 'deeming' fiction in section 19(3). Since divergence is not uncommon when legal fiction operates. These implications may be taken care of while complying because GST is a self-assessment-based tax and taxpayer is obliged to inquire into all these aspects and report voluntarily.

It is section 16 and not section 19 that allows input tax credit, but section 19 permits taking of input tax credit even when the inputs (or capital goods) are not first received at the premises of the Principal but delivered directly to job-worker. Reference may be had to the new explanation inserted to section 16(2)(b) that delivery of goods or services to any other person 'on behalf of' or 'on account of' would be sufficient compliance with this condition. This explanation is not only applicable to job-work situation but to others as well.

Section 19 also does not deny or recover the input tax credit already availed by the Principal on the occasion of sending them to the job-worker. When movement of goods for job-work is not a supply, where is the need for a provision to permit continuation of credit that was already availed validly. Since credit has been availed, failure to use the inputs (or capital goods) as 'intended' under section 16(1) would cause a break-down of the credit scheme – to allow credit only when the said goods are subsequently supplied and are taxable. And for this reason, transfer of business assets on which credit availed is 'declared' to be supply in paragraph 1, schedule I and diversion for non-business use (in certain cases) is 'treated' as supply in paragraph 4(a) and 4(b), schedule II. But there is no provision to impute supply characteristics to 'movement of goods for job-work'. This responsibility is cast by section 19(3) and 19(6), respectively.

This can be contrasted with the 'time of supply' of goods sent-on-approval under section 31(7). Here, the date of acceptance by customer (or end of 6th month) is recognized as supply and hence registers 'time of supply'. It is interesting to note that there is deeming fiction employed here because none is required. In other words, 'sending goods on approval' is not a supply for the same reason that the ingredients required to constitute supply (as detailed in the explanation of clause (a) to (c) under section 7(1)) are not satisfied. And such a test can validly be applied for verifying whether 'movement of goods for job-work' is supply or not. By applying the same test to 'sending goods on approval', the 'time of supply' is not the date of sending them but the date of their acceptance by customer (or end of 6th month).

19.3 Comparative review

Aspect	Credit under erstwhile system	Input tax credit under CGST
Definition of "job work"	Defined in Cenvat Credit Rules to mean processing of material supplied to job worker to complete whole or part of manufacturing process	Defined to mean undertaking any treatment or process by a person on goods belonging to another registered person
Eligibility of Cenvat credit to principal manufacturer	Principal is eligible for Cenvat credit	Similar in CGST. Principal is eligible for Cenvat credit
Conditions for return of inputs and capital goods	For inputs – 180 days For capital goods – 2 years	For inputs – 1 year For capital goods – 3 years
Reversal of credit if inputs/capital goods not returned within specified time	Credit to be reversed	To be treated as deemed supply on the day when such inputs/capital goods are sent out
Re-credit if goods returned after specified time	Re-credit allowed	No such provision

19.4 FAQs

Q1. Whether the principal is eligible to avail input tax credit of inputs sent to job worker for job work?

Ans. Yes. The principal is eligible to avail the input tax credit on inputs sent to job worker for job work.

19.5 MCQs

Q1. The inputs sent to job work have to be received back within:

- (a) 1 year
- (b) 2 years
- (c) 180 days

Ans. (a) 1 year.

Q2. The principal is entitled to avail the credit on capital goods sent to job worker directly:

- (a) Yes
- (b) No
- (c) May be

Ans. (a) Yes.

Q3. If the capital goods sent to job worker has not been received within 3 years from the date of being sent:

- (a) Principal has to pay amount equal to credit taken on such capital goods
- (b) No need to pay amount equal to credit taken on such capital goods
- (c) It shall be treated as deemed supply of capital goods to the job worker
- (d) None of the above

Ans. (c) It shall be treated as deemed supply of capital goods to the job worker

Statutory provisions**20. Manner of distribution of credit by Input Service Distributor**

(1) *The Input Service Distributor shall distribute the credit of central tax as central tax or integrated tax and integrated tax as integrated tax or central, by way of issue of a document containing, the amount of input tax credit being distributed in such manner as may be prescribed.*

(2) *The Input Service Distributor may distribute the credit subject to the following conditions, namely:*

- (a) *the credit can be distributed to recipients of credit against a document containing such details as may be prescribed;*
- (b) *the amount of the credit distributed shall not exceed the amount of credit available for distribution;*
- (c) *the credit of tax paid on input services attributable to recipient of credit shall be distributed only to that recipient;*
- (d) *the credit of tax paid on input services attributable to more than one recipient of credit shall be distributed amongst such recipient(s) to whom the input service is attributable and such distribution shall be pro rata on the basis of the turnover in a State or turnover in a Union Territory of such recipient, during the relevant period, to the aggregate of the turnover of all such recipients to whom such input service is attributable and which are operational in the current year, during the said relevant period;.*
- (e) *the credit of tax paid on input services attributable to all recipients of credit shall be distributed amongst such recipients and such distribution shall be pro rata on the basis of the turnover in a State or turnover in a Union Territory of such recipient, during the relevant period, to the aggregate of the turnover of all recipients and which are operational in the current year, during the said relevant period.*

Explanation –For the purposes of this section,

- (a) *the “relevant period” shall be-*
 - (i) *if the recipients of credit have turnover in their States or Union Territories in the financial year preceding the year during which credit is to be distributed, the said financial year; or*
 - (ii) *if some or all recipients of the credit do not have any turnover in their States or Union Territories in the financial year preceding the year during which the credit is to be distributed, the last quarter for which details of such turnover of all the recipients are available, previous to the month during which credit is to be distributed.*
- (b) *the expression of ‘recipient of credit’ means the supplier of goods or services or both having the same Permanent Account Number as that of Input Service Distributor.*
- (c) *the term ‘turnover’ in relation to any registered person engaged in the supply of taxable goods as well as goods not taxable under this Act, means the value of turnover, reduced by the amount of any duty or tax levied ⁵⁰[under entries 84 and entry 92A] of List I of the Seventh Schedule to the Constitution and entry 51 and 54 of List II of the said Schedule*

⁵⁰ Inserted vide The Central Goods and Services Tax Amendment Act, 2018 w.e.f. 01.02.2019

Extract of the CGST Rules, 2017

39. Procedure for distribution of input tax credit by Input Service Distributor

(1) *An Input Service Distributor shall distribute input tax credit in the manner and subject to the following conditions, namely, -*

- (a) *the input tax credit available for distribution in a month shall be distributed in the same month and the details thereof shall be furnished in FORM GSTR 6 in accordance with the provisions of Chapter VIII of these rules;*
- (b) *the Input Service Distributor shall, in accordance with the provisions of clause (d), separately distribute the amount of ineligible input tax credit (ineligible under the provisions of sub-section (5) of section 17 or otherwise) and the amount of eligible input tax credit;*
- (c) *the input tax credit because central tax, State tax, Union territory tax and integrated tax shall be distributed separately in accordance with the provisions of clause (d);*
- (d) *the input tax credit that is required to be distributed in accordance with the provisions of clause (d) and (e) of sub-section (2) of section 20 to one of the recipients 'R1', whether registered or not, from amongst the total of all the recipients to whom input tax credit is attributable, including the recipient(s) who are engaged in making exempt supply, or are otherwise not registered for any reason, shall be the amount, "C₁", to be calculated by applying the following formula –*

$$C_1 = (t_1 \div T) \times C$$

where,

"C" is the amount of credit to be distributed,

"t₁" is the turnover, as referred to in section 20, of person R₁ during the relevant period, and

"T" is the aggregate of the turnover, during the relevant period, of all recipients to whom the input service is attributable in accordance with the provisions of section 20;

- (e) *the input tax credit on account of integrated tax shall be distributed as input tax credit of integrated tax to every recipient;*
- (f) *the input tax credit on account of central tax and State tax or Union territory tax shall-*
 - (i) *in respect of a recipient located in the same State or Union territory in which the Input Service Distributor is located, be distributed as input tax credit of central tax and State tax or Union territory tax respectively;*
 - (ii) *in respect of a recipient located in a State or Union territory other than that of the Input Service Distributor, be distributed as integrated tax and the amount to be*

- so distributed shall be equal to the aggregate of the amount of input tax credit of central tax and State tax or Union territory tax that qualifies for distribution to such recipient in accordance with clause (d);
- (g) the Input Service Distributor shall issue an Input Service Distributor invoice, as prescribed in sub-rule (1) of rule 54, clearly indicating in such invoice that it is issued only for distribution of input tax credit;
 - (h) the Input Service Distributor shall issue an Input Service Distributor credit note, as prescribed in sub-rule (1) of rule 54, for reduction of credit in case the input tax credit already distributed gets reduced for any reason;
 - (i) any additional amount of input tax credit on account of issuance of a debit note to an Input Service Distributor by the supplier shall be distributed in the manner and subject to the conditions specified in clauses (a) to (f) and the amount attributable to any recipient shall be calculated in the manner provided in clause (d) and such credit shall be distributed in the month in which the debit note is included in the return in FORM GSTR-6;
 - (j) any input tax credit required to be reduced on account of issuance of a credit note to the Input Service Distributor by the supplier shall be apportioned to each recipient in the same ratio in which the input tax credit contained in the original invoice was distributed in terms of clause (d), and the amount so apportioned shall be-
 - (i) reduced from the amount to be distributed in the month in which the credit note is included in the return in FORM GSTR-6; or
 - (ii) added to the output tax liability of the recipient where the amount so apportioned is in the negative by the amount of credit under distribution being less than the amount to be adjusted.
 - (2) If the amount of input tax credit distributed by an Input Service Distributor is reduced later for any other reason for any of the recipients, including that it was distributed to a wrong recipient by the Input Service Distributor, the process specified in clause (j) of sub-rule (1) shall apply, mutatis mutandis, for reduction of credit.
 - (3) Subject to sub-rule (2), the Input Service Distributor shall, on the basis of the Input Service Distributor credit note specified in clause (h) of sub-rule (1), issue an Input Service Distributor invoice to the recipient entitled to such credit and include the Input Service Distributor credit note and the Input Service Distributor invoice in the return in FORM GSTR-6 for the month in which such credit note and invoice was issued.

Related Provisions of the Statute

Section or Rule	Description
Section 2(61)	Definition of 'Input Service Distributor'
Section 16	Eligibility and conditions for taking input tax credit
Section 17	Apportionment of credit and blocked credits
Rule 54	Tax invoice in special cases
Rule 65	Form and manner of submission of return by an Input Service Distributor

20.1 Introduction

This Section sets forth the way input tax credit (of services) is distributed to supplier of goods or services or both of same entity having same PAN. Procedure for distribution is given in Rule 39 of Central Goods and Service Tax Rules, 2017.

20.2 Analysis

- (i) An ISD shall distribute the eligible ITC in accordance with Rule 39 elucidated in the following paras. Both eligible and ineligible credits are to be distributed such that distributable credit is 'nil' each month. It is for the recipient-branch to disallow ineligible credits. Distribution-document must suitably indicate nature of credit distributed based on HSN, description and delivery details so that recipient-branch can demonstrate on enquiry that the conditions in section 16 and 17 are duly satisfied and credit retained by such recipient-branch is only eligible credits and not ineligible credits. Experts advise that even in the absence of express mention in rule 54, responsibilities of recipient-branch cannot be discharged without collecting information in custody of ISD, especially when they share same PAN.
- (ii) Input Service Distributor (ISD) is an office of the supplier of goods or services or both where a document (like invoice) of services attributable to other locations are received (since they might be registered separately). Since the services relate to other locations the corresponding credit should be transferred to such locations (having separate registrations) as services are supplied from there. Care should be taken to ensure that an inter-branch supply of services should not be misinterpreted as a distribution by ISD. Please recollect that ISD cannot be an office that does any supply of its own but must be one that merely collects invoice for services and issues prescribed document for its distribution.
- (iii) ISD cannot normally be used in a situation where there is a liability to pay GST. It can only receive input tax credits on invoices related to input services and distribute such credits in the manner discussed below. An ISD cannot discharge tax liability under reverse charge. This would require obtaining another registration as a regular registered

person and discharge RCM liability. Please note a later discussion that ISD is therefore required to be 'nothing more than an office that receives-distributes credit' without having any of the attributes of a 'place of business' by itself.

Examples hereunder are as per rules.

Illustration: Corporate office of XYZ company Ltd., is at New Delhi, having its business locations of selling and servicing of goods at New Delhi, Chennai, Mumbai and Kolkata. For example, if the software license and maintenance is used at all the locations, invoice indicating CGST and SGST is received at Corporate Office. Since the software is used at all the four locations, the input tax credit of entire services cannot be claimed at New Delhi. The same has to be distributed to all four locations. For that reason, the Delhi Corporate office has to act as ISD to distribute the credit.

Rule 39: Central Goods and Service Tax Rules, 2017

The example provided below illustrates the application of Rule 39 of the Central Goods and Service Tax Rules, 2017 for distribution of credits by an Input Service Distributor (ISD) in terms of Section 20.

Yoko Infotech Ltd. has its head office in Mumbai, for which it additionally has an ISD registration. The company has 12 units across India including its head office. It receives the following invoices in the name of the ISD at Mumbai, for the month of January 2018:

Invoice A: ₹ 100,000 @ **IGST** 18,000 issued by Peace Link Technologies (registered in Uttar Pradesh) for repairs executed in 3 units – **Bangalore, Kolkata, Gurgaon** (Note: Gurgaon location is not registered as it is engaged in making only exempt supplies);

Invoice B: ₹ 300,000 @ **CGST** 27,000, **SGST** 27,000 issued by M/s. Tec Force (registered in Pune) for repairs executed in 3 units – **Mumbai, Bangalore, Kolkata;**

Invoice C: ₹ 500,000 @ **IGST** 90,000 issued by M/s. Georgia Marketing (registered in Bangalore) for marketing services for the **company;**

Invoice D: ₹ 10,000 @ **CGST** 900 & **SGST** ₹900 issued by M/s. Gopal Coffee works (registered in Mumbai) for supply of beverages during the month to its **Mumbai unit.**

All taxes have been considered at 18% (CGST and SGST at 9% each).

The turnover of each of the units during the year 2016-17 is: Mumbai: 1 crore; Bangalore 2 crore; Kolkata 1 crore; Gurgaon 2 crore; each of the other 8 units: 50 lakhs, resulting in the aggregate turnover of the company in the previous financial year, of 10 crores.

Distribution of credits by the ISD:

Particulars	Invoice	Bangalore	Kolkata	Mumbai	Gurgaon	8 units	Total
Invoice A							
T/o in State	Note 1	2 crore	1 crore	-	2 crore	-	5 crore
Pro-rata ratio		40%	20%	-	40%	-	100%
Credit	18,000	7,200	3,600	-	7,200	-	18,000
Type	IGST	IGST	IGST	-	IGST	-	
Invoice B							
T/o in State	Note 2	2 crore	1 crore	1 crore	-	-	4 crore
Pro-rata ratio		50%	25%	25%	-	-	100%
CGST Credit	27,000						
• Distribution		13,500	6,750	6,750	-	-	27,000
Type	CGST	IGST	IGST	CGST	-	-	
SGST Credit	27,000						
• Distribution		13,500	6,750	6,750	-	-	27,000
Type	SGST	IGST	IGST	SGST	-	-	
Invoice C							
T/o in State	Note 3	2 crore	1 crore	1 crore	2 crore	0.5 * 8 crore	10 crore
Pro-rata ratio		20%	10%	10%	20%	5% * 8 units	100%
Credit	90,000	18,000	9,000	9,000	18,000	4,500 * 8 units	90,000
Type	IGST	IGST	IGST	IGST	IGST	IGST	

Invoice D							
Attributable to	Note 4	-	-	Yes	-	-	-
Credit (ineligible)	900	-	-	900	-	-	900
Type	CGST	-	-	CGST	-	-	
Credit (ineligible)	900	-	-	900	-	-	900
Type	SGST	-	-	SGST	-	-	
Credit of CGST, SGST and IGST on invoice		Total eligible credits distributed as CGST, SGST and IGST as applicable (Refer Note below)					
CGST	27,000	-	-	6,750	-	-	6,750
SGST	27,000	-	-	6,750	-	-	6,750
IGST	108,000	52,200	26,100	9,000	25,200	4,500 each (viz. total of 36,000)	148,500
TOTAL	162,000	52,200	26,100	22,500	25,200	36,000	162,000
It can be seen from the illustration that credit of CGST of ₹ 27,000 is distributed as CGST credit only to the extent of ₹ 6,750; likewise, credit of SGST of ₹ 27,000 is distributed as SGST credit only to the extent of ₹ 6,750. This is because, the intra-State service billed to the ISD is attributable to 1 unit in the same State as the ISD and 2 other units located in different State. Thus, the balance of CGST credit and SGST credit is distributed as IGST to such units. This is the reason why the credit of IGST lying with the ISD prior to distribution is only ₹ 108,000 while the credit of IGST that is distributed aggregates to ₹ 148,500.							

Note 1: The credit of IGST should always be distributed as IGST credit to all the units to which the service is attributable, regardless of where they are located.

- The credits should be distributed only to those units to which the service is attributable. Given that the service mentioned in the case of Invoice A is attributable only to Bangalore, Kolkata and Gurgaon, the entire input tax credit applicable to the case should be distributed to the said 3 units, on a pro rata basis in the ratio of their respective 'Turnover in State' to the aggregate of the 3 'Turnover in State' (i.e., 2 Cr + 1Cr + 2 Cr). Further, no differentiation is made to whether the unit is registered or not, and therefore, credit attributable to the Gurgaon unit is distributed to that unit although it is not registered, which implies, it is a loss of credit.

- The 'turnover in State' is arrived at a value for the 'relevant period'. Since all 12 units were operational during the preceding financial year, the relevant period would be the preceding financial year.

Note 2: The credit of CGST and SGST should be distributed as IGST credit to all the units located outside the State in which the ISD is located, and as CGST and SGST respectively, in case of distribution of credit to a unit located in the same State as the ISD. Thus, the CGST and SGST credits are distributed as IGST credits to Bangalore and Kolkata, and as CGST & SGST respectively, to Mumbai.

- Given that the service supplied in terms of Invoice B is attributable only to Bangalore, Kolkata and Mumbai, the entire input tax credit applicable to the case should be distributed to the said 3 units, on a pro rata basis in the ratio of their respective 'Turnover in State' to the aggregate of the 3 'Turnover in State' (i.e., 2 Cr + 1Cr + 1 Cr).

Note 3: The credit of IGST is distributed as IGST to all the units to which the service is attributable.

- Invoice C relates to a supply of service that is attributable to all the units, and hence, the credits would be distributed on a pro-rata basis of the 'Turnover in State' of each of the units, to the aggregate of 'Turnover in State' of all the 12 units, i.e., ₹10 Cr.;
- For convenience of presentation, only one column is shown to reflect the distribution to each of the 8 units, having the same 'turnover in State', and to which the same invoice is attributable.

Note 4: Given that the services for receipt of food and beverages would not be eligible input services, the taxes relating to Invoice D should be distributed as ineligible input tax (900 + 900), and the distribution must be done separately.

Since the service is wholly attributable to the Mumbai unit, the distribution is done only to such unit.

- (iv) **Distribution of credit where ISD and recipient are located in different States under CGST Act:** As per Rule 39(1)(e) and (f) of Central Goods and Service Tax Rules, 2017 ISD shall distribute as prescribed, credit of CGST as CGST or IGST and credit of IGST as IGST by issuing prescribed document mentioning the amount of credit distributed to recipient of credit located in different States.

Illustration: In the above illustration, if the corporate office of XYZ Ltd being an ISD situated in Delhi receives invoices indicating ₹ 4 lakhs of CGST in one service and ₹ 7 lakhs as of IGST in another case. It shall distribute CGST of ₹ 4 Lakhs IGST and credit of IGST of ₹ 7 Lakhs also as IGST to its locations at Chennai, Mumbai and Kolkata under a prescribed document containing the amount of credit distributed.

- (v) **Distribution of credit where ISD and recipient are located in different States under SGST Act:** ISD could distribute as prescribed credit of SGST as IGST only (and not as SGST of other State) by issuing a prescribed document containing the amount of credit distributed.

Illustration: In the above illustration, corporate office of XYZ Ltd., also received SGST of ₹ 6 Lakhs along with ₹ 4 Lakhs of CGST. It can distribute SGST credit as IGST to its locations at Chennai, Mumbai and Kolkata under a prescribed document containing the amount of credit distributed.

- (vi) **Distribution of credit where ISD and recipient are located within the State under CGST Act:** In cases where an entity has different registration within the same State by an entity, it may have to distribute credit to such location also similar to locations with different registrations outside the State. In order to enable the same, it is provided that ISD can distribute in the prescribed manner, credit of CGST as CGST and credit of IGST as IGST by issuing prescribed document mentioning the amount of credit distributed to recipient being a business vertical.

Illustration: ABC Ltd., having its office at Bangalore is having another business vertical in Mysore which is separately registered. In such a case, out of input tax credit of ₹ 4 lakhs of CGST, the credit attributable to ABC Ltd, Bangalore, shall be distributed to Mysore location as CGST. Similarly out of input tax credit of ₹ 10 Lakh of IGST, the credit attributable to ABC Ltd, Bangalore shall be distributed to Mysore location as IGST.

- (vii) **Distribution of credit where ISD and recipient are located within the State under SGST Act:** Similar to the provisions of CGST as indicated supra under CGST Act, even under the SGST Act, it is provided that an ISD can distribute in the prescribed manner, credit of SGST and IGST as SGST (of the same State and not other State) and IGST respectively, by issuing a prescribed document mentioning the amount of credit distributed to recipient being a business vertical.

Illustration: In the same example of ABC Ltd., above the input tax credit say ₹ 6 lakhs of SGST shall be distributed as SGST.

- (viii) **Conditions to distribute credit by ISD:** The conditions to distribute the credit by ISD are as follows:
- (a) Credit to be distributed to recipient under prescribed documents containing prescribed details. Such document should be issued to each of the recipient of credit.
 - (b) Credit distributed should not exceed the credit available for distribution.
 - (c) Tax paid on input services used by a particular location (registered as supplier), is to be distributed only to that location.
 - (d) Credit of tax paid on input service used by more than one location who are operational is to be distributed to all of them based on the pro rata basis of turnover of each location in a State to aggregate turnover of all such locations who have used such services.

Note: The period to be considered for computation is the previous financial year of that location. If it does not have any turnover in the previous financial year, then previous quarter of the month to which the credit is being distributed.

- (ix) For a detailed discussion on Tax invoice or Credit note to be issued by an ISD reference may be made to Chapter 8. The said Chapter 8 clearly indicates the particulars to be included in such a document.

Illustration 1: A Ltd as an ISD has input service credit of ₹ 35 lakhs used by more than one locations, to be distributed among recipients locations X, Y and Z. The turnover of X, Y, Z in preceding financial year, is ₹ 10 crores, ₹ 15 crores and ₹ 5 crores respectively. The credit of ₹ 5 lakhs pertains to input service received only by Z. The credit attributable to X, Y, Z are as follows:

Particulars	Amount (in ₹)
Total Credit to be distributed as ISD	35 Lakhs
Credit of service used only by Z location	5 Lakhs
Credit available for distribution for all units	30 Lakhs
Credit distributable to X 10 crores / 30 crores * 30 Lakhs	10 Lakhs
Credit distributable to Y 15 crores / 30 crores * 30 Lakhs	15 Lakhs
Credit distributable to Z 5 crores / 30 crores * 30 Lakhs = 5 Lakhs Credit directly attributable to Z = 5 Lakhs	10 Lakhs

Illustration 2: Distribution of input tax credit by an ISD to its units is shown as under:

M/s XYZ Ltd, having its head Office at Delhi, is registered as ISD. It has three units in different State namely 'Delhi', 'Jaipur' and 'Gujarat' which are operational in the current year. M/s XYZ Ltd furnishes the following information for the month of July 2018 & asks to distribute the credit to various units.

- (i) CGST paid on services used only for Delhi Unit: ₹ 300000/-
(ii) IGST, CGST & SGST paid on services used for all units: ₹ 1200000/-
(iii) Total Turnover of the units for the Financial Year 2017-18 are as follows:-

Unit	Turnover (₹)
Delhi	5,00,00,000
Jaipur	3,00,00,000
Gujarat	2,00,00,000
Total	10,00,00,000

Solution: Computation of Input Tax Credit Distributed to various units: -

Particulars	Total Credit Available	Delhi	Jaipur	Gujarat
		Credit distributed to all Units		
CGST paid on services used only for Delhi Unit.	300000	300000	0	0
IGST, CGST & SGST paid on services used in all units- Distribution on pro rata basis to all the units which are operational in the current year (Refer Note1)	1200000	600000	360000	240000
Total	1500000	900000	360000	240000

Note 1: Credit distributed pro rata basis based on the turnover of all the units are as under: -

- (a) Unit Delhi: $(50000000/100000000)*1200000 = ₹ 600000$
- (b) Unit Jaipur: $(30000000/100000000)*1200000 = ₹ 360000$
- (c) Unit Gujarat: $(20000000/100000000)*1200000 = ₹ 240000$

Relevant period for distribution of credit:

- (a) If the recipient of credit has turnover in their State in preceding financial year of the year in which credit is distributed – Such financial year.
- (b) If some or all recipients do not have any turnover in their State in preceding financial year of the year in which credit is distributed – Last quarter for which details of such turnover of all the recipients are available, previous to the month during which credit is to be distributed.

The analysis of above provision in a pictorial form is summarised as follows:

Input Service Distributor – Sec. 20.

- ITC is distributed to supplier of goods or services or both of same entity having the same PAN as the ISD
- Common Services used at for

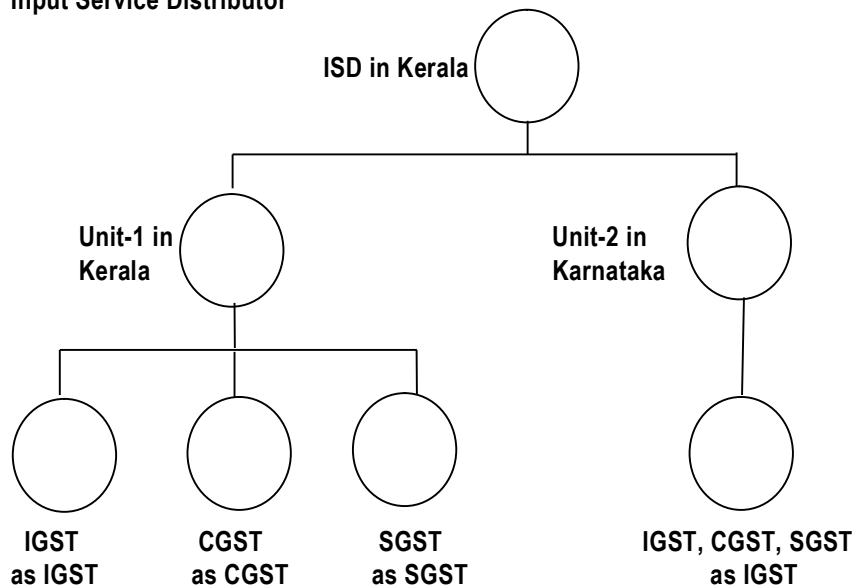

Input Service Distributor

Illustration 3: Consider an example where a Company has a Branch-M in Mumbai and a Branch-D in Delhi. This Company is also incorporated in Delhi. Branch-M incurs various expenses that are supply of services in Delhi where CGST-SGST is liable to be charged in Delhi by that supplier. Obviously, credit of this tax cannot be availed by Branch-D because the underlying expense is not 'in relation to business' of Branch-D because it is exclusively in relation to business of Branch-M. When credit cannot be claimed by Branch-D and Branch-M does not want to forego this credit, the option available is for Branch-M to obtain ISD registration in Delhi. Now, in exactly, the same manner, if Branch-M incurs expenses in Maharashtra (say in Nasik), the implications would be that credit not allowable to Branch-M for these supplies and Branch-D is eligible to obtain ISD registration in Maharashtra, if credit is not to be foregone.

From this example, the following questions arise for careful consideration:

Question	Response
(i) Is ISD registration required in 'all but one' States for a registered taxable person? (All but one may all States/UT other than Home State)	Yes. If tax charged by the supplier is not IGST but CGST-SGST of the host-State where supplies are taking place, then a registered taxable person would require ISD registration in each those host-States except home-State
(ii) Is ISD registration an entity-level office in a given State or is it a registered	Yes, ISD is an entity-level office because section 2(61) defines ISD as "... means an

taxable persons-specific office in other States (outside the home State of that registered taxable person)?	<i>office of the supplier which receives tax invoice....</i> ” It does not say it is an “office of the registered taxable person which receives tax invoice....”
(iii) Will ISD registration be required for each registered taxable person in ‘all but one’ States? (All but one may all States/UT other than Home State)	No. One entity-level ISD registration in all States will suffice for credit distribution requirement of all registered taxable persons having same PAN
(iv) Can an ISD distribute credit of taxes paid in that State alone (whether IGST or CGST-SGST) to registered taxable persons in all other States or only to that State for whose benefit the ISD registration was obtained?	Since ISD is an entity-level registration, one ISD in a State can distribute credit to all registered taxable persons in all other States having same PAN. Further, this ISD can also distribute credit to separately registered business verticals in that same State.
(v) When GSTIN registration is obtained in one State, is there any need to also obtain ISD in the same State or is GSTIN and ISD registrations mutually exclusive in a given State?	Yes, GSTIN registration does not permit distribution of credit. If taxes are paid that is not related to the business of that registered taxable person in that State, then for want of ‘nexus’, credit cannot be availed by him. And to save from loss of credit, ISD registration is the only option to distribute this credit whichever registered taxable person (called ‘recipient of credit’) satisfies this nexus test.
(vi) Can a Company who has independent operations in all 29 States and 2 UTs and is therefore registered in all 31 locations also be required to have 31 ISD registrations?	Yes, the Company could opt to do so.. This is because each registered taxable person stated to be truly independent of other business (of registered taxable persons) and receives supplies in those host-States where CGST-SGST paid in those host-States is to be distributed to the relevant home-State.
(vii) Is it possible, when GSTIN registration is already available in any given State, for the Company to completely avoid ISD registration?	No, for the reasons stated in (vi) & (i) above, it would not be possible to avoid ISD registration.

(viii) If a Company, to avoid ISD compliances, decides to avoid ISD registration in every State where it is already having GSTIN registration?	It is possible that a Company may consider the possibility of doing so subject to loss of legitimate credits which could have been availed as an ISD
(ix) If a Company were to instruct all registered taxable persons in a State who may have credit loss in other States misdirect the suppliers into issuing tax invoice with GSTIN of that State?	Yes, it is possible for a Company to misdirect a supplier. This supplier would only look for genuine GSTIN and similarity of name. It is not the supplier's responsibility to examine 'nexus' while issuing tax invoice
(x) Is ISD registration, therefore, necessary in every State where this 'nexus' test cannot be fulfilled by each registered taxable person?	Yes, as explained in (vii) above, ISD registration is necessary in every State where 'nexus' test is not fulfilled
(xi) Therefore, if multiple ISD registrations or GSTIN-plus-ISD registrations are unavoidable (as explained above), is there any solution to resolve this multiplicity of monthly and quarterly compliances?	Yes, only if 'link is established between the 'no nexus' supplies in a State and the registered taxable person in that same State. If no such 'nexus' exists, credit claim by registered taxable person becomes improper. If nexus is established, please examine valuation of inter-branch supply of services is as per proviso to Rule 28 or as per Rule 30 of Central Goods and Service Tax Rules, 2017 relating to Valuation.

ISD is not merely a matter of compliance but involves great revenue implications to a registered taxable person. Compliance would also not be nominal. So, this is yet another indicator that the business model that has been in place until now has reached end-of-life and a new model needs to be examined. Please consider the following example of a CA in practice with branches in 3 States where the facts are as follows:

Common facts for consideration:	
Head office	Maharashtra
Branch offices	West Bengal and Delhi
Client base	All 3 States
Skills based	Distributed in all offices, based on the assignment, staff from all offices join to complete the assignment
Completion	Sign-off only by Partners who are in Maharashtra and West Bengal

Business models and their comparison are as follows:

Criteria	Under Erstwhile Law	Under GST Law – A	Under GST Law – B
ST (GST) registration	Centralized at Mumbai	All 3 branches	All 3 branches
Billing to clients	From all 3 offices	From Mumbai only	From all 3 offices
Internal billing	None	Branches issue tax invoice to HO at 'cost plus 10%' as per Rule 30 of Central Goods and Service Tax Rules, 2017 relating to Valuation	Every branch including HO to bill each other for their respective contribution on 'revenue split' or 'proportion of contribution' method
ST credit of branches	Availed at Mumbai due to centralized registration (ISD registration not required)	Branches and HO avail input tax credit on tax invoices issued by respective suppliers	Branches and HO avail input tax credit on tax invoices issued by respective suppliers including internal bills
ST credit at HO	Mumbai credits, entity-level credits and branch-specific credits	HO retains credit of all entity-level credits and avails credit of tax invoice issued by branches	HO retains credit of all entity-level credits
Loss, cost or risk	None	IGST outflow on non-credit costs included in valuation and 10% mark-up. Non-credit costs of branches are salaries, depreciation, etc.	Nexus risk on credits: <ul style="list-style-type: none"> entity-level costs like audit fee central vendor bills like data-telecom, travel, etc. Administrative challenge in assignment-level billing allocation
Mitigation	NA	Branch to invoice HO on 30 th in respect of client-level billings due on 1 st of next month so that the incremental IGST outflow from HO to branches is recovered quickly	GST does not impose any 'one-to-one' correlation of credits. Entity-level credit can be contended to be allowed in HO. Assignment-level billing allocation left to each branch to self-regulate

There is no doubt that the above are not recommendations but case for comparative illustration regarding application of the law to a business and to highlight that it is impossible to continue the erstwhile business model in GST, at least in many sectors.

The illustrations considered in this section are matters to be considered for discussion/deliberations only and are not views envisaged. The reader may or may not agree with the views in the discussion in this Chapter/section.

Experts express great concern with respect of ISD in GST and call out the following areas of concern:

- a) ISD in GST is NOT identical to ISD in Service tax regime;
- b) Taxable person registered in one city in a State is considered a registered person in every city in that State unless another registration in the same State is obtained;
- c) ISD in GST is an 'office' that 'receives invoice' and 'distributes credit'. These are the three key principles in section 2(61). In other words, ISD does NOTHING ELSE. Reason being, when there is an office that is a taxable person (making taxable outward supplies), for that office to claim to be ISD, that is, merely receiving invoice and distributing credit is highly questionable;
- d) BFSI sector FAQs issued by Government (available on cbic.gov.in) states the following significant points:
 - HO of a bank is a taxable service provided (Q54) to its branches and by implication not ISD. Under service tax, HO of a bank was operating as an ISD. This brings out the dissimilarity in ISD under GST compared to Service tax;
 - Services provided by HO is referred (Q55) to as 'management oversight or stewardship services' and is liable to tax in terms of para 2 of schedule I. When HO of a bank is said to provide such services, HO of a company or firm or proprietary concern with more than one registrations cannot be managing with anything less and operating without 'oversight' on the activities of all its distinct persons; and
 - Valuation of this service (Q56) was referred to rule 28;
- e) But trade has continued to operate HO (regional or zonal office also) as ISD under GST and this is an area of great concern.

Concerns highlighted by experts are:

- (i) Correctness of ISD registration which ought to have been a cross-charge of services;
- (ii) Credit at the receiving locations may not be disputed but outward supply (cross-charge) can be agitated; and
- (iii) Demands being raised under section 74 (which this case could well satisfy) may result in forfeiture of credit by branches.

It is therefore advised to revisit all ISD registrations in GST to examine if, in fact, that HO or branch DOES NOT provides any taxable supplies in this nature – oversight or stewardship. Experts express concern that co-existence of regular registration and ISD registration in the same premises is dangerous and continuing to ignore the implications could border on being reckless. In case there is advantageous tariff, then the implications can be debilitating and furnish motive for doing so for the enterprise.

20.3 Comparative review

These provisions are similar to the provisions contained in the Rule 7 of CENVAT credit rules for distribution of credit of input service by an ISD.

It appears that the distribution of credit among the recipients prescribed in CENVAT credit Rules has been continued in proposed GST law. The conditions for distribution of credit for each recipient also appear to be continued as before.

20.4 FAQs

Q1. Whether CGST and IGST credit can be distributed by ISD as IGST credit to units located in different States?

Ans. Yes. CGST credit can be distributed as IGST and IGST credit can be distributed as IGST by an ISD for the units located in different States.

Q2. Whether SGST credit can be distributed as IGST credit by an ISD to units located in different States?

Ans. Yes. ISD can distribute SGST credit as IGST for the units located in different States.

Q3. What are the conditions to be fulfilled by ISD to distribute the credit?

Ans. The conditions to be fulfilled by ISD to distribute credit are:

- (a) Credit distributed to recipient under prescribed documents, which is issued to each of the recipient of credit.
- (b) Credit distributed should not exceed the credit available for distribution.
- (c) Tax paid on input services used by a particular location (registered as supplier), to be distributed only to that location.
- (d) Credit of tax paid on input service used by more than one location who are operational is to be distributed to all of them based on the pro rata basis of turnover of each locations in a State to aggregate turnover of all such locations who have used such services.

Q4. What are the documents through which the credit can be distributed by ISD?

Ans. An ISD can distribute credit to its recipient units by way of an ISD invoice prescribed in Rule 54 of the CGST Rules, 2017

Q5. How to distribute common credit among all the units of a ISD?

Ans. The common credit used by all the units can be distributed by ISD on pro rata basis i.e. based on the turnover of each unit to the aggregate turnover of all the units to which credit is distributed.

20.6 MCQs

Q1. The ISD may distribute the CGST and IGST credit to recipient outside the State as_____

- (a) IGST
- (b) CGST
- (c) SGST

Ans. (a) IGST

Q2. The ISD may distribute the CGST credit within the State as_____

- (a) IGST
- (b) CGST
- (c) SGST
- (d) Any of the above.

Ans. (b) CGST

Q3. According to the condition laid down for distribution of credit, ISD can distribute_____

- (a) Credit in excess of credit available
- (b) Only certain percentage of total credit available
- (c) Credit equal to the total credit available for distribution.
- (d) All of the above.

- (a) Distributed among the suppliers who used such input service on pro rata basis of turnover in such State.
- (b) Distributed equally among all the suppliers
- (c) Distributed only to one supplier.
- (d) Cannot be distributed.

Ans. (a) Distributed among the suppliers who used such input service on pro rata basis of turnover in such State.

Statutory provisions**21. Manner of recovery of credit distributed in excess**

Where the Input Service Distributor distributes the credit in contravention of the provisions contained in section 20 resulting in excess distribution of credit to one or more recipients of credit, the excess credit so distributed shall be recovered from such recipient(s) along with interest, and the provisions of section 73 or 74, as the case may be, shall mutatis mutandis apply for determination of amount to be recovered.

Related Provisions of the Statute

Section or Rule	Description
Section 2(61)	Definition of 'Input Service Distributor'
Section 20	Manner of distribution of credit by Input Service Distributor
Section 73	Determination of tax not paid or short paid or erroneously refunded or input tax credit wrongly availed or utilised for any reason other than fraud or any wilful misstatement or suppression of facts.
Section 74	Determination of tax not paid or short paid or erroneously refunded or input tax credit wrongly availed or utilised by reason of fraud or any wilful misstatement or suppression of facts
Rule 65	Form and manner of submission of return by an Input Service Distributor

21.1 Introduction

The CGST Act clearly lays down that credit distribution is not 'to self', that is, a registered taxable person cannot distribute credit to himself. Each registered person being a distinct person u/s 25, must distribute to another registered taxable person but having the same PAN to whom the credit is most accurately attributable. And the consequence of incorrect distribution, due to inadvertence or misapplication of the provisions, are discussed here.

21.2 Analysis**(i) Excess Credit distributed in contravention of provision:**

Excess credit distributed to one or more recipient of credit in contravention of ISD provision under Section 20 is recoverable from the recipient of such credit along with Interest. The recovery would be under the provisions of Section 73 or 74.

Example-1 Total Credit Available to ISD is 15,00,000/- & the credit distributed to all the units is ₹ 16,50,000/- (i.e. Delhi 10,00,000, unit Jaipur ₹ 4,00,000 & unit Gujarat ₹ 2,50,000). What will be the consequences?

Solution: The excess credit of 1,50,000 (₹ 16,50,000- ₹ 15,00,000) distributed would be recovered from the recipient along with interest and the provisions of section 73 or 74 shall apply mutatis mutandis for effecting such recovery.

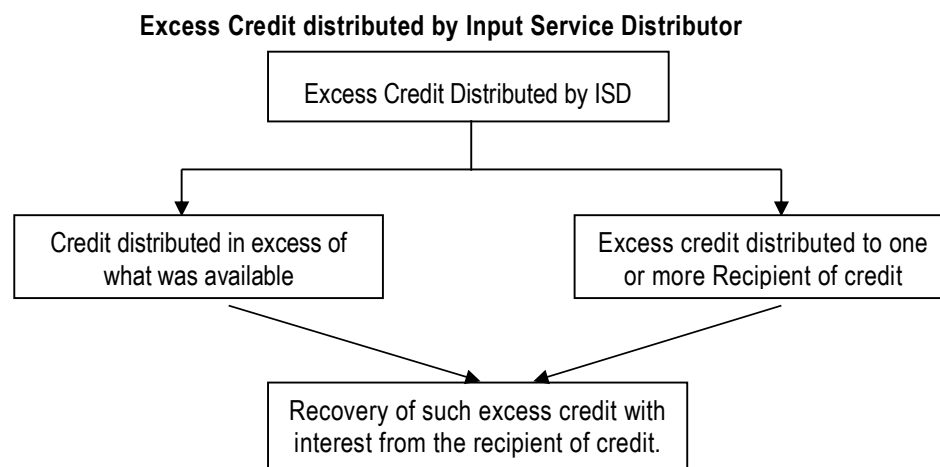

Example-2 Total Credit Available to ISD is ₹ 15,00,000/- & the credit should have been distributed equal to all the units as all units had equal turnover, however credit distributed in violation of Section 21, as under:

Delhi ₹ 7,00,000, Jaipur ₹ 6,00,000, Gujarat ₹ 2,00,000.

What will be the consequences?

Solution: The excess credit of ₹ 2,00,000 (₹ 7,00,000- ₹ 5,00,000) shall be recovered from Delhi and ₹ 1,00,000 (₹ 600,000 – ₹ 5,00,000) shall be recovered from Jaipur along with interest and the provisions of section 73 or 74 shall apply mutatis mutandis for effecting such recovery.

The analysis of above provision in a pictorial form is summarised as follows:

21.3 Comparative review

Earlier recovery provision was specified in Rule 14 of CENVAT Credit Rules. The CENVAT credit taken or utilized wrongly or has been erroneously refunded, was recovered along with interest under the provisions of sections 11A and 11AB of the Excise Act or sections 73 and 75 of the Finance Act.

Earlier, there was no specific provision for excess distribution of credit by ISD. Now specific provision is provided in the GST law providing for recovery of amount along with interest. Further, the relevant period for recovery of excess amount distributed is also provided in GST law.

21.4 FAQs

Q1. Whether the excess credit distributed could be recovered by the department?

Ans. Yes. Excess credit distributed could be recovered along with interest from recipient by the department.

Q2. What are the consequences of credit distributed in contravention of the provision of the Act?

Ans. The credit distributed in contravention of the provision of the Act is to be recovered from the unit to which it is distributed along with interest.
